EXECUTIVE SUMMARY

Council

15th May 2019

Revised Carmarthenshire Local Development Plan 2018 – 2033 DRAFT PRE-DEPOSIT PREFERRED STRATEGY

1. BRIEF SUMMARY OF PURPOSE OF REPORT.

This Report follows the approval at County Council on the 10th January 2018 to formally commence the preparation of a Revised (replacement) Local Development Plan (LDP), along with the Welsh Government's approval of the Delivery Agreement on the 28th June 2018 including its timetable for Plan preparation.

The preparation of the Draft Preferred Strategy (officially titled as the Pre-Deposit Preferred Strategy) represents an important milestone in the Council delivering on its statutory responsibilities to prepare an up-to-date Development Plan for the County (excl. the area within the Brecon Beacons National Park Authority).

The report follows the formal public consultation held on the content of the following documents in relation to the preparation of the revised Local Development Plan between the 12th December 2018 and the 8th February 2019. In total some 344 representations were submitted from a range of bodies and individuals and are broken down as follows:

Draft Preferred Strategy – 269 Representations
Sustainability Appraisal/Strategic Environmental Assessment Initial Report – 11 Representations
Habitat Regulations Assessment Screening Report – 62 Representations
Carmarthenshire Local Development Plan Review Report – 0 Representations
Call for Sand and Gravel Sites - 2 Representations

Details of these representations, along with officer responses and recommendations are set out within this report and its Appendices.

Reference is also made to Appendix 1 of this report which provides further background in relation to the Draft Preferred Strategy and the supporting documents.

2. Background

The preparation of the Draft Preferred Strategy reflects the Council's statutory responsibilities to produce the revised LDP under the Planning and Compulsory Purchase Act 2004 - setting out policies and proposals for future development and use of land for Carmarthenshire over the period to 2033. The Delivery Agreement as approved by the Welsh Government (WG) identifies the timeline for the preparation and Adoption of the Plan by November/December 2021.

In determining the need to prepare a Revised LDP, members will recall that a Review Report was prepared in relation to the current Adopted LDP. This Review Report identified the following considerations:

- The need to ensure that a Revised LDP would be prepared and adopted before the expiration of the current LDP at the end of 2021.
- Failures in the delivery of the LDP strategy, the settlement framework and the spatial distribution of growth - notably in respect of both the level and spatial distribution of growth, and the need to ensure that the strategy, particularly in terms of spatial distribution of growth and the performance of the tier 2 and 3 settlements is realistic and deliverable.
- Failure to deliver a 5 year housing land supply, as required within PPW and Technical Advice Note 1.
- Need to ensure that the strategy and the identified growth requirements are robust, and that the spatial framework, distribution of growth and the allocated sites within the Plan are deliverable.
- To consider the implications of the 2014-based Local Authority Population and Household Projections and the variance in population change and household requirements.
- In addition, to consider contextual changes and changes in the form of legislation, national policy and a range of Plans and strategies and to the evidence base.

The preparation of the Draft Preferred Strategy, in reflecting the above and other outcomes from the Annual Monitoring Reports, also seeks to develop an evidence-based process. This is derived from a the need to develop a balanced understanding of the regional and local context, as well as those key issues and drivers relevant to, and addressable through planning policies and land use allocation planning policies.

At the heart of this, is the need for a level of population growth which reflect the Council's objectives and aspirations for job creation and delivery of new homes (including affordable), whilst recognising the diversity of the County, its economy and communities. In this respect, the Draft Preferred Strategy will at a strategic level (matters of detail and individual sites will be considered at the Deposit LDP stage), seek to balance these requirements ensuring that sufficient housing, employment sites, community facilities and infrastructure is provided to support this anticipated level of growth in a way that does not have an unacceptable adverse impact on the environment or communities.

The development of the Preferred Strategy and its components including: Issues; Vision, Strategic Objectives; Growth Options; Spatial Options and preferred strategic approach have been considered and developed in light of engagement through a number of groups and consultations including the Key Stakeholder Forum. The documentation associated with these consultations will be published along with the Preferred Strategy.

3. Draft Preferred Strategy - Key Themes from Representations

As noted above 269 representation were submitted in respect of the Draft Preferred Strategy. These submissions were from a wide range of respondents and offer constructive input for the Revised LDP as it progresses through its preparatory process.

Many of the comments received reflect that the preparation of the development plan is iterative in nature with its content and the evidence base developing in response to changes in approach and guidance. In this respect as the preparation of the revised LDP progresses toward the Deposit Plan further detail will emerge and be incorporated.

The importance of collaborative working across organisations also emerges as a consistent theme within the representations including the need to work with landowners and developers on bringing sites forward and producing the necessary evidence to support their inclusion in the Plan.

Please see Appendix 2 for the representations received and the officer comments and recommendations.

4. Sustainability Appraisal (SA)/Strategic Environmental Assessment (SEA) and Habitats Regulations Assessment (HRA) - Key Themes from Representations

The publication of the Draft Preferred Strategy will be accompanied by a suite of evidential and other documents. Key amongst these is the Initial Sustainability Appraisal (SA) which incorporates the Strategic Environmental Assessment (SEA). The SA is required by Section 62 (6a) of the Planning Compulsory Purchase Act 2004, while the SEA is a requirement of the SEA Directive 2001/42/EC1. An SEA is a mandatory requirement for plans/programmes.

The SA is an integral part of the preparation of the Revised LDP, evaluating and testing its content throughout its preparatory process. In particular the Initial SA:

- Tests the Revised LDP objectives against the Sustainability Framework.
- Predicts and evaluates the effects of the LDP options in terms of both growth and spatial distribution, as well as the strategic policies that will be put in place to implement them.
- Considers ways of mitigating adverse effects and maximising beneficial effects.
- Proposes measures to monitor the significant effects of implementing the LDP.

A further key document is the Habitat Regulations Assessment (HRA) Screening Report.

The 11 and 62 responses received in relation to the SA/SEA and HRA documents respectively reflect the often technical nature of their content. In this respect the focus of the comments was from Natural Resources Wales and provide technical updates and further detail to improve their clarity and meaning.

The comments received and officer comments and recommendations in respect of the SA/SEA Initial Report are as set out Appendix 3, and Appendix 4 in respect of the HRA Screening Report. Please note Appendix 5 sets out those responses received to the SA scoping report (these are included for the purposes of transparency). The Scoping Report has already been the subject of a focussed consultation exercise (that is, with technical bodies/organisations) back in July/August 2018.

5. Call for Sand and Gravel Sites.

The 'call for sand and gravel sites' was undertaken in response to Minerals Technical Advice Note 1 Aggregates which places a requirement to maintain adequate reserves for the Plan period. Whilst there is currently an adequate supply (in combination with Ceredigion and Pembrokeshire), the Regional Technical Statement notes a potential shortfall in provision of sand and gravel resources (over a 15 year period).

In seeking to address to above the 'call for sand and gravel sites' resulted in two submissions. Both focused on sites with existing extant planning permissions as follows:

Llwynjack farm, Llandovery – respondent C.J. Lewis
Cwmgwyn Farm, Llandovery – respondent D.A. Lewis

The sites will be considered against their ability to contribute to meeting any shortfall in provision. In this respect their current extant status is duly noted. Copies of the representations are available to view through the Forward Planning Section.

6. Consultation on the Register of Candidate Sites

In conjunction with the consultation on the Draft Preferred Strategy a further consultation was undertaken on those sites submitted as part of the 'Call for Candidate Sites' held in 2018. This provided interested parties with an opportunity to lodge their views on the 926 candidate sites submitted to the LPA.

As part of this process a significant number of representations were submitted. These will be utilised to inform the consideration and selection of sites for inclusion within the Deposit LDP. It should be noted that the candidate Sites submitted as part of the call for sites, are not proposed by the local planning authority rather they represent expressions of interest from individuals/ developers. It should be noted that a number of sites have been submitted as part of this process by other service areas within the Council. Responses received as part of the consultation on the Register of Candidate Sites will not be subject to the reporting process.

Further details on the number and spatial focus of the representations will be made available once Officers have had the opportunity to review and summarise those comments.

7. Next Steps

Following the Council's deliberations, the Draft Preferred Strategy along with its supporting documents will be amended with any changes incorporated into the next version of the Plan. In this respect any amendments to the Preferred Strategy as a result of this report and the member deliberations and the recommendations of the SA/SEA, HRA and emerging evidence will be incorporated within the Draft Deposit LDP scheduled for publication in December 2019.

Members should note that the Draft Deposit LDP and its content will be reported to a meeting of Council prior to its publication for consultation.

Note: It should be noted that whilst the revised LDP is being prepared, the current adopted Plan remains extant and will continue to provide the planning policy framework by which planning applications will be determined.

DETAILED REPORT ATTACHED ?	YES
----------------------------	-----

IMPLICATIONS

I confirm that other than those implications which have been agreed with the appropriate Directors / Heads of Service and are referred to in detail below, there are no other implications associated with this report :

Signed: L Quelch

Head of Planning

Policy, Crime & Disorder and Equalities	Legal	Finance	ICT	Risk Management Issues	Staffing Implications	Physical Assets
YES	YES	YES	NONE	YES	YES	YES

1. Policy, Crime & Disorder and Equalities

The Draft Preferred Strategy identifies the links and requirements necessary to ensure the Plan, and the processes in its preparation are compatible with Carmarthenshire County Council's well-being objectives. It also ensures alignment with the national Well-being Goals set out within the Well-being of Future Generations Act 2015. Through its land use planning policies, the Revised LDP will seek to promote the principles of sustainability and sustainable development by facilitating the creation of communities and local economies which are more sustainable, providing access to local services and facilities and reducing the need to travel.

The integration of sustainability as part of the preparation of the LDP is reflected in the undertaking of a Sustainability Appraisal and Strategic Environmental Assessment reflecting national and international legislative requirements. The formulation of the Revised LDP will closely consider matters of sustainability and will be prepared with the outcomes of the Plan measured in light of the Sustainability Appraisal indicators. This iterative approach ensures sustainability is at the heart of the Plan and that it is reflective of the requirements emanating from the Wellbeing and Future Generations Act 2015 and the emerging Carmarthenshire Well-being Plan.

The Plan will be assessed against the National and local Well-being Objectives. The Revised LDP will ensure the requirements emanating from the Act are fully and appropriately considered with the Plan, reflective of its duties.

2. Legal

The preparation of the Revised LDP reflects the provisions of the Planning and Compulsory Purchase Act 2004, the requirements of the Planning (Wales) Act 2015 and secondary legislation in the form of the Local Development Plan (Regulations) Wales (As amended) 2015.

The preparation of the LDP will also have appropriate regard to other sources of primary and secondary legislation including the Environment (Wales) Act and the Well-being of Future Generations Act 2015.

The preparation of the Draft Preferred Strategy is in accordance with the 2004 Planning and Compulsory Purchase Act. It is also in line with national regulations and guidance in relation to its scope and content.

3. Finance

Financial costs to date are covered through the financial provisions in place - including growth items and reserves. Should the Planning Division Budget not be in a position to provide further funding necessary to meet the statutory requirements to review and prepare a development plan then an application will be made for a further growth bid.

The Delivery Agreement, in making reference to such matters, outlines the Council's commitment to prepare and adopt an up-to-date LDP in accordance with the Council's statutory duty.

4 Risk management

The delivery timeframe is that agreed by WG as required by Statute. There is very little room for slippage in that timetable.

The timetable set is intended to ensure that the LA has a LDP in place once the current LDP expires in 2021. Any slippages would therefore put the LA at risk of not having an adopted LDP in place for a period of time after 2021.

6. Physical Assets

Council owned sites and properties have been submitted to the LPA as part of the candidate sites process. The preparation of the Revised LDP will impact on Council land and property holdings through their inclusion or otherwise for potential development purposes. This will have implications on potential disposal and land valuations and consequently capital receipts.

7. Staffing Implications

Provision will be required for a Programme Officer for the Examination into the LDP (anticipated 2020/21).

CONSULTATIONS

I confirm that the appropriate consultations have taken in place and the outcomes are as detailed below

Signed: L Quelch

Head of Planning

(Please specify the outcomes of consultations undertaken where they arise against the following headings)

1. Scrutiny Committee

TBC

2. Local Member(s)

The content of the documents within this report have been subject to full public consultation. Members have been and will continue to be engaged throughout the LDP revision process.

3. Community / Town Council

The content of the documents within this report have been subject to full public consultation. Town/Community Councils(s) are a specific consultee at statutory stages throughout the LDP revision.

4. Relevant Partners

The content of the documents within this report have been subject to full public consultation. A range of partners are identified as specific and general consultees throughout the LDP review process.

5. Staff Side Representatives and other Organisations

The content of the documents within this report have been subject to full public consultation. Internal contributions have to date and will be sought throughout the LDP review process.

Appendix 1

Draft Pre-Deposit Preferred Strategy – Background

The Draft Preferred Strategy consists of a number of key elements effectively reflecting stages in its preparation. Engagement has, in accordance with the provisions of the Delivery Agreement been an important aspect of the strategy's preparation, with the deliberations of the Key Stakeholder Forum and other focused groups being instrumental.

In following a sequential approach to its preparation, a series of key issues and drivers were identified and formed the basis for the formulation of the Vision and Strategic Objectives – these underpin the Draft Preferred Strategy. They reflected not only the feedback and input through evidence gathering, but also sought to incorporate legislative duties such as the Well-being of Future Generations Act 2015, and other key Plans and strategies such as the Corporate Strategy and the Swansea Bay City Deal.

A key element of the Draft Preferred Strategy is founded on the need for the Plan to make appropriate provision for sustainable and deliverable growth. In this respect, the Council has sought to challenge the Welsh Government's 2014-based population and household projections. The 2014-based projections indicated a requirement of approximately 3,200 homes during the revised LDP period (2018-2033). In seeking to challenge these projections and deliver a sustainable level of growth for Carmarthenshire regard has been had to a range of indicators including strategies and objectives for the County at a regional and corporate level as well as current rates of housing delivery.

As a consequence of the above a specialist demographic consultancy (Edge Analytics) have been utilised to develop a range of population and household scenarios for the Plan period through to 2033. Further information is available in the topic paper via the link below.

<https://www.carmarthenshire.gov.wales/media/1216736/population-and-household-projections-topic-paper-for-web-version-002.pdf>

Preferred Growth Scenario - A range of options were considered as part of this research each taking particular trends and migration assumptions into account (see graph below for all scenarios). However, in order to establish a level of growth which delivers on the Council's corporate regeneration objectives, and the opportunities presented through the City Deal for the creation of 5,295 new jobs by the end of the Plan period, it was important to measure population change and the creation of new homes against facilitating the delivery of this number of jobs.

In this respect, two of the demographic scenarios provided for such a level of growth. The following figure in identifying Carmarthenshire's Projected Average Annual Employment Growth identifies that the Projected Growth Long Term and Projected Growth Pre-recession scenarios provide for 5,295 and 9,480 jobs respectively for the Plan period. Consequently both scenarios deliver sufficient opportunity to facilitate jobs growth to meet the 5,000 jobs target identified above.

Carmarthenshire Average Annual Employment Growth

WG – Welsh Government
 PG – Population Growth

Consequently, and in order to meet this requirement and deliver the economic growth necessary to deliver and support the economic objectives set out within the following strategies and plans it is proposed that a requirement for 9,887 new homes be delivered by 2033:

- The Council’s Strategic Regeneration Plan 2015 – 2030 – Transformations;
- Swansea Bay City Deal;
- The New Corporate Strategy 2018 – 2023;
- Council’s Well-being Objectives; and
- Moving Forward in Carmarthenshire: the next 5-years.

This scenario is based on an overall population increase of 17,567 (9.4%). This reflects the PG Long Term scenario set out in the graph above. It should be noted that whilst this number of homes figure (9,887) is above that set out within the WG 2014-based projections, it is also notably below the current LDP which makes provision for 15,197 homes.

Through utilising this strategy for growth through applying the PG Long Term scenario, the revised LDP will therefore seek to facilitate the delivery of a minimum of 5,295 jobs over the Plan period, and this relates and correspond to the jobs growth figures within the Council’s Regeneration Plan. The LDP will promote and facilitate the development of the economy across Carmarthenshire and will set an appropriate land allocation in support of an ambitious Carmarthenshire which attracts investment and provides opportunities for those living and working in our communities. In respect to job creation, and how this transfers to the amount

of employment land site allocations, it should be noted that this will be subject to further evidencing as part of the preparation of the Deposit LDP during 2019.

The proposed growth levels would also seek to challenge and address current demographic patterns particularly the out-migration as evidenced in the 16-19 age group (see <https://www.carmarthenshire.gov.wales/media/1216736/population-and-household-projections-topic-paper-for-web-version-002.pdf>). It provides opportunities to balance the demographics of the County through the retention of, and in-migration of younger adults (including those returning) to the County, and address some of the issues which could be perceived from an aging population.

In addition, the growth requirement set within the Draft Preferred Strategy will also assist in ensuring sufficient opportunity exists to maximise affordable provision, including linking with:

- the recently established Council Housing Company;
- Affordable Housing Delivery Plan - with its provision for 1,000 new homes; and
- Local Housing Market Assessment; and
- to consider and reflect rural needs and issues, whilst reflecting the emphasis and requirements in respect of sustainable developments.

Reference is made to the current build rate within Carmarthenshire which indicates a completion rate of approx. 500 new homes per year over recent years.

Preferred Spatial Strategy - As a mechanism for the distribution and delivery of growth a series of spatial options were identified and considered for the Preferred /strategy and which have been subject to consultation earlier this year. These included:

- Option 1 – Current LDP
- Option 2 – Infrastructure and Transport Network
- Option 3 – Dispersal
- Option 4 - Community Led Option
- Option 5 – Swansea Bay City/Region Influence Option
- Option 6 – Market Led

In considering the above the Draft Preferred Strategy identifies a Hybrid which builds on Option 4 and reflects considerations around the rural agenda, City Deal/Regeneration and the need for infrastructure and market conditions to support delivery. This **Option Balanced Community and Sustainable Growth Strategy** represents a revision to the approach in the current LDP and one which seeks to address the issues highlighted in the Review Report, as well as reflecting the feedback in the formulation of the strategy.

This new spatial strategy will be reflective of the diversity of the County and its communities whilst having regard to sustainability and the emphasis on deliverability. The strategy does not seek to apportion development spatially within the hierarchy through proportional distribution or quotas, rather, it will seek to distribute the growth in a way which reflects the diversity of the settlement clusters and in a sustainable manner. It will have regard to the role and function of the settlements but also accepts that some settlements which by virtue of the services and facilities available may not necessarily be the most appropriate options for all the growth. This may reflect a number of factors, not least environmental constraints, but also historical delivery of growth within such settlements.

The approach will avoid any assumption that that every settlement in every tier must contribute towards growth. Rather it will consider the settlements on their merits whilst having regard to their sustainability and position within the framework. The revised spatial hierarchy and the distribution of growth will therefore be expressed through the appended framework with settlements grouped under respective clusters.

Strategic Policies - A series of Strategic Policies have been developed to implement the delivery of the LDP and its strategic objectives. These policies have been grouped under the following well-being objectives as derived from the PSB Well-being Plan:

- Healthy Habits - People have a good quality of life, and make healthy choices about their lives and environment.
- Early Intervention - To make sure that people have the right help at the right time; as and when they need it.
- Strong Connections - Strongly connected people, places and organisations that are able to adapt to change.
- Prosperous People and Places - To maximise opportunities for people and places in both urban and rural parts of our county.

The Policies themes are as follows:

- Climate Change
- Well Designed Places and Spaces
- Strategic Growth
- Sustainable Distribution – Settlement Framework
- Providing New Homes
- Affordable Homes
- Gypsy and Traveller Provision
- Strategic Sites
- Employment and the Economy
- Transport and Accessibility
- Infrastructure
- Retail and Town Centres
- The Visitor Economy
- Rural
- Welsh Language and Culture
- Mineral Resources
- Waste Management
- Protection and Enhancement of the Built and Historic Environment.
- Protection and Enhancement of the Natural Environment.

It should be noted that the Draft Preferred Strategy does not include:

- **Site specific allocations or development limits/settlement boundaries**, for example housing or employment sites. These will be identified in the Deposit LDP; or
- **Detailed or specific planning policies** – additional and more specific policies to support the Strategic Policies. These will be included in the Deposit LDP.

Summary:

The Letitia Cornwallis Trust, established 1790's located of the A40 at Llanwrda would like to be considered for inclusion as a candidate site for using the 3.5 acres to create a community hub. This would include restoration of the Georgian Alms House, renovation of the Georgian School and associated buildings and consider using some of the land at the rear of the property to build (yet to be refined in detail) units, homes, affordable, self builds etc. whilst maintaining the large recreational area and the existing quality play equipment.

Response / Recommendation

Noted, site specific matters are considered as part of the candidate site process.

Summary:

The respondent requests the site be considered for inclusion. Reference should be made to representation 675

Response / Recommendation

Noted, site specific matters are considered as part of the candidate site process

Section 4. Influences on the Plan

Section 4. Influences on the Plan

<i>Representation(s)</i>	<i>Nature</i>
1779 Mineral Products Association Wales (Mr Nick Horsley) [3778]	Object

Summary:

We believe the Regional Technical Statement and the Welsh Marine Plan should be added to the list of documents referred to

Change To Plan Sought:

Amend the text to include the Welsh Marine Plan & the Regional Technical Statement.

Response / Recommendation

Noted. The comments by the respondent in respect of 'Section 4. Influences on the Plan' are duly noted. Any amendments to wording will be considered as part of the preparation of the Deposit LDP.

Paragraph 4.5

<i>Representation(s)</i>	<i>Nature</i>
1759 City & County of Swansea (Mr Tom Evans) [3761]	Comment

Summary:

The Swansea LDP is at an advanced stage and adoption of the plan is due to be considered at Council on 28th February 2019. The cross boundary implications of the following policies will therefore need to be taken into account in the deposit plan and reflected appropriately in the SA and HRA process.

* Strategic Site Allocation SD A - South OF Glanffrwd Road, Pontarddulais and associated developer requirements (Policy SDH, Appendix 5, Appendix 3, Infrastructure Development Plan)

* Strategic Site Allocation SD H and associated development requirements for provision of park and ride at Gowerton Station

* Non-Strategic Site allocations under Policy H1 at Gorseinon and Loughor - impact on water quality and highways network. (see H1.30/H1.19/H1.25/H1.32)

* RP 4 - Water Quality

* EU1 - Renewable and Low Carbon Energy Developments - See Solar Search Areas on Proposals Map - located to east of Pontarddulais. See also Swansea's Renewable Energy Assessment May 2018 (ED072)

* ER 5: Special Landscape Areas -(See Proposals Map)

* ER 7 - Undeveloped Coast - protection of the seascape from Swansea's undeveloped coast

* HC 3: Welsh Language Sensitive Area (See Proposals Maps)

* RP12: Sand and Gravel Resources

* RC5 District Centres: See Pontarddulais, Gorseinon, Loughor and Gowerton District Shopping Centres

Response / Recommendation

Comments noted. The Council looks forward to continuing its constructive dialogue with the respondent as the Plan making process proceeds towards the Deposit LDP and the input provided by the respondent to date is duly welcomed in this regard.

Representation(s)

1749 City & County of Swansea (Mr Tom Evans) [3761]

Support

Summary:

The commitment to work with neighbouring LPAs (at section 4.5) is welcomed. We are keen to work collaboratively over the plan preparation process to ensure that all relevant local trans-boundary issues and in-combination effects are addressed and that a sound basis is laid for the future preparation of any Strategic Development Plan for our region. The key topic areas where cross-boundary/regional working is required are considered to be:

- a) Transport, air quality
- b) Spatial distribution of growth/candidate site selection.
- c) Water Quality/Burry Inlet and Loughor Estuary CBEEMs
- d) Local transboundary effects in SA Scoping Report
- e) Swansea LDP Policies, Designations, Allocations with Cross Boundary implications.

The comments and suggestions we have provided are surrounding these themes and relate to the relevant sections of the Preferred Strategy, SA Report, HRA Report and relevant Topic Papers

Response / Recommendation

Support welcomed. The Council looks forward to continuing its constructive dialogue with the respondent along as the Plan making process proceeds towards the Deposit LDP.

Paragraph 4.6

Representation(s)

Nature

678 Lynda James [3039]

Support

Summary:

The "vision" of Letitia Cornwallis Trust includes maintenance of the recreational area and perhaps use of some of the assets to provide gym or changing room facilities. There have also been discussions with Calon Cymru which include the possibility of a cycle link between Llanwrda and Llansadwrn.

Response / Recommendation

Noted, site specific matters are considered as part of the candidate site process.

Section 5. Carmarthenshire - Strategic Context

Paragraph 5.2

Representation(s)

Nature

701 Mr Gerwyn Thomas [3248]

Comment

Summary:

it is vital that the distinctive character of our local communities are maintained and are not assimilated into neighboring communities, otherwise there is a very real danger of community identity being irreversibly lost with social cohesion and "community" itself being destroyed. It's the feeling of belonging to and being part of a particular community that is the key to a healthy community and to risk destroying that by merging communities is unnecessary and irresponsible. Reference is made to candidate site submission in the Llanelli / Bryn area

Response / Recommendation

Noted. The Revised LDP will be prepared in accordance with the provisions of PPW Ed. 10 and the councils Site Selection methodology. The reference to the candidate sites by the respondent is not a matter for consideration within the Draft preferred Strategy. Rather this will be considered as part of the preparation of the Deposit Plan.

Paragraph 5.3

Representation(s)

Nature

534 Mr Owen Williams [3158]

Object

Summary:

- Growth estimates for the County are based upon the City-Region Deal without consideration of any critical sources. Any plan, no matter what, must be based on the EVIDENCE whether it is critical or not. Consideration must be given to research suggesting city deals may not result in the gains promoted by the deal-makers
- how will city deal success be measured/evaluated? Should be some measuring mechanism to understand quickly whether the LDP is based on flawed assumptions

Change To Plan Sought:

- Conduct critical assessment of the effects of the City-Region Deal and adjust the LDP accordingly
- Revise down economic and population growth estimates to ensure a deliverable and achievable plan
- Create mechanisms and measures to understand and track progress on criteria concerning the success/failure of the City-Region Deal in Carmarthenshire

Response / Recommendation

Noted. It is accepted that the Preferred Strategy incorporates and recognises the benefits and contributions that may accrue from the City Deal. However, it is not the sole basis for the strategic approach or growth requirements set out within the Plan. Indeed in terms of growth the potential from the City Deal whilst an informant is not the only driver for growth within Carmarthenshire. For example in terms of job creation the Councils own Transformation Strategy. This is also reflected in the selection of the strategic option which represents a hybrid approach understanding the varied nature of the County.

The respondent concerns in relation to the City Deal failing to deliver the growth anticipated is noted. In this respect the Deposit LDP will contain a monitoring framework. This will include a series of measures and triggers to assess the success or otherwise of the Plan in delivering its policies. We will continue to have constructive dialogue with partners including those within the City as appropriate to ensure the Plan remains up to date.

In addition as the Plan progresses through its preparatory stages it will respond to changes in circumstances as appropriate.

Paragraph 5.6

Representation(s)

Nature

679 Lynda James [3039]

Comment

Summary:

Letitia Cornwallis Trust is located close to the A40. It has experienced considerable loss of local resources, firstly the post office, then the school and now the remaining local public house has proven unsustainable in current times. Trustees aim to make use of its assets to provide some part time restaurant/bistro services (as Cym Dda) as well as a replacement service for meals on wheels. If proven viable (a feasibility study is in hand) then facilities could be provided for young people/children/toddlers to replace the loss of togetherness/community relating to the closure of the local school.

Response / Recommendation

Noted. This relates to a detailed matter which is beyond the remit of the Preferred Strategy.

Paragraph 5.7

Representation(s)

Nature

1365 Darren Hall [526]

Comment

Summary:

I hope that the existing allocations with regard to SLA designation are maintained and that these sites are offered the same protection and consideration as other designated sites.

Response / Recommendation

Comments noted. Strategic Policy 13 provides the overarching framework for the natural environment, whilst SP 11 provides for consideration of high quality design. The consideration of whether any Special Landscape Areas will be identified in the Revised LDP, along with any resultant evidential facets, will be a matter for the deposit LDP.

Representation(s)

685 Lynda James [3039]

Support

Summary:

Letitia Cornwallis "vision" if agreed and implemented could help create some jobs thereby keeping or attracting younger people to help address the current imbalance between the older and younger peoples.

Response / Recommendation

Noted, site specific matters are considered as part of the candidate site process.

Paragraph 5.13

Representation(s)

Nature

1379 Darren Hall [526]

Object

Summary:

The projection for LDP 2018-2033 requirements needs to be based on up-to-date predictions. Based on previous timelines updated projections/publications are were/are due in 2017/2018.

Clearly outdated information and an 'adventurous' attitude towards development and growth within the county, need to be tempered and controlled and based on a cautionary outlook.

These targets, whilst set at a pre-deposit stage are the fundamental drivers and ultimately clauses that enable uncontrolled, undesired and more importantly unrequired development, in areas that cannot support the infrastructure requirements and will simply not recover from the impacts of such developments.

Change To Plan Sought:

please see representation and summary.

Response / Recommendation

Disagree. The Council is proposing a "Balanced Community and Sustainable Growth Strategy" which is underpinned by a robust evidence base and has been subject to consensus building - notably through the Key Stakeholder Forum. In terms of the growth figures, the strategy seeks to provide balanced growth centred on the delivery of our communities' needs and the delivery of the region and the Council's strategic and regeneration objectives.

Representation(s)**Nature**

9 Carmarthenshire County Council (Mr Stuart Walters) [2345] **Support**

Summary:

The issues section is well balanced as are the strategic objectives. From an Economic Development perspective the mention of city deal, town centres, rural area growth (including employment opportunities), a buoyant visitor economy, urban and rural deprivation, poverty, infrastructure capacity, lack of employment opportunities, broadband and public services in rural areas, a sense of place and disused buildings in the issues section is welcomed.

Response / Recommendation

Support welcomed.

Representation(s)**Nature**

1680 Natural Resources Wales (Miss Sharon Luke) [3253] **Support**

Summary:

The list of summary issues in Section 6.6 appear reasonable and have no further suggestions. We specifically support the inclusion of the following issues:

- * Risks from flooding and the challenges presented by climate change.
 - * Biodiversity designations ranging from international to local level.
 - * An ecological footprint that is currently exceeding sustainable levels.
 - * Rich landscape and townscape qualities.
 - * Beauty peace and quiet, open green spaces and fresh air are contributors to happiness in rural areas.
 - * Need to promote energy efficiency in proposed and existing developments.
- These appear to correlate well with the findings of the SA.

Response / Recommendation

Support welcomed

Representation(s)**Nature**

1776 Mr John Morris [3777] **Support**

Agent: LRM Planning (Mr. Michael Rees) [3002]

Summary:

We are supportive of the vision for Carmarthenshire, however we are strongly of the view that it should specifically add "where the needs of residents are met" to the vision.

Importantly, meeting the needs of residents will be key to achieving the wider Wales Well Being Goals in particular helping to create a more equal Wales, a more prosperous Wales, a more resilient Wales and a Wales of cohesive communities, as well as in meeting the requirements of the new PPW10 and the provision of the right development in the right place. Indeed, meeting needs in an appropriate and sustainable manner can contribute towards:

- Growing our economy in a sustainable manner;
- Making best use of resources;
- Facilitating accessible and healthy environments;
- Creating and sustaining communities; and
- Limiting environmental impact.

Response / Recommendation

Noted. The Revised LDP is being prepared in full accordance with the provisions of the Wellbeing of Future Generations Act and PPW. The respondent's comments in relation to need is noted and the Plan will be consistent with national planning policy and the principles of sustainability in this regard, as well as recognising the characteristics of the County and its communities.

Representation(s)

Section 9. Strategic Growth & Spatial Options

Section 9. Strategic Growth & Spatial Options

Representation(s)

Nature

1635 Welsh Government (Mr Mark Newey) [13]

Comment

Summary:

Growth Levels: Homes & Jobs

The authority has explored six population based growth scenarios and two employment-led scenarios. The authority has concluded the WG-2014 based projections would result in low levels of housing growth impacting negatively on demographic change (population decline) and ability to support economic growth. The 2014-based Principal and 10 year migration variant projections would result in a dwelling requirement of 3,367 and 6,542 respectively. The Council's preferred growth option is 'PG Long Term' which is predicated on significant internal and international migration flow assumptions averaging 1,423 persons pa for the sixteen year period 2001/02-2016/17. This period takes into account the high migration levels prior to 2008, and lower net migration following the recession. This is particularly relevant in this context as deaths exceed births; net migration being the dominant driver of population change. The PG Long Term Scenario results in a dwelling requirement of 9,887 dwellings (659 p/a) over the plan period. This is based on a 3.4% vacancy rate (VR) (adjusted from 6.3% Census VR) which takes into account recent data on second and empty homes. This is a deviation of 6,520 dwellings above the WG-2014 based principal projection and 3,345 dwellings above the 10-year migration variant. The proposed housing requirement of 9,887 is a substantial reduction of 5,310 dwellings from a requirement of 15,197 homes in the current adopted plan.

The evidence also explains that the jobs led scenario(s) tested would result in a requirement for 17,000 - 20,000 homes over the plan period. The Council has stated that this would result in an undeliverable and unsustainable growth strategy. Recent housing completions based on 10 year average JHLAs figures are approximately 500 d/pa. In summary, the Council has chosen a demographic led scenario that will contribute to the delivery of the Council's economic aspirations. The population increase targeted by the PG Long Term Scenario would result in supporting the creation of 5,295 jobs (353 p/a) over the plan period. The authority must fully justify/evidence that the growth levels are directed to the most sustainable places, related to the scale and location of housing need, not impacting negatively on the Welsh language and is realistic and deliverable. You should also demonstrate the growth strategy is compatible with the aspirations of neighbouring authorities and provides the most sustainable locations for growth for the wider area. See comments on spatial strategy.

Response / Recommendation

Noted, the scale and distribution of growth will be subject to further evidencing as part of the preparation of the Deposit LDP.

Matters in relation to the Welsh language will be considered as part of the LDP's evidence base and within the Sustainability Appraisal. See representation 1647.

Paragraph 9.1

Representation(s)

Agent: Savills (Mr Nick Heard) [3216]

Summary:

A total of seven population-led and employment-led growth options are considered with the Draft Preferred Strategy ultimately adopting the 'Population Growth Long Term' scenario which sets a total requirement of 9,887 units across the 15 year RLDP period, equating to 658 per year. The use of a trend based projection rather than a single base dated population projection is considered the most appropriate and sensible mechanism given the differences between the last four sets of projections.

Response / Recommendation

Comments Noted. The Council considers that the population and household projection is based on a sound and reasonable assessment, by identifying a number of factors which influence it. The preferred projection affords an allowance in the potential uplift on the existing deliverability of sites and offers an opportunity to provide a positive mechanism for future growth should the economy grow. The level of flexibility allowance will continue to be informed by the emerging evidence base leading up to the publication of the Deposit LDP.

2041 Persimmon Homes West Wales (Mrs Kate Harrison) [3410]

Support

Summary:

The respondent is supportive of the divergence from the Welsh Government 2014 based projections which would equate to a housing requirement of 6,542 over the plan period (2018-2033) as this is unlikely to support the Council's Visions and Objectives in relation to meeting the employment needs of the area and contributing at a regional level to the delivery of the Swansea Bay City Deal.

The respondent supports the preferred growth option of 'Population Growth Long Term' would provide a housing requirement of 9,887 dwellings over the plan period and as stated in the preferred strategy, 'allow the flexibility to drive sustainable housing growth'. This more ambitious housing requirement will facilitate the economic growth required in the county and will be more effective in achieving the Council's vision and objectives.

2020 Swallow Investments Limited [3995]

Support

Summary:

Section 9 of the LDP considers a number of alternative Strategic Growth and Spatial Options to support employment growth and the delivery of housing and sustainable development generally. So far as Strategic Growth Options are concerned, paragraphs 9.41 to 9.43 of the LDP confirm a preferred 'Population Growth Long Term Scenario', which is forecast to deliver 9,887 new dwellings (649 new dwellings per annum) and a minimum of 5,295 additional jobs over the LDP period 2018-2033.

My client supports the LDP's preferred Strategic Growth and Spatial Options - they will deliver new housing in line with requirements and new jobs to match the same; and represent an optimistic, though not unrealistic set of assumptions and aspirations, geared towards encouraging housing and economic growth in the County over the LDP period.

Response / Recommendation

Support welcomed.

Paragraph 9.44

Representation(s)

1770 Savills (Mr Nick Heard) [3216]

Comment

Agent: Savills (Mr Nick Heard) [3216]

Summary:

To deliver the amount of new housing that is required over the Review LDP period six Spatial Options are identified for the distribution of growth.

The Draft Proposed Strategy proposes that Spatial Option 4 which seeks to disperse growth in a way which reflects the role of settlements in relation to their wider catchment is adopted. This would mean that most growth would be focussed in Carmarthen and the surrounding area, the Llanelli Coastal Belt, and the Ammanford and Cross Hands area.

The 2018 Joint Housing Land Availability Study (JHLAS) shows a 3.8 year housing land supply. This represents the fifth consecutive year where a five year supply of housing has not been demonstrated and the continued failure to demonstrate a five year supply since the adoption of the LDP (the Adopted LDP) in 2015. In real terms, this means that in the four years since the adoption of the ALDP 503, 608, 518, and 511 units have been delivered, substantially short of the 1,052 unit a year requirement that the ALDP sets to meet housing need.

There is evidently a delivery problem and The Williams Family suggest that any Spatial Option pursued needs to stand a realistic chance of delivering the required amount of housing. Whilst Spatial Option 4 appears to be a sensible and logical option, The Williams Family suggest that, if Option 6 (Market Led Option) is not to be pursued in its entirety (and the risks associated with such an approach are understood), the spatial strategy must give weight to market conditions and the delivery of houses previously over the Adopted LDP period.

Response / Recommendation

Comments Noted. The Council as part of the LDP process are reviewing all existing housing allocations sites to identify those that are not contributing to the LDP strategy, and a wide ranging assessment is being undertaken to make sure that the most appropriate sites are allocated in the revised Plan. This will be reflected within the apportionment of sites within the each cluster and tier.

Representation(s)**Nature****1771 Savills (Mr Nick Heard) [3216]****Comment****Agent: Savills (Mr Nick Heard) [3216]****Summary:**

The number of units built on the allocated sites in St Clears has been considerably higher than in the other Adopted LDP Service Centres, demonstrating that St Clears is an attractive location for growth and is capable of delivering housing and accordingly it is suggested that the Spatial Options reflect this. It also shows that there is only a limited amount of allocated sites left within St Clears and, if a more market-led approach is to be taken, the need for a review of existing and the identification of new allocations is required.

Response / Recommendation

Comments Noted. Each settlement within the settlement hierarchy will be assessed in light of their potential for accommodating and delivering future development. This will be considered as part of the emerging evidence base leading into the publication of the Deposit LDP.

Paragraph 9.49**Representation(s)****Nature****694 Lynda James [3039]****Support****Summary:**

The proposal is sensible but people will travel some distances to their work place so it is wrong to assume all accommodation should be built in the same location as planned employment opportunities. A percentage of people would prefer to live in a rural area rather than an urban area and be prepared to commute.

Response / Recommendation

Noted, site specific matters are considered as part of the candidate site process.

Representation(s)**Nature****544 RSAI [3167]****Support****Agent: Lichfields (Mr Arwel Evans) [3166]****Summary:**

We agree with paragraph 9.49 of the Preferred Strategy which states that housing development will need to be located in the same broad location as employment opportunities. We also agree that infrastructure improvements need to be aligned with new development if the existing infrastructure is not adequate to accommodate the development.

We consider it is important that the spatial option is determined taking account of the function and role of settlements

Response / Recommendation

Support welcomed.

Summary:

We note that the Council propose to use the Population Growth Long Term scenario which sets a housing requirement of 9,887 units over the LDP Period.

Option 2 - Infrastructure and Transport Network Options
 Available public sewerage and wastewater treatment works (WwTW) capacity is a key element to ensuring sustainable and viable development sites, therefore we welcome the provisions of this spatial option, and are pleased to note that it seeks to encourage growth in areas where there is existing infrastructure capacity or where there are planned improvements.

Response / Recommendation

Comments noted. The availability of infrastructure is a key indicator of deliverability and in the promotion of sustainable development. Key facets of option 2 (notably location of infrastructure) would have fed into the favoured option. The Council looks forward to continuing its constructive dialogue with the respondent as the Plan making process proceeds towards the Deposit LDP and the input provided by the respondent to date is duly welcomed in this regard.

Paragraph 9.52

Representation(s)

Nature

1639 Welsh Government (Mr Mark Newey) [13]

Comment

Summary:

Preferred Strategy - The Council has concluded through the Sustainability Appraisal (SA) that a Hybrid Option - 'Balanced Community and Sustainable Growth Strategy' is the most appropriate. This option has been subject to an SA (SA, section 4.5) and is the 'Preferred Strategy'. The Preferred Strategy incorporates the core elements from Options, 2, 4, 5 and 6 which are summarised as follows:

- Growth is assigned to urban areas, while also recognising the role and function of rural settlements
- Reflects investment opportunities and economic benefits afforded to the County through the City Deal.
- Recognised that sustainable growth needs to be supported by the availability and range of infrastructure.
- Growth should also be deliverable and oriented to community need and market demand.

Further clarity is required on the spatial outcome of the Preferred Strategy. The SA highlights that the negative implications of Option 4 are that it could result in a disproportionate amount of development in unsustainable locations, generating significant additional car journeys. In the absence of a LHMA it is also unclear how the Preferred Strategy has been influenced by the level and location of housing need. The Hybrid Option and its spatial distribution requires further justification specifically; how it will deliver affordable housing, employment growth, reduced commuting, relates to the sustainable transport hierarchy (including active travel) infrastructure, minimises air pollution and potential negative impacts on the Welsh Language. These should be considered in light of 'future proofing' and how technology may shape how places function in the future, taking account of digital connections, telecoms, low emission vehicles and the associated benefits on movement patterns.

Response / Recommendation

Noted. See response to representation 1640.

2430 Rhanbarth Sir Gâr Cymdeithas yr Iaith (Rhanbarth Sir Gâr) [2370] **Object**

Summary:

The respondent supports Spatial Option 4 - Community Led Option. The respondent notes that they would recommend a strategy based upon concentric circles, namely a village community; a circle of villages; county level; region; Wales, and the strategy would identify the services and proposals which would be suitable for each level within the proposed strategy. The respondent also notes that the Preferred Strategy should reduce the out-migration of young people from the County and specifically state this as an aim of the Plan.

Response / Recommendation

Comments are noted. The Preferred Strategy has been largely influenced by Spatial Option 4, albeit this has been adapted to take account of other influencing factors too. In regard to the proposed approach relating to concentric circles, it is considered that the preferred strategy in fact follows a similar approach in that a settlement hierarchy is set out in Policy SP16: Sustainable Distribution - Settlement Framework which is informed, amongst other factors, by the availability of services and facilities in each settlement or network of settlements.

With regards to reducing the out-migration of young people, this is acknowledged as a key issue under paragraph 6.6. It has also been a key consideration in the evaluation of the options and the selection of the preferred strategy, please see chapters 9 and 10 for an assessment of this. Whilst reducing the out-migration of young people has not been referenced specifically as an aim or objective of the Plan, it is considered that a number of the Plan's objectives would make a significant contributions towards achieving this aim, especially strategic objectives 2, 3, 4, 11 and 12. However, we would welcome ongoing discussions on this matter to determine whether an additional objective should be identified.

Representation(s)**Nature****1778** Mr John Morris [3777]**Comment***Agent: LRM Planning (Mr. Michael Rees) [3002]***Summary:**

We are supportive of a hybrid option of the various scenarios presented. However, we are of the view that it ought to be more weighted towards the Pre-recession level of growth.

In the first instance we support the approach of ruling out the low growth options (WG 2014 based principal and 10 yr projections, PG Short term and 10 year projections). Such approaches would only reinforce such negative trends identified within the background paper.

We are concerned that the preferred approach should not limit aspirations or growth particularly given the trends that are have been experienced (affordability problems, loss of younger cohorts and trends towards an ageing population). Such an outcome would seem to be contrary to the Welsh Government's Well Being goals, the Placemaking objectives and the aims of the planning system.

Indeed, for this reason we do not believe that the Pre-Recession Growth Projection should be ruled out in its entirety on the basis that it is not achievable. If undeliverable sites are allocated then this will be the case for any of the scenarios.

Whilst our preference is to retain a positive and aspirational intervention that allows flexibility for growth, jobs, mixed communities and prosperity (in line with the vision and objectives of the LDP Review), should the current favoured option be carried forward then we are strongly of the view that it must rely upon a fresh and deliverable supply of homes. Indeed, relying upon existing allocations that have not been brought forward will not achieve the objectives rather it will reinforce the negative trends that have been experienced.

Response / Recommendation

Disagree - The population and household projection scenario identified in the Preferred Strategy considers a long term view for household growth within the county which is reflective of, and takes a balanced view on achieving the housing requirement for the period 2018-2033. Setting a scenario based on the pre-recession level of growth would be considered unsound, as it would be more reflective of the requirements within the adopted LDP, which is currently not being achieved.

The comment relating to existing sites is noted, and the Council as part of the LDP process, are reviewing all existing housing allocations sites to identify those that are not contributing to the LDP strategy, and a wide ranging assessment is being undertaken to make sure that the most appropriate sites are allocated in the revised Plan.

Representation(s)**Nature****640** Simrock Holdings Ltd [3217]**Comment***Agent: Savills (Mr Nick Heard) [3216]***Summary:**

SHL does not contest the selection of Option 4 as the most appropriate spatial option but stress that Llangennech performs very well in relation the other Strategic Options that have not been selected. It is included within the Llanelli Growth Area in the ALDP (Option 1 - Current LDP Option), is well located adjacent to the A4138 and within 1km from Junction 48 of the M4 (Option 2 - Infrastructure and Transport Network Option) and has a strategic position in-between Carmarthenshire and Swansea (Option 5 - Swansea Bay City Region Influence Option).

Given that Llangennech performs favorably in connection to a number of unselected Spatial Options, it is considered that this demonstrates its suitability and appropriateness for additional growth

Response / Recommendation

Comments Noted. Each settlement within the settlement hierarchy will be assessed in light of their potential for accommodating and delivering future development. This will be considered as part of the emerging evidence base leading into the publication of the Deposit LDP.

532 Mr Owen Williams [3158]

Object

Summary:

- Using the City-Region Deal as a basis for economic and population growth is risky and unsupported by evidence
- Ignorance of the likely consequences of Brexit on population growth/movement and the housing market and how this may affect competition from other areas
- Failure to prove the plan will deliver (key test of soundness)
- Alternative and more realistic growth forecast required
- Forecasts have been revised downwards by at least one previous Planning Inspector

Change To Plan Sought:

- Revise the population growth forecast used as a basis for the Preferred Option downwards to ensure a more realistic and deliverable plan

Response / Recommendation

The respondents make the assertion that an alternative more deliverable forecast is required. However this is based solely upon a perception that growth will shrink and investment delivery will not take place. Indeed it should be recognised that forecasting a lower growth as suggested would run contrary to the strategic and regeneration objectives both of the Council and the Region. In this respect the LDP must have regard to other Plans and strategies with a failure to do so not only rendering the Plan unsound, but also potentially resulting in these plans and strategies being in conflict with the Development Plan.

The Preferred Strategy is in this regard not only reflective of these plans and strategies and government backed investments but is as a result based on evidence around projected growth. The omission of the growth projected from investments such as the City Deal would in themselves not be evidence based as they would omit known potential for growth.

The potential implications from changes in circumstance will be monitored as the Plan progresses through its preparatory process. It should also be noted that the Deposit LDP will include a monitoring framework which will measure the success or otherwise of the LDP in delivering its policies and proposals.

The LDP will be subject to further evidence as part of the preparation of the Deposit Plan.

Summary:

Contradiction between Preferred Option and Planning Policy Wales (Edition 10) in that it seeks to direct development to smaller settlements, which are less sustainable and would increase reliance upon the private car.

The Preferred Option should be amended to confirm that new development will be apportioned in accordance with the role of each settlement (i.e. higher proportions within the 'Principal Centres' and lower proportions within the 'Sustainable Villages' and 'Rural Villages').

Change To Plan Sought:

The Preferred Option should be amended to confirm that new development will be apportioned in accordance with the role of each settlement (i.e. higher proportions within the 'Principal Centres' and lower proportions within the 'Sustainable Villages' and 'Rural Villages').

Response / Recommendation

Comments Noted. The Council considers that the indicative apportionment of residential growth by tier is based on a sound and reasonable assessment, by identifying a number of factors which influence it. However, the indicative apportionment affords an allowance in to be made; the level of flexibility allowance will continue to be informed by the emerging evidence base leading up to the publication of the Deposit LDP.

<i>Representation(s)</i>	<i>Nature</i>
10 Carmarthenshire County Council (Mr Stuart Walters) [2345]	Support

Summary:

In considering your strategic growth and spatial options it is reassuring to see that you had consideration to a number of key Economic Development policy documents including the Council's Strategic Regeneration Plan 2015 - 2030 - Transformations and the Swansea Bay City Deal. These documents form the basis for our activity in Economic Development and the fact they are referenced throughout the consultation document provides a confidence that the plan that is emerging through the LDP process will be strategically aligned to that of the work of Economic Development. The preferred option of "Balanced Community and Sustainable Growth Strategy" is seen as a positive option in that this hybrid option retains an approach which will seek to be responsive in how it assigns growth, to urban and rural areas. The option also looks to:

* Recognise and reflect investment and economic benefits to the County and its communities through the City Deal, and other economic opportunities,

* It will seek to provide opportunities for rural areas ensuring the diversity of the County and communities is recognised;

* It will acknowledge that in delivering sustainable growth that it needs to be supported by the availability of a range of appropriate infrastructure;

* It will recognise that growth should be deliverable and orientated to a community's needs and market demand.

These points are welcomed as they are supportive of potential investment and growth in the county. I believe this approach is essential to ensure that any private sector interest in the county has a planning framework that is supportive subject to the development being proportionate and relevant to the respective settlement.

Summary:

Growth Levels: Homes & Jobs

The authority has explored six population based growth scenarios and two employment-led scenarios. The authority has concluded the WG-2014 based projections would result in low levels of housing growth impacting negatively on demographic change (population decline) and ability to support economic growth. The 2014-based Principal and 10 year migration variant projections would result in a dwelling requirement of 3,367 and 6,542 respectively. The Council's preferred growth option is 'PG Long Term' which is predicated on significant internal and international migration flow assumptions averaging 1,423 persons pa for the sixteen year period 2001/02-2016/17. This period takes into account the high migration levels prior to 2008, and lower net migration following the recession. This is particularly relevant in this context as deaths exceed births; net migration being the dominant driver of population change. The PG Long Term Scenario results in a dwelling requirement of 9,887 dwellings (659 p/a) over the plan period. This is based on a 3.4% vacancy rate (VR) (adjusted from 6.3% Census VR) which takes into account recent data on second and empty homes. This is a deviation of 6,520 dwellings above the WG-2014 based principal projection and 3,345 dwellings above the 10-year migration variant. The proposed housing requirement of 9,887 is a substantial reduction of 5,310 dwellings from a requirement of 15,197 homes in the current adopted plan.

The evidence also explains that the jobs led scenario(s) tested would result in a requirement for 17,000 - 20,000 homes over the plan period. The Council has stated that this would result in an undeliverable and unsustainable growth strategy. Recent housing completions based on 10 year average JHLAs figures are approximately 500 d/pa. In summary, the Council has chosen a demographic led scenario that will contribute to the delivery of the Council's economic aspirations. The population increase targeted by the PG Long Term Scenario would result in supporting the creation of 5,295 jobs (353 p/a) over the plan period. The authority must fully justify/evidence that the growth levels are directed to the most sustainable places, related to the scale and location of housing need, not impacting negatively on the Welsh language and is realistic and deliverable. You should also demonstrate the growth strategy is compatible with the aspirations of neighbouring authorities and provides the most sustainable locations for growth for the wider area. See comments on spatial strategy.

Response / Recommendation

Noted. The scale and distribution of growth will be subject to further evidencing as part of the preparation of the Deposit LDP including its distribution.

Matters in relation to the Welsh language will be considered as part of the LDP's evidence base and within the Sustainability Appraisal. See representation 1647.

1640 Welsh Government (Mr Mark Newey) [13]

Comment

Summary:

Preferred Strategy - The Council has concluded through the Sustainability Appraisal (SA) that a Hybrid Option - 'Balanced Community and Sustainable Growth Strategy' is the most appropriate. This option has been subject to an SA (SA, section 4.5) and is the 'Preferred Strategy'. The Preferred Strategy incorporates the core elements from Options, 2, 4, 5 and 6 which are summarised as follows:

- Growth is assigned to urban areas, while also recognising the role and function of rural settlements
- Reflects investment opportunities and economic benefits afforded to the County through the City Deal.
- Recognised that sustainable growth needs to be supported by the availability and range of infrastructure.
- Growth should also be deliverable and oriented to community need and market demand.

Further clarity is required on the spatial outcome of the Preferred Strategy. The SA highlights that the negative implications of Option 4 are that it could result in a disproportionate amount of development in unsustainable locations, generating significant additional car journeys. In the absence of a LHMA it is also unclear how the Preferred Strategy has been influenced by the level and location of housing need. The Hybrid Option and its spatial distribution requires further justification specifically; how it will deliver affordable housing, employment growth, reduced commuting, relates to the sustainable transport hierarchy (including active travel) infrastructure, minimises air pollution and potential negative impacts on the Welsh Language. These should be considered in light of 'future proofing' and how technology may shape how places function in the future, taking account of digital connections, telecoms, low emission vehicles and the associated benefits on movement patterns.

Response / Recommendation

Noted. The scale and distribution of growth will be subject to further evidencing as part of the preparation of the Deposit LDP - including the proportions allocated to the respective tiers within the hierarchy. Further details in respect of the implications of option 4 will be further considered as the detail associated with the preparation of the Deposit LDP emerges. The Council recognises the importance, and role, of an up to date Local Housing Market Assessment (LHMA) and is currently working with authorities across the region to prepare an up to date LHMA. The LHMA will inform the preparation of the Deposit LDP.

Representation(s)

1646 Welsh Government (Mr Mark Newey) [13]

Comment

Summary:

The delivery of the strategy is reliant upon the authority allocating sites which are broadly viable, deliverable and in accordance with the settlement strategy. The Draft Manual (Ed 3) Chapter 5: Preparing an LDP (Core Issues) sets out the key issues that must be addressed. The Council should ensure that the Deposit Plan has covered all relevant elements, with particular attention to the de-risking checklist.

To demonstrate delivery and implementation, the Deposit plan must be underpinned by viability work, an infrastructure plan and include a robust housing trajectory (included as an Annex within the plan) and a housing land supply table.

With the exception of the two strategic sites, the plan is completely silent on the allocations (housing or employment) required to deliver the strategy. There is no indication or analysis of 'key' candidate sites, nor of the existing allocations and their relevance or future status going forward. There is no assessment in broad terms of the current land bank, windfall and small sites that may come forward. Allocated sites should only be 'rolled forward' in exceptional circumstances where there is clear and robust evidence that they can be delivered. Site specific viability work, including detailed articulation of timing and phasing, costs, and infrastructure requirements including the preparation of Statements of Common Ground will be necessary to demonstrate the delivery of the plan.

The Preferred Strategy identifies two strategic sites (Policy SP5); Yr Egin Creative Cluster in Carmarthen and the Llanelli Well-being and Life Sciences project which are both components of the Swansea Bay City deal. The Deposit plan must demonstrate deliverability of both individual sites and in combination, together with Statement of Common Ground with developers. The Deposit Plan should set out site specific details for key allocations including schematic frameworks containing information on viability, general phasing timescales, key infrastructure requirements and evidence of commitment from developers.

A key issue highlighted in the Councils evidence base (Spatial Options Topic Paper, para 8.9) is that completions/sites did not come forward as anticipated in the more sustainable settlement tiers which suggests that completions have been occurring in the least sustainable areas. This has been a major shortcoming of the existing plan that should not be replicated in the revised LDP.

Finally, the Council is proposing a flexibility allowance of 6% (593 units) to be added to the housing requirement. Further evidence is required as to why 6% is appropriate, and how it relates to all housing components and their delivery and phasing over the plan. A 6% figure appears low in the context of the Welsh Average (10%) and the more rural nature / developer profile prevalent within Carmarthenshire.

Response / Recommendation

Noted. The Council is aware of the need for the Plan to contain viable and deliverable sites and matters relation to their suitability and identification will be considered as part of the preparation of the Deposit LDP. Attention is drawn to the Candidate Site process, and whilst the respondent's points are noted the submission of 926 candidate sites is a figure beyond that generally anticipated and in itself presents notable challenges in terms of analysis. However, an initial assessment of Candidate Sites has been undertaken and is available on the Council's website. This will be further developed as the preparation of the Plan progresses and as the sites are assessed.

The need for clarity in respect of the current landbank, windfall, small sites and future deliverable allocations is recognised and will be considered as part of the preparation of the Deposit LDP.

Further evidence in respect of the flexibility allowance will be provided as part of the preparation of the Deposit LDP.

The reference to the requirements of the Local Development Manual Edition 3 is noted and will be appropriately considered as part of the preparation of the Deposit Plan. However, it should be noted that Edition 3 of the Manual at the time of writing is pending publication and as such could not be considered in the preparation of the Preferred Strategy.

Representation(s)**Nature****2421** Dyfodol (J W Thomas) [563]**Object****Summary:**

The Respondent raises concerns regarding the economic information and theories which underpin the level of housing need identified. The comments make particular reference to the current economic situation and potential weaknesses.

Response / Recommendation

Comments noted. Further evidence will be produced to inform the economic needs of the County and its impacts upon the County's housing needs.

Representation(s)**Nature****2422** Dyfodol (J W Thomas) [563]**Object****Summary:**

The respondent raises concerns over the level of housing growth identified in the Preferred Strategy and considers that this level of housing is not needed. The respondent notes that there is insufficient information in the Preferred Strategy to evidence the level of proposed housing growth. The respondent also notes a preference for the LDP to focus on job creation and infrastructure rather than housing growth. Furthermore, the respondent considers that there is insufficient information to assess the impacts of housing growth upon the Welsh language.

Response / Recommendation

Comments are noted. There is information regarding the identification of housing growth levels in the supporting evidence. The LDP aims to enable and facilitate job creation in the County and emphasises the need for suitable infrastructure to support development. The Council considers that a rational approach which supports both housing, infrastructure and job creation can be achieved through this strategy and considers that these 3 elements are not mutually exclusive but rather are all key considerations of the preferred strategy.

The SA/SEA assessed the anticipated impacts of the Preferred Strategy upon the Welsh language and the Deposit Revised Local Development Plan will be informed by a Welsh Impact Assessment.

Representation(s)**Nature****1748** City & County of Swansea (Mr Tom Evans) [3761]**Support****Summary:**

Swansea Council are broadly supportive of the vision, objectives and chosen growth and spatial strategy of the Preferred Strategy

Response / Recommendation

1673 Pembrokehire Coast National Park Authority (Ms Martina Dunne) [2326] **Support**

Summary:

The strategy is similar in approach to the Pembrokehire Coast National Park LDP with growth focused in the higher tiers.

The attached table shows the compatibility of approach in both Plans.

Exceptional land release for affordable housing: include the option of releases higher up in the hierarchy to help meet need.

Affordable Housing Contributions: clarify if contributions will be required for sites below the threshold for provision on site.

Employment: It will be helpful to see the approach to be taken to employment on edge of settlement/in the countryside.

Viability: Viability when providing affordable housing may influence the 5 or more threshold.

Response / Recommendation

Support Welcomed. The Council will continue to update its evidence base leading into the Deposit LDP and address some of the highlighted comments. Further clarification will be given to viability and affordable housing once key pieces of evidence are completed which will inform the policy content of the Deposit LDP

Representation(s)

Nature

1674 Pembrokehire Coast National Park Authority (Ms Martina Dunne) [2326] **Support**

Summary:

Support the general conformity of approach.

The Spatial Strategy commentary above sets out where there is consistency of approach on where employment undertakings can take place in the County along with notes of clarification.

The employment and economic development strategy of Carmarthenshire County Council's Preferred Strategy focusses on the Swansea Bay City Deal and looks to the local authorities east of Carmarthenshire. There is also the possibility of a Regional Strategic Economic study (which both Authorities are party to) being produced which will assist in the development of the Deposit Local Development Plan.

Response / Recommendation

Support Welcomed. The Council will continue to update its evidence base leading into the Deposit LDP and address some of the highlighted comments.

It is positive to see that that the plan recognises the spatial differences across the county. Recognition that a one size policy solution doesn't fit all, and that policies will need to reflect different circumstances depending upon their area is welcomed.

Response / Recommendation

Support welcomed.

<i>Representation(s)</i>	<i>Nature</i>
11 Carmarthenshire County Council (Mr Stuart Walters) [2345]	Support

Summary:

The new strategy recognises the diverse nature of the county and the settlement hierarchy and six clusters reflects the function, role and diversity that exists within and between the differing areas of the county. The recognition of the strategic growth areas of Llanelli, Ammanford/ Cross Hands, and Carmarthen is supported and their continued growth is key for prosperity for the county. It is good to see a balance with the other areas of the county most notably the rural market towns highlighted for local growth and diversification with growth reflecting their community needs and aspirations. The "allocation of sites and the use of policies will provide a framework for the provision of employment and job creation opportunities", coupled with statements such as "seek to provide a positive approach to help these areas meet their full potential" is fully supported. This together with mention of "a responsive policy approach" in the context of addressing county variations is most welcomed and offers a platform for a planning framework which can meet the needs of future growth aspirations that this Division sees for the county.

Response / Recommendation

Support welcomed.

Paragraph 10.5

<i>Representation(s)</i>	<i>Nature</i>
1459 Cllrs Price & Vaughan-Owen [3546]	Comment

Summary:

Over the past decade, the Gorslas ward, along with many other areas within the Ammanford/Cross Hands growth area, has seen significant housing development, which have had an impact on villages within the Ward. We are keen to ensure that any sites that progress from this stage, meet the local need for housing and for business. It is vital that any developments will not have a negative impact on education establishments, community facilities, health centres and the local environment.

Response / Recommendation

Comments noted. The Plan will be based on a robust evidence base which provides clarification on the matters listed within the representation. The Site Assessment Methodology will allow for the consideration of housing sites to be based on a robust and consistent approach. The Sustainability Appraisal will have a key role in assessing the Plan's sustainability credentials.

Strategic Policy - SP1

Representation(s)

Nature

1644 Welsh Government (Mr Mark Newey) [13] **Comment**

Summary:

Policy SP1 supports the delivery of approximately 5,300 jobs, further evidence and explanation is required to explain how and where the level of job growth will be delivered, including both strategic and non strategic allocations. It is unclear what the level of employment provision is and for what sector and how this translates into a land requirement for employment uses. The current employment evidence base is inconsistent and unclear. The plan is currently silent on the type and location of key employment sites required to deliver the strategy. Further explanation is also required on how all opportunities arising from the Swansea Bay City Region have been taken into account as part of the economic strategy.

The Deposit Plan should:

- provide greater articulation on the link between the plan's housing requirement and target for 5,300 jobs to ensure broad alignment in economic activity and labour force projections and reduce the need for commuting;
- identify an employment (ha) / job target and buffer;
- identify spatial allocations to meet identified need including broad timing and phasing and defining the land use by Use Class;
- if appropriate, include a new policy to protect and identify key employment sites to safeguard for future employment use;
- include a policy to support alternative uses on existing employment sites not safeguarded;
- explain how allocated sites will be delivered, especially key allocations; and policies to promote and sustain the rural economy.

Response / Recommendation

See response to representation 1645.

Representation(s)

Nature

1783 Mr John Morris [3777]

Object

Agent: LRM Planning (Mr. Michael Rees) [3002]

Summary:

It is clearly a major requirement of PPW10 that great importance is placed upon the provision of homes, indeed, sustainable places cannot be facilitated without adequate provision. In this regard, PPW 10 recognizes the importance of a home to people's lives and indicates that Authorities must:

- * identify a supply of land to support the delivery of the housing requirement to meet the differing needs of communities across all tenures;
- * enable provision of a range of well-designed, energy efficient, good quality market and affordable housing that will contribute to the creation of sustainable places; and
- * focus on the delivery of the identified housing requirement and the related land supply.

Accordingly, it is important that an appropriate supply of homes is identified. As noted above, we are concerned that the revised requirement will not address key issues raised nor achieve the overarching aims of the Plan or its objectives. It is our view that it should be more aspirational and the hybrid option should lean towards higher job growth and economic development.

Notwithstanding our views on the level growth sought, it is clearly the case that based on the favoured option and given the issues identified within the LDP there are two key considerations that are inter related:

1. Flexibility allowance: The current level of flexibility (3.7%) was plainly insufficient, a greater level could have resulted in supply problems being addressed at an earlier stage. Indeed, other Authorities have tended to lie between 10% to 20%, accordingly we are of the view that at least 15% should be used. This would reflect the fact that a number of the large strategic sites suffer from significant environmental & physical constraints and may not be brought forward. A flexibility allowance of 15% would result in a need to identify a supply pool of at least 11,370 dwellings that would be available and deliverable.
2. Delivery: Given the shortfall in supply it will be problematic to simply roll the existing supply pool forward to suit a lower housing requirement. Indeed, whilst this might prima facie provide a 5 year supply, it will not address the core issues nor meet the requirements of PPW (in terms of placemaking) and implement the aspirations. It will simply mean that the existing trends are carried forward. There are over 4000 dwellings in category 4 of the JHLAS, this is a considerable number that have failed to deliver within the LDP timeframe to 2021. It is strongly our view that a considerable number of these ought not be carried forward in a review. We await the findings of the review of these sites in terms of viability and delivery. We would accept that if a large number of these sites were replaced with new allocations then our concerns over flexibility may be alleviated.

Response / Recommendation

Comments Noted - The level of flexibility allowance will continue to be informed by the emerging evidence base leading up to the publication of the Deposit LDP. The comment relating to existing sites is also noted, and the need for clarity in respect of the current allocated sites is recognised and will be considered as part of the preparation of the Deposit LDP.

Representation(s)

Representation(s)

Nature

2022 Swallow Investments Limited [3995]

Support

Summary:

Strategic Policy SP1 reflects the LDP's preferred Strategic Growth and Spatial Options, by confirming provision of 10,480 new homes to meet a requirement of 9,887 new dwellings over the LDP period; and provision of a minimum 5,295 new jobs to provide for economic growth over the LDP period. The Policy confirms that development will be distributed in a sustainable manner, consistent with the LDP's Spatial Strategy and Settlement Hierarchy.

My client supports Strategic Policy SP1 - it sets the context for delivering new housing in line with requirements and sets the conditions to match new jobs with the same; and represents a sustainable and optimistic, though not unrealistic strategy geared towards encouraging housing and economic growth in the County over the LDP period.

Response / Recommendation

Support welcomed.

Strategic Policy - SP2

Representation(s)

Nature

1754 City & County of Swansea (Mr Tom Evans) [3761]

Comment

Summary:

Strategic Policy SP 2: Retail and Town Centres -We suggest that it would be useful for both Councils to work together to consider the impact of Carmarthenshire's retail strategy on Swansea, both in terms of impact on Swansea's highway network and retail hierarchy (particularly Swansea City Centre's role as a regional centre). We suggest that the retail strategy set out in the Swansea LDP should be considered together with the Swansea Central Area Regeneration Framework.

Response / Recommendation

Comments noted. The Council looks forward to continuing its constructive dialogue with the respondent as the Plan making process proceeds towards the Deposit LDP and the input provided by the respondent to date is duly welcomed in this regard. The Council recognises the value of the retail industry within the region and the county and will also seek to ensure that we understand the impact of proposals in neighbouring authorities will have on Carmarthenshire's Retail provisions.

Representation(s)

Nature

1621 Kames Capital UK Active Value Property Unit Trust [3610] **Comment**

Agent: ROK Planning (Mr Alun Evans) [3609]

Summary:

The representations seek to demonstrate the background position regarding the specific retail centre and provide a response to (a) the proposed retail policy drafting and (b) the proposed Candidate Site allocation. A conclusion is then provided which identifies minor alterations to the proposed draft retail policy, in order that the Cambrian Way shopping centre retail offer can be optimised and secured and suggest a more flexible local plan designation for the retail centre, including intensification of the use of the floorspace at upper levels. The respondent suggests the following amendment to para 11.27:
 "We recognise that the role of town centres and traditional retail patterns is changing, as such both town centre and primary and secondary retail boundaries as identified previously will be reviewed and where appropriate revised. This recognition of the changing retail pattern and the potential for flexibility in maintaining occupancy and footfall, as part of the creation of vibrant and living environments."
 The respondent advocates the removal of the Primary and Secondary retail designations. Proposes the inclusion of the following at the end of the second paragraph of SP2:
 Within the Principal Centres, a majority of retail units should comprise A1 Retail Use, with other commercial and Town Centre Uses making up the balance of units. It is not considered appropriate to identify Primary and Secondary retail frontage in order to encourage diversity and maintain the overall economic function of the Principal Centres.

Response / Recommendation

Disagree. It is considered the policy and the supporting text makes appropriate provision for the strategic consideration of retail centres across Carmarthenshire. In this regard it should be recognised that individual centres have intrinsic characteristics and potential challenges. With this in mind the suggested changes would be prescriptive across all centres and would limit the opportunity for more detailed policies to respond specifically to the needs of a given centre.

Representation(s)

Nature

1768 Columbia Threadneedle Investments (To whom it may concern) **Comment**
 [3771]

Summary:

The respondent strongly support the principle of seeking to support the deliver of new retail leisure, office, cultural facilities within defined centres. Such uses considered appropriate in shopping areas where these serve to maintain a healthy and vibrant town centre. The merging Local Plan should seek to promote a relaxation of the current adopted policy in order t provide a range of more diverse uses within town centres within Carmarthenshire.

 Accordingly, emerging detailed policies should not be overly prescriptive in terms of setting a specific percentage of number of contiguous non-A1 uses that are permissible. Rather it should look to place the onus on the applicant to demonstrate how a non-A1 use would secure the vitality and viability of the defined retail frontages and wider town centre.

 Policy should specifically include consideration of the re-use of upper floors for appropriate non-A1 uses and the introduction of flexibility for temporary or meanwhile use of vacant properties within the town centre.

Response / Recommendation

Comments Noted - Detailed consideration of the points noted by the respondent will be subject to further consideration as part of the policies and provisions of the Deposit LDP. These are not matters considered appropriate from a strategic policy context.

Agent: Savills (Mr Nick Heard) [3216]

Summary:

Whilst the increased buffer that is proposed in the revised LDP is marginally greater than in the adopted LDP, it is suggested that it is still wholly inadequate given the undersupply in the adopted LDP and there is a need for a buffer of a very minimum of 10% to ensure delivery.

Response / Recommendation

Comments Noted - The level of flexibility allowance will continue to be informed by the emerging evidence base leading up to the publication of the Deposit LDP.

Representation(s)**Nature****1785 Mr John Morris [3777]****Object****Agent: LRM Planning (Mr. Michael Rees) [3002]****Summary:**

It is clearly a major requirement of PPW10 that great importance is placed upon the provision of homes, indeed, sustainable places cannot be facilitated without adequate provision. In this regard, PPW 10 recognizes the importance of a home to people's lives and indicates that Authorities must:

- * identify a supply of land to support the delivery of the housing requirement to meet the differing needs of communities across all tenures;
- * enable provision of a range of well-designed, energy efficient, good quality market and affordable housing that will contribute to the creation of sustainable places; and
- * focus on the delivery of the identified housing requirement and the related land supply.

Accordingly, it is important that an appropriate supply of homes is identified. As noted above, we are concerned that the revised requirement will not address key issues raised nor achieve the overarching aims of the Plan or its objectives. It is our view that it should be more aspirational and the hybrid option should lean towards higher job growth and economic development.

Notwithstanding our views on the level growth sought, it is clearly the case that based on the favoured option and given the issues identified within the LDP there are two key considerations that are inter related:

1. Flexibility allowance: The current level of flexibility (3.7%) was plainly insufficient, a greater level could have resulted in supply problems being addressed at an earlier stage.

Indeed, other Authorities have tended to lie between 10% to 20%, accordingly we are of the view that at least 15% should be used. This would reflect the fact that a number of the large strategic sites suffer from significant environmental & physical constraints and may not be brought forward.

A flexibility allowance of 15% would result in a need to identify a supply pool of at least 11,370 dwellings that would be available and deliverable.

2. Delivery: Given the shortfall in supply it will be problematic to simply roll the existing supply pool forward to suit a lower housing requirement. Indeed, whilst this might prima facie provide a 5 year supply, it will not address the core issues nor meet the requirements of PPW (in terms of placemaking) and implement the aspirations. It will simply mean that the existing trends are carried

forward. There are over 4000 dwellings in category 4 of the JHLAS, this is a considerable number that have failed to deliver within the LDP timeframe to 2021. It is strongly our view that a considerable number of these ought not be carried forward in a review. We await the findings of the review of these sites in terms of viability and delivery.

We would accept that if a large number of these sites were replaced with new allocations then our concerns over flexibility may be alleviated.

Response / Recommendation

Comments Noted - The level of flexibility allowance will continue to be informed by the emerging evidence base leading up to the publication of the Deposit LDP. The comment relating to existing sites is also noted, and the need for clarity in respect of the current allocated sites is recognised and will be considered as part of the preparation of the Deposit LDP.

Agent: Savills (Mr Nick Heard) [3216]

Summary:

Linked to this point, the Williams Family suggest that there is a need to undertake a thorough review of sites that are allocated in the Adopted LDP to consider their suitability for their continued allocation in the Revised LDP in light of the emphasis placed in Planning Policy Wales Edition 10 on sites being realistically deliverable and viable. This can only help Carmarthenshire County Council hit the delivery numbers that are required within the County.

In St Clears, for example, three sites ('Adjacent to Britannia Terrace', 'Adjacent to Brynheulog', and 'Adjacent to Gardde Fields') totalling 98 units are allocated in the Adopted LDP and were allocated in its predecessor, the Unitary Development Plan (UDP) which was adopted in 2006. In the case of 'Adjacent to Britannia Terrace' outline planning permission was granted in 2010 (ref. W/21675) though this has been extended on two occasions (refs. W/28769 and W/31167) whilst both the 'Adjacent to Gardde Fields' and the 'Adjacent to Brynheulog' have no relevant planning history since an outline application for residential development which was withdrawn in 2007 (12 years ago) (ref/ W/17287). This means that no units have been constructed on any of the sites.

Whilst it is understood that Carmarthenshire County Council may have aspirations for these sites to be developed there must be genuine concerns about their viability and deliverability - these factors should form part of the rigorous review of all long standing allocated sites. Accordingly, it is suggested that they are not continued as allocations within the Revised LDP on the basis that deliverability has not been demonstrated.

The RLDP's extended lifetime means that there is a requirement to identify new sites for housing. St Clears is both a highly sustainable location as reflected in its position in the settlement hierarchy (as set out in the Adopted LDP) but also the far higher level of housing delivery on allocated housing sites compared to other settlements in St Clears. Despite this, there has been little progress on three sites allocated in the Adopted LDP and questions need to be asked whether these continue to be deliverable and ultimately whether they should continue to be allocated.

Response / Recommendation

Comments Noted - A detailed assessments will be undertaken on all housing allocation within the current LDP, and each settlement within the settlement hierarchy will be assessed in light of their potential for accommodating and delivering future development. This will be considered as part of the emerging evidence base leading into the publication of the Deposit LDP.

Agent: Lichfields (Mr Arwel Evans) [3166]

Summary:

Support not using the WG 2014 based population projections. Support in principle the fact that a more aspirational population projection has been utilised.

Question whether using past build out rates is appropriate given depressed housebuilding over last 10 years.

Object to the fact that a flexibility allowance of only 593 (5.9%) homes is set out by the Plan. Current adopted LDP had a 3.8% buffer and it is clear that this has not been sufficient to ensure that the housing requirement is met.

Change To Plan Sought:

We recommend that the land supply is increased so that there is at least a 10% buffer for non-delivery. This would assist the Council in meeting the housing requirement.

Response / Recommendation

Disagree in part. The Council considers that the population and household projection is based on a sound and reasonable assessment, by identifying a number of factors which influence it. The preferred projection affords an allowance in the potential uplift on the existing deliverability of sites and offers an opportunity to provide a positive mechanism for future growth should the economy grow.

Comment Noted - The level of flexibility allowance will continue to be informed by the emerging evidence base leading up to the publication of the Deposit LDP.

Paragraph 11.35

Representation(s)

Nature

1772 Savills (Mr Nick Heard) [3216]

Object

Agent: Savills (Mr Nick Heard) [3216]

Summary:

Based upon the growth option selected in Section 9 of the Draft Preferred Strategy, this policy states that in order to ensure the housing requirement of 9,887 units over the Review LDP period is achieved, provision will be need to be made for 10,480 units. This equates to a buffer of 593 units or 6% of the projected population growth.

Paragraph 4.2.10 of Planning Policy Wales provides guidance on the buffer that should be used when setting housing need, stating that:

"The supply of land to meet the housing requirement proposed in a development plan must be deliverable. To achieve this, development plans must include a supply of land which delivers the identified housing requirement figure and makes a locally appropriate additional flexibility allowance for sites not coming forward during the plan period."

The Adopted LDP is based on a housing need of 15,197 (just over 1,000 a year) with a total of 15,778 units allocated equating to a buffer of 581 units or 4%. Since the adoption of the Adopted LDP, the 2018 Annual Monitoring Report (AMR) recognises that the most units delivered in a single year was 608. A number of reasons (some structural and other more local based) are identified in the AMR to explain this under delivery and these are not disputed by The Williams Family but it is also evident that the 4% buffer used was inadequate for the Adopted LDP and that there have been sites that have been allocated repeatedly in local plans despite not having come forward and not coming forward in the Adopted LDP. Whilst the increased buffer that is proposed in the Revised LDP is marginally greater than in the Adopted LDP, The Williams Family suggest that it is still wholly inadequate given the undersupply in the Adopted LDP and there is a need for a buffer of a very minimum of 10% to ensure delivery.

In terms of the amount of growth, ultimately The Williams Family welcome the use of a projection that is based on longer term trends rather than a single base date but suggest there is scope to make an allowance for favourable economic circumstances and use a substantial buffer (minimum of 10%) between need and allocations made to support delivery.

Response / Recommendation

The level of flexibility allowance will continue to be informed by the emerging evidence base leading up to the publication of the Deposit LDP.

Summary:

The absence of an up to date Local Housing Market Assessment (LHMA) is a major shortcoming as it is a core piece of baseline evidence influencing the scale, type and location of housing. The LHMA is of critical importance to demonstrate that the proposed level and type of housing reflects local needs. Linkages to sustainability issues should also be reconciled; i.e. why it is, or is not appropriate to locate affordable housing in less sustainable communities. At present it is unclear how the distribution of growth relates to areas where it is viable or needed? Whilst the authority refers to an affordable housing target in para 11.42 which mentions the Affordable Housing Delivery Plan 2016-2020 target of 1,000 homes, Policy SP4 'Affordable Homes should set a target for affordable homes. The LDP Manual (edition 3) sets out detailed guidance on viability and includes a checklist for developing an affordable housing policy framework.

Response / Recommendation

Noted. The Council recognises the importance, and role, of an up to date Local Housing Market Assessment (LHMA). The Council is currently working with authorities across the region to prepare an up to date LHMA. The LHMA will inform the preparation of the Deposit LDP. Policy SP4 will as part of the Deposit LDP set a minimum target for affordable homes. The reference to the requirements of the Local Development Manual Edition 3 is noted and will be appropriately considered as part of the preparation of the Deposit Plan. However, it should be noted that Edition 3 of the Manual at the time of writing is pending publication and as such could not be considered in the preparation of the Preferred Strategy.

Agent: LRM Planning (Mr. Michael Rees) [3002]

Summary:

We note that through the LDP there was a significant identified housing need (73% of the overall housing requirement). Given the shortfall within the LDP period and under delivery, absent any updated need survey, it seems clear that the existing level of need can only be increased. Indeed, the most recent housing market assessment indicates that there will be a shortfall of 1,900 affordable homes a year for the next five years between 2015 and 2020. This includes 400 of these that are considered within the highest housing need and in total over the period equates 9,500. As such it seems that the overarching housing need figure is likely to exacerbate issues of affordability. These issues were identified in 2009, were not addressed within the LDP and are unlikely to be addressed in the current approach, absent an overhaul of under-deliverable sites and identification of new allocations that can improve delivery.

Response / Recommendation

Noted. The Council recognises the importance, and role, of an up to date Local Housing Market Assessment (LHMA). The Council is currently working with authorities across the region to prepare an up to date LHMA. The LHMA will inform the preparation of the Deposit LDP. The comment relating to existing sites is also noted, and the need for clarity in respect of deliverable sites is recognised and will be considered as part of the preparation of the Deposit LDP.

1645 Welsh Government (Mr Mark Newey) [13]

Comment

Summary:

Policy SP1 supports the delivery of approximately 5,300 jobs, further evidence and explanation is required to explain how and where the level of job growth will be delivered, including both strategic and non-strategic allocations. It is unclear what the level of employment provision is and for what sector and how this translates into a land requirement for employment uses? The current employment evidence base is inconsistent and unclear. The plan is currently silent on the type and location of key employment sites required to deliver the strategy. Further explanation is also required on how all opportunities arising from the Swansea Bay City Region have been taken into account as part of the economic strategy.

The Deposit Plan should:

- provide greater articulation on the link between the plan's housing requirement and target for 5,300 jobs to ensure broad alignment in economic activity and labour force projections and reduce the need for commuting;
- identify an employment (ha) / job target and buffer;
- identify spatial allocations to meet identified need including broad timing and phasing and defining the land use by Use Class;
- if appropriate, include a new policy to protect and identify key employment sites to safeguard for future employment use;
- include a policy to support alternative uses on existing employment sites not safeguarded;
- explain how allocated sites will be delivered, especially key allocations; and policies to promote and sustain the rural economy.

Response / Recommendation

Noted. Additional evidence will be prepared to support and inform the preparation and content of the Deposit LDP. Note the authority is currently working at a sub-regional level on evidence in respect of employment provision.

641 Simrock Holdings Ltd [3217]

Comment

Agent: Savills (Mr Nick Heard) [3216]

Summary:

This policy states that certain sites will be allocated and safeguarded for employment purposes. If CCC is to allocate or safeguard land for employment purposes, such a policy should contain mechanisms for the alternative use of such land subject to a series of criteria which would enable alternative uses to come forward where circumstances exist to justify alternative use subject to other policies within the development plan.

These criteria would enable applications for alternative uses of land or buildings to be treated on their merits having regard to market signals and the relative need for different land uses to support sustainable local communities. A failure to introduce such criteria could have the unintended consequences of the long-term vacancy allocated or safeguarded sites where there is no reasonable prospect of a site being used for such purposes to the detriment of the local economy or where alternative uses have merit.

Response / Recommendation

Comments noted. The Revised LDP will allocate and safeguard sufficient land for employment purposes, based upon robust evidence, and in accordance with the requirements set out within Planning Policy Wales (PPW) and Technical Advice Note (TAN) 23. The inclusion of criteria for potential alternative uses on such allocated sites will be considered under evolving policy during preparation of the Deposit LDP.

Noted. See representation 1647.

Representation(s)

Nature

1642 Welsh Government (Mr Mark Newey) [13] **Comment**

Summary:

The Welsh Government is concerned that the proposed scale and distribution of housing growth, particularly within Tiers 3 and 4 raises implications of sustainability and potentially negatively impacts on the Welsh language. It is unclear why the more sustainable Service Centres have been allocated the same proportion of growth as Tiers 3 and 4? In addition, it is also unclear why Rural Villages (Tier 4) that have no settlement boundaries, services or facilities would have the same growth levels/capacity as Tier 2 settlements? This point is re-enforced by the Role and Function Topic Paper which highlights that Tier 3 settlements - Sustainable Villages have in broad terms limited services and facilitates. Tier 4 settlements are not even assessed. While the WG acknowledges the rural characteristics of Carmarthenshire, the scale and distribution of growth does not appear commensurate with the principles of sustainable development, nor the Councils own evidence within the SA or the Role and Function Paper. To summarise the Welsh Government has concerns about the scale of growth proposed to Tiers 3 and 4 of the settlement hierarchy conflicts with Planning Policy Wales.

Response / Recommendation

Noted. The scale and distribution of growth will be subject to further evidencing as part of the preparation of the Deposit LDP - including the proportions allocated to the respective tiers within the hierarchy.

Representation(s)**Nature****1647** Welsh Government (Mr Mark Newey) [13]**Comment****Summary:**

Policy SP7 - Welsh language highlights the importance of the language to the area. A topic paper setting out how the Welsh language has influenced the scale of growth and strategy is essential given the significance of the Welsh language for this LDP. The consequence of the level/distribution of housing growth proposed on the Welsh language needs to be clearly articulated especially as past high levels of in migration and international migration are being used to justify the housing requirement. This is a key requirement of TAN 20 that has not been addressed. The SA of the Hybrid Option alludes to positive effects (SA, Figure 6) however the implications of the settlement hierarchy and proposed distribution of growth (SP16) is not conclusive in this respect (SA, Figure 8). There is no indication the authority has considered the potential strategic approaches to the Welsh language, as outlined in paragraph 2.5.2 of TAN 20. The authority should consider a suitable approach, taking account of how it fits with neighbouring authorities, and consider whether there are any anticipated impacts on the language which should be avoided or where they cannot be avoided, require mitigation.

Response / Recommendation

Comments are noted. The Deposit LDP will be supported by a Topic Paper on the Welsh Language and informed by a Welsh Language impact Assessment. Further detailed policies will be provided in the Deposit Plan and these will address matters such as phasing and mitigation, if required.

Representation(s)**Nature****741** Mr Peter Hallam [3271]**Comment****Summary:**

The attention given to the essential position of the Welsh language in Carmarthenshire is feeble at best. When talking about a major development such as the proposed village (with many questions currently being raised regarding that development), no practical measures are identified to protect and promote the Welsh language in such a development.

The few words given to the position of the Welsh language and how it can be developed and promoted say nothing, in fact, on how that will be done.

I would like to commend the response given by the Welsh Language Society in its entirety as my response too. It encompasses all that I would like to state.

I can do no better than refer you to the detailed, balanced and incisive response by Cymdeithas yr Iaith (Welsh Language Society). Indeed I am in complete agreement with that response when discussing the whole scheme.

Response / Recommendation

Comments are noted. The Preferred Strategy was subject to a SA/SEA which encompasses the Welsh language. The Deposit LDP will be informed by a Welsh Language Impact Assessment. We welcome ongoing dialogue with Welsh Language Organisations in respect of the impacts of the LDP upon the Welsh language and would welcome any data, evidence or research which they have prepared or are aware of.

<i>Representation(s)</i>	<i>Nature</i>

Summary:

In accordance with the position set out in the Swansea LDP (Policy RP4 and reasoned justification) Swansea Council will continue to work in collaboration with Carmarthenshire County Council and partners NRW and DCWW to protect the water quality of the Burry Inlet and Loughor Estuary that forms part of the Carmarthen Bay and Estuaries European Marine Site (CBEEMS). This work may include producing and updating a joint agreement or 'Memorandum of Understanding' that will set out the roles and responsibilities of each organisation in the provision of foul water infrastructure to safeguard against any unacceptable detrimental impacts on the Estuary arising from additional foul flows from new development. DCWW has indicated that Llannant WWTWs, that discharges into the CBEEMS and has a catchment covering both authorities, is reaching capacity. In advance of DCWW undertaking the necessary improvement to Llannant Waste Water Treatment Works through their AMP it may be necessary to require development in its catchment to provide compensatory surface water removal from the foul water system. The Swansea LDP acknowledges that ultimately in order to protect water quality of the Burry Inlet and Loughor Estuary a Nutrient Management Plan may be required This is a key trans-boundary issue which should be appropriately reflected in the LDP evidence base and associated SA and HRA documents.

Response / Recommendation

Comments noted. The Council looks forward to continuing its constructive dialogue with the respondent as the Plan making process proceeds towards the Deposit LDP and the input provided by the respondent to date is duly welcomed in this regard. It is noted that in relation to the Memorandum of Understanding, there are other stakeholders in addition to the Council and the respondent and as such this matter will be fully explored in a collaborative manner as the Plan making process proceeds towards the Deposit LDP.

The Council fully recognises that this is a key trans-boundary issue which should be appropriately reflected in the LDP evidence base and associated SA and HRA documents. Reference should be made to the Council's response to representation 1704.

1756 City & County of Swansea (Mr Tom Evans) [3761]	Comment
<i>Summary:</i>	
Strategic Policy SP8 - Infrastructure - We suggest that the Swansea Infrastructure Delivery Plan (IDP) (see ED056b Revised IDP) which supports the Swansea LDP could provide useful evidence to inform consideration of the capacity of local infrastructure. The IDP contains detailed requirements for infrastructure provision on allocated sites along the Swansea side of the Carmarthenshire boundary.	

Response / Recommendation

Comments noted. The Council looks forward to continuing its constructive dialogue with the respondent as the Plan making process proceeds towards the Deposit LDP and the input provided by the respondent to date is duly welcomed in this regard.

<i>Representation(s)</i>	<i>Nature</i>
1757 City & County of Swansea (Mr Tom Evans) [3761]	Comment
<i>Summary:</i>	
It is noted that there are number of candidate sites within the Hendy area where the local transboundary and in-combination effects of allocations should be taken into consideration during the site assessment process. We suggest that the impact of planned infrastructure provision and improvements within the Swansea boundary could usefully be taken into consideration in the preparation of the Carmarthenshire Deposit Plan, particularly with regard to the site selection process and the assessment of impact of sites on the highways network. In particular, reference could usefully be made to	
* Swansea Infrastructure Development Plan,	
* LDP Appendix 3 Site Requirements, L	
* DP Appendix 5 - Transport Proposals Priority Measures	
* Infrastructure requirements of LDP Strategic Site Policies SD A and SD H: which include on and off-site highways improvements, provision of a new primary school and contributions to improvements at Pontarddulais Railway station).	

Response / Recommendation

Comments noted. The Council looks forward to continuing its constructive dialogue with the respondent as the Plan making process proceeds towards the Deposit LDP and the input provided by the respondent to date is duly welcomed in this regard. The Site Assessment Methodology will allow for the consideration of candidate sites, including those submitted within the Hendy area.

<i>Representation(s)</i>	<i>Nature</i>
1704 Natural Resources Wales (Miss Sharon Luke) [3253]	Comment

Summary:

The MOU no longer relates to any HRA for the coastal area of Llanelli. NRW are satisfied that any development within the area will be captured by the overarching HRA for the LDP.

SuDS must be designed and built in accordance with the SuDS Standards and Schemes must be approved by the LA acting in its SAB role. Water quality mitigation should be captured with the SABS which supersedes the existing MOU. NRW advocate the inclusion of a policy/strategy/supporting text with the LDP supporting no new connections of surface water to the main foul sewerage system from new development sites.

Response / Recommendation

Comments noted. The Council looks forward to continuing its constructive dialogue with the respondent as the Plan making process proceeds towards the Deposit LDP and the input provided by the respondent to date is duly welcomed in this regard. It is noted that in relation to the Memorandum of Understanding, there are other stakeholders in addition to the Council and the respondent and as such this matter will be fully explored in a collaborative manner as the Plan making process proceeds towards the Deposit LDP. Reference should also be made to the Council's response to representation 1750. Adequate referencing to the SAB (and indeed the relationship between the planning and SAB application processes) will be required and due consideration will also be given to the implications of SAB consent in the site assessment methodology (noted that some allocations will be based on approvals pre SUDS implementation).

1593 mr william Phillips [3566]	Comment

Summary:

The Strategic Policy (SP8) is reasonable and correct, to a certain extent However, recent experience has demonstrated that developers are able to submit acceptable plans, to cater for deficient infrastructure, until Planning permission has been granted. Thereafter, the plans are scrapped, Houses are allowed, by the Planners, to be completed, eg. without sewerage, DCWW are then obliged under the Water Act of 1991, to provide sewerage services for those dwellings. INFRASTRUCTURE MUST BE IN PLACE, PRIOR TO THE GRANTING OF PLANNING CONSENT to avoid such consent being obtained through "smoke and mirrors."

Response / Recommendation

Noted. The Council will continue to work closely with infrastructure providers and developers to ensure sites are deliverable and that adequate services are available.

It is clear that Llangennech is a sustainable settlement which benefits from good infrastructure and therefore merits its position in the settlement hierarchy. Development should therefore be directed to sustainable sites within or adjacent to the settlement.

Response / Recommendation**support welcomed****Paragraph 11.71****Representation(s)****Nature****1670** Dwr Cymru/Welsh Water (Mr Ryan Norman) [2830]**Comment***Summary:*

With specific regard to water and sewerage infrastructure, where insufficient capacity is available and where no reinforcement works are programmed within the respective Capital Investment Programme, the requisition provisions can be entered into for the water and sewerage infrastructure. The requisition provisions do not apply in the instance of wastewater treatment works (WwTW), and as such planning obligations may be necessary.

Response / Recommendation

Comments noted. The Council looks forward to continuing its constructive dialogue with the respondent as the Plan making process proceeds towards the Deposit LDP and the input provided by the respondent to date is duly welcomed in this regard.

Strategic Policy - SP9**Representation(s)****Nature****1649** Welsh Government (Mr Mark Newey) [13]**Comment***Summary:*

The latest Gypsy Traveller Accommodation Needs Assessment (GTAA) approved by Welsh Ministers does not form part of the evidence base to inform the accommodation needs of Gypsy and Traveller families. The Authority must ensure the GTAA referenced in the reasoned justification to Policy SP9 is the version currently signed-off by Welsh Ministers.

To identify the level of need and timescales for delivery, the GTAA must cover the entire replacement plan period (2018-2033), which it does not at present. By Deposit stage, a new GTAA must be prepared and agreed by Welsh Ministers with provision made for appropriate and deliverable site allocations to meet any need in the timescales identified. We note the Council are currently undertaking a separate call for gypsy and traveller sites (until April), including the methodology for site selection. This is a key issue for the authority and failure to identify the level of need and allocated sites in the Deposit Plan to meet the identified need is likely to result in the plan being unable to be found sound. In the Deposit plan, the results of the new GTAA must be clear in terms of the total and type of need and timescales for meeting this up to 2033.

Response / Recommendation

Noted. The Council recognises the importance of the Gypsy and Traveller Accommodation Assessment (GTAA) in respect of the LDP, and is in the process of developing a revised GTAA through to 2033. As noted by the respondent, a 'call for sites' in respect of Gypsy and Traveller provision is underway the outcome of which will inform the preparation of the Deposit LDP.

WYG PLANNING & ENVIRONMENT (Louise Darch) [598]

Comment

Summary:

The objectives of Strategic Policy SP10 are broadly welcomed and supported. The respondent in promoting the status of Ffos las racecourse makes the following specific points in respect to Strategic Policy SP10:

1. Strategic Policy 10 should explicitly reference and promote Ffos Las as a key visitor attraction and strategic priority.

Ffos Las directly contributes to the delivery of the following Preferred Strategy strategic objectives:

* SO2 - it promotes wellbeing opportunities through access to leisure and recreational facilities as well as the countryside;

* SO4 - promotes access to leisure facilities and work opportunities;

* SO12 - provides opportunity for investment & innovation in rural and urban areas, delivers employment and contributes at a regional level to the delivery of the Swansea Bay City Deal;

* SO13 - provides a sustainable & high quality all year-round tourism destination.

Planning Policy Wales stipulates that there is a need for local planning authorities to establish a framework for well-located, good quality sport, recreational and leisure facilities, and develop clear policies for the provision, protection and enhancement of sport, recreation and leisure facilities; (PPW, para 4.5.2). References the duty to improve the social and cultural well-being of Wales, in accordance with the Well-being of Future Generations (Wales) Act 2015. Suggests the following wording: The Visitor Economy Proposals for tourism and leisure related developments will be supported at Ffos Las and other important visitor attractions.

Ffos Las is an important local employer and a wealth-generating, multi-faceted visitor attraction to Carmarthenshire. It is a regionally important facility.

2. Ffos Las promoted as a preferred location for Visitor Economy Development

The strategic policy wording should make direct reference to the Ffos Las racecourse as a preferred location for new tourism and leisure related development, including accommodation in accordance with PPW.

Response / Recommendation

Whilst the role of Ffos Las is noted, it is not considered necessary or appropriate to specifically identify a single facility as part of the strategic policy. The potential role of the facility and its contribution in light of the content of the Plan and the provisions of national planning policy will be considered as part of the deposit LDP.

Strategic Policy - SP11

Representation(s)

Nature

1672 Dwr Cymru/Welsh Water (Mr Ryan Norman) [2830]

Comment

Summary:

We note that there is no reference within the PS to the established SuDS Approval Boards (SABs) as set out in the Flood and Water Management Act 2010 (Schedule 3).

The requirement for new developments to obtain SAB consent may result in layouts and densities changing in some housing developments, but the onus is on landowners/developers to consider SuDS prior to master planning their site which will ensure there is no need to retrofit schemes into the design at a later stage.

Planning and SAB application processes are intrinsically linked, we would suggest including reference to it within the Preferred Strategy.

Response / Recommendation

Comments noted. Whilst the promotion of SuDS is referenced within criteria (g) of this SP11 and criteria (b) of SP15, it is accepted that there is a need to elaborate upon references to the SuDS Approval Boards (SABs). At the time the Preferred Strategy was published the process of setting up and formalising the Carmarthenshire SAB was ongoing, however it will be well up and running by the time the Deposit LDP is published. As such, adequate referencing to the SAB (and indeed the relationship between the planning and SAB application processes) will be required and due consideration will also be given to the implications of SAB consent in the site assessment methodology (noted that some allocations will be based on approvals pre SUDS implementation).

Representation(s)

Nature

1652 Welsh Government (Mr Mark Newey) [13]

Comment

Summary:

Opportunities to secure enhancement of biodiversity and the resilience of ecosystems have to be taken at the plan level in order to fulfil duties under Section 6 of the Environment Act. The plan is the opportunity to take a comprehensive approach towards protection and enhancement and to set out what can be achieved. This approach goes beyond what can be achieved as part of identifying allocations. Strategic Policy 13 - Protection and Enhancement of the Natural Environment should be re-framed as 'Maintaining and Enhancing the Natural Environment'. It would be helpful to understand how the Green Infrastructure Assessment (as required in PPW10) will inform the implementation of this policy and also the relationship of this policy to Strategic Policy 8: Infrastructure.

Response / Recommendation

Agree. The title of the policy to be amended as follows: 'Maintaining and Enhancing the Natural Environment'.

The Revised LDP will be supported and underpinned by a Green Infrastructure Assessment (GIA). This will include those policy areas referenced by the respondent and will be published ahead of the publication of the Deposit LDP. The GIA seeks to inform the policy provisions of the Plan as a whole and not only those policy areas referenced by the respondent.

Reference is made to the Council's response to representation reference 1699.

Representation(s)

Nature

1699 Natural Resources Wales (Miss Sharon Luke) [3253]

Object

Summary:

We are concerned about the following wording within the policy:
"Proposals must reflect the role an ecologically connected environment has in protecting

Whilst recognising the importance of ecological connections, this is one element of the many that contributes to defining the landscape and sense of place. Other important elements include geology, landform, landcover, field boundaries, buildings, historic features, to name a few. Landscape is not a sub-set of ecological connections and the strategic policy needs to reflect a broader understanding of the natural environment and landscape if account is to be taken of landscape character and sense of place.

Response / Recommendation

Agreed. This Strategic Policy should seek to set a strategic framework for the promotion of Sustainable Management of Natural Resources. Add the following wording to the policy at the last line of the Policy- ...to a sense of Well-being "and the principles of the Sustainable Management Of Natural Resources".

Reference is made to the Council's response to representation reference 826.

Representation(s)**Nature****1080** Cai Parry [822]**Object****Summary:**

BDW Homes considers that the wording of Policy SP 13 is too onerous, on the basis that paragraph 6.4.3 of Planning Policy Wales (Edition 10) states that "Development plan strategies, policies and developments must consider the need to....secure enhancement of and improvements to ecosystem resilience by improving diversity, condition, extent and connectivity of ecological networks". It is noted that Planning Policy Wales does not require all developments to secure enhancements to biodiversity, only to consider it. This comprises recognition by the Welsh Governments that enhancements to biodiversity interests may not always be feasible or appropriate.

Change To Plan Sought:

The wording of the first paragraph of Strategic Policy SP 13 should therefore be amended as follows:

"Proposals for development will be expected to protect and, where appropriate, enhance the County's natural environment".

Response / Recommendation

Noted. The comments by the respondent in respect of Strategic Policy SP 13 are duly noted. Any necessary amendments to wording will be considered as part of the preparation of the Deposit LDP, to ensure that it accords with Planning Policy Wales.

Strategic Policy - SP15

Representation(s)

Nature

1651 Welsh Government (Mr Mark Newey) [13] **Comment**

Summary:

LPA's should take a leadership role in pro-actively planning for renewable and low carbon energy. LPA's should fully utilise evidence in their renewable energy assessments (REA) to develop locally specific policies, set renewable energy targets and direct development to the most appropriate locations. It is extremely disappointing that the Preferred Strategy document does not have a specific policy on renewable energy, nor is it clear how opportunities for decarbonisation and renewable energy has influenced the strategy. There is currently no evidence on this topic.

Response / Recommendation

Noted. The Council will seek to prepare and publish a Renewable Energy Assessment as part of its evidence base in support of the Deposit LDP. This will inform locally specific policies and will seek to set the renewable energy targets and locations referenced by the respondent within the representation. Whilst it is noted that there is no strategic policy in respect of renewable energy, such matters are adequately considered as part of Strategic Policy SP15 Climate Change. Further detailed renewable energy policies will be set out as part of the Deposit LDP.

Summary:

Support the reference in Strategic Policy 15 (SP15) 'Climate Change' criterion c. to the energy hierarchy, including 'increasing the supply of renewable energy' but this is the only direct reference to this topic in the entire Preferred Strategy.

Response / Recommendation

Comments noted.

<i>Representation(s)</i>	<i>Nature</i>
273 RWE Innogy UK Ltd (Miss Eleri Davies) [471]	Comment

Summary:

Whilst appreciating that the Preferred Strategy is broad brush, it does contain fewer renewable energy references than is usual. Further rounds of consultation will clearly include the Council's detailed approach to renewable energy policies. It is positive that the LDP Review Report (February 2018) acknowledged the need for a Renewable Energy Assessment to underpin the renewable energy policies to be contained within the Revised Local Development Plan (LDP).

Further consideration needs to be given to renewable energy in the Deposit LDP which will include detailed and specific policies.

Response / Recommendation

Comments noted. A Renewable Energy Assessment will be undertaken to inform the policies of the Plan, and more detailed policies will also be included with specific reference to renewable energy.

1702 Pembrokeshire Coast National Park Authority (Ms Martina Dunne) [2326]	Support

Summary:

Both plans have regard to the need to generate more electricity from renewable sources. Pembrokeshire Coast National Park Authority has a renewable energy strategy policy seeking the delivery of appropriate renewable energy developments.

Both Authorities implement joint guidance on assessing the cumulative impact of wind turbines. It would be useful to confirm if Carmarthenshire intends to bring forward the Cumulative Impact of Turbine Guidance in the replacement Local Development Plan.

Carmarthenshire includes renewable energy as part of Strategic Policy 15: Climate Change (part c), but has no specific renewable energy policy at present.

Strategic Policy - SP16

Representation(s)

Nature

1641 Welsh Government (Mr Mark Newey) [13]

Comment

Summary:

Settlement Framework and Distribution (Policy SP16: Sustainable Distribution - Settlement Framework) - We note the authority's new spatial framework set out in SP16 differs from the adopted plan and adopts a 'cluster' approach. There are 6 clusters of functionally linked areas and within each cluster there are four tiers of settlements (Tier 1: Principal Centres, Tier 2: Service Centres, Tier 3: Sustainable Villages, Tier 4: Rural Villages). All settlements are 'predominantly' functionally linked within the cluster, with lower tier settlements linked to upper tier settlements that have more services and facilities. The WG does not object to the principle of this approach, the key concern is the scale of growth directed to each tier relative to the role and function and sustainability of places.

The Role and Function Topic Paper, includes an analysis of the key services and facilities within Tiers 1-3. The reasoned justification of SP16 states that growth will be broadly distributed as follows:

- Principal Centres 50-55% (will have a settlement boundary)
- Service Centres 15-20% (will have a settlement boundary)
- Sustainable Villages 15-20% (will have a settlement boundary)
- Rural Villages 15-20% and (no settlement boundary)
- Non Defined Rural Settlements (1%) (no settlement boundary)

The Welsh Government is concerned that the proposed scale and distribution of housing growth, particularly within Tiers 3 and 4 raises implications of sustainability and potentially negatively impacts on the Welsh language. It is unclear why the more sustainable Service Centres have been allocated the same proportion of growth as Tiers 3 and 4? In addition, it is also unclear why Rural Villages (Tier 4) that have no settlement boundaries, services or facilities would have the same growth levels/capacity as Tier 2 settlements? This point is re-enforced by the Role and Function Topic Paper which highlights that Tier 3 settlements - Sustainable Villages have in broad terms limited services and facilities. Tier 4 settlements are not even assessed. While the WG acknowledges the rural characteristics of Carmarthenshire, the scale and distribution of growth does not appear commensurate with the principles of sustainable development, nor the Councils own evidence within the SA or the Role and Function Paper. To summarise the Welsh Government has concerns about the scale of growth proposed to Tiers 3 and 4 of the settlement hierarchy conflicts with Planning Policy Wales.

To demonstrate delivery and sustainable distribution of growth across the settlement hierarchy the Deposit plan must; Identify spatial distribution and components of housing land supply as allocations, commitments and windfall sites (small and large) for each settlement tier in which they will be delivered (See LDP Manual, Ed 3).

The policy framework must clearly articulate the type and scale of development that would be appropriate at each tier of the hierarchy. Policy SP12 Rural Development needs strengthening in this respect.

Response / Recommendation

Noted. The scale and distribution of growth will be subject to further evidencing as part of the preparation of the Deposit LDP - including the proportions allocated to the respective tiers within the hierarchy.

Matters in relation to the Welsh language will be considered as part of the LDP's evidence base and within the Sustainability Appraisal. See representation 1647.

Agent: Savills (Mr Nick Heard) [3216]

Summary:

Despite tripling the number of Service Centres, the amount of growth which is to be directed to them is, at most, to be doubled. From a purely mathematical perspective it is suggested that this percentage is too low.

The second is to stress the suitability of St Clears to accommodate further growth as a Service Centre. As discussed previously, the settlement is one of just six Service Centres which were included within the tier in the ALDP, has delivered the largest number and highest percentage of units out of all of the ALDP Service Centres demonstrating its ability to accommodate growth, has a broad range of services, and is strategically located at the junction of the A40 and the A477.

Response / Recommendation

Comments Noted - Each settlement within the settlement hierarchy will be assessed in light of their potential for accommodating and delivering future development. Consideration will be given to those sites which have failed to deliver in the adopted LDP. This will be considered as part of the emerging evidence base leading into the publication of the Deposit LDP.

WYG PLANNING & ENVIRONMENT (Louise Darch) [598]

Comment

Summary:

The respondent makes the following comments on the Preferred Strategy:

Strategic Policy SP16 indicates that the provision of growth and development will be directed to sustainable locations. Ffos Las is a sustainable location for continued investment. It lies contiguous with the settlement of Carway. There should be a presumption in favour of sustainable development at Ffos Las. It should lie within the defined settlement, where there is a presumption in favour sustainable development, provided the development accords with other local plan policies. It is logical therefore that the settlement framework reflects this.

Response / Recommendation

Noted. The potential allocation of Ffos Las will be considered as part of the preparation of the Deposit LDP, and in accordance with the site assessment methodology.

Agent: Savills (Mr Nick Heard) [3216]

Summary:

The removal of Llangennech from the Llanelli Growth Area is consistent with the approach taken through the DPS of removing surrounding settlements from the Principal Centres and giving them their own place in the settlement hierarchy. If CCC is to progress with this approach and Llangennech is to be a Service Centre, SHL would stress Llangennech's highly sustainable location for growth given its relationship with Llanelli, proximity to the local transport network, and strategic position between Carmarthenshire and Swansea.

Response / Recommendation

Comments Noted. Each settlement within the settlement hierarchy will be assessed in light of their potential for accommodating and delivering future development. This will be considered as part of the emerging evidence base leading into the publication of the Deposit LDP.

Representation(s)

Nature

1714 Mr Steven Roberts [3020]

Object

Summary:

We object to draft Policy SP16 'Sustainable Distribution - Settlement Framework'. We maintain there is no cogent or compelling planning reason to consider Burry Port and Pembrey as one settlement. The apparent lack of detailed investigation into the relation between the two settlements undermines the coherence of draft Policy SP2. If this matter is not addressed, then there is a risk that subsequent iterations of the Plan will propose housing allocations at Pembrey, in locations which will necessitate the use of private vehicles and fail to contribute to sustainable development.

Response / Recommendation

Disagree. The spatial proximity of Burry Port and Pembrey within this coastal location indicates a logical grouping of these settlements moving forward within the Llanelli cluster. It is important to note that in allocating sites for development in the Revised LDP, the forthcoming site assessment methodology will stress that the avoidance of inappropriate coalescence.

Representation(s)

Nature

1082 Cai Parry [822]

Object

Summary:

The wording of the Settlement Framework should be amended to reflect Bryn's status as part of the settlement boundary of Llanelli, which is defined as a 'Principal Centre' within the top tier of the Settlement Framework.

Change To Plan Sought:

The Tier 1 settlement within Cluster 2 should be defined as 'Llanelli / Bryn'.

Response / Recommendation

Comment noted. Bryn similarly to other areas of Llanelli, such as Furnace, Llwynhendy etc, forms part of Cluster 2 Llanelli, and development will be apportioned to such locations accordingly. Being implicit that Bryn forms part of Llanelli, it is therefore not considered necessary to include Bryn in the SP 16: Sustainable Distribution - Settlement Framework flowchart.

Representation(s)

Nature

1740 Mr S Lloyd [3741]

Object

Agent: JCR Planning Ltd (Richard Banks) [787]

Summary:

Heol Ddu's categorisation as a Tier 4 settlement, (with no development limits) would suggest that it is in an isolated and unsustainable location, which is simply not the case. This classification is more perplexing when compared with other settlements that have been categorised as Tier 3 settlements which have a comparable or lower sustainable status than Heol Ddu when considering accessibility to community facilities and local services.

Heol Ddu can readily be considered as being a functioning part of the Ammanford/Cross Hands Tier 1 Principal Centre (Cluster 3), given its close physical proximity to Ammanford and adequate linking highway network.

Response / Recommendation

Disagree- The Council considers that the allocation of the settlement within the hierarchy is reflective of its position, and the services and facilities it provides. Whilst tier 4 settlements will not have development limits, a criteria based policy is considered appropriate to allow sensible small scale development within these villages.

This will be further elaborated in the Role and Function Paper as the Plan leads towards the publication of the Deposit.

1774 Savills (Mr Nick Heard) [3216]

Object

Agent: Savills (Mr Nick Heard) [3216]

Summary:

In the Adopted LDP a four tier settlement hierarchy is in place consisting of three 'Growth Areas', six 'Service Centres', 11 'Local Service Centres', as well as a large number of 'Sustainable Communities'. St Clears, which includes Pwll Trap, is designated as a 'Service Centre', a tier which is expected to deliver 10% of housing allocations, and 9% of the total housing requirement.

The approach that is proposed in Strategic Policy SP16 in the RLDP differs substantially, consisting of three 'Principal Centres', 18 'Service Centres', and a larger amount of both 'Sustainable Villages' and 'Rural Villages'. St Clears continues to be a 'Service Centre' a tier which is to accommodate between 10% and 20% of housing need.

Despite tripling the number of Service Centres, the amount of growth which is to be directed to them is, at most, to be doubled. From a purely mathematical perspective it is suggested that this percentage is too low.

In terms of the distribution of growth, The Williams Family suggest that fundamentally the Revised LDP needs to tackle issues relating to delivery and therefore a Spatial Option needs to be taken which recognises the rates of delivery of sites within settlements.

Response / Recommendation

Comment Noted - Each settlement within the settlement hierarchy will be assessed in light of their potential for accommodating and delivering future development. Consideration will be given to those sites which have failed to deliver in the adopted LDP. This will be considered as part of the emerging evidence base leading into the publication of the Deposit LDP

Agent: JCR Planning Ltd (Mr Jason Evans) [2988]

Summary:

We have been instructed by our Clients to object to the classification of Penybanc as a Tier 4 settlement, it should be classified as a Tier 3 settlement for the following reasons:

- it is intrinsically linked to the larger nearby town of Llandeilo (Tier 2);
- it is well served by public transport, and well positioned to the County's Strategic Highway Network;
- Llandeilo faces a range of physical constraints with respect to its future growth, Penybanc plays a similar role in terms of facilitating the growth of the Town as Rhosmaen and Ffairfach.

Penybanc is sustainable from an accessibility and transportation perspective.

Previous development plans have provided limited (if any) opportunities for growth within Penybanc, as a result, the area has had its growth somewhat stifled, resulting in the use of community facilities and local services declining, and in some cases closing. This trend must be halted and its proportionate growth facilitated.

Response / Recommendation

Disagree- The Council considers that the allocation of the settlement within the hierarchy is reflective of its position, and the services and facilities it provides. Whilst tier 4 settlements will not have development limits, a criteria based policy is considered appropriate to allow sensible small scale development within these villages.

This will be further elaborated in the Role and Function Paper as the Plan leads towards the publication of the Deposit.

Summary:

Strategic Policy SP16 sets out the County's Settlement Framework, based upon a four Tier Settlement Hierarchy and with the County divided into six Settlement Clusters. My client supports Strategic Policy SP16, in particular the designation of Ammanford /Crosshands as a Tier 1 Principal Centre at the top of the Settlement Hierarchy in the County's Settlement Cluster 3. In this respect, Ammanford /Crosshands is an highly sustainable location to which new housing and employment development should be directed; and it is entirely appropriate for the settlement to be positioned at the top of the County's Settlement Hierarchy.

Response / Recommendation

Support welcomed.

Paragraph 11.137

Representation(s)

Nature

546 RSAI [3167]

Support

Agent: Lichfields (Mr Arwel Evans) [3166]

Summary:

We support paragraph 11.137 which states that the Plan will seek to distribute growth and development across the County having regard to the spatial strategy and spatial framework and national policy. We support the fact that the Plan will have regard to the role and function of settlements.

We consider that the spatial framework identified provides a sound basis for delivering sustainable development in areas which also present employment opportunities (such as Llangennech). This would ensure that housing and employment uses co-exist meaning that jobs can be easily reached by sustainable forms of transport such as walking and cycling.

Response / Recommendation

Support welcomed.

Paragraph 11.138

Representation(s)

Nature

1758 City & County of Swansea (Mr Tom Evans) [3761]

Comment

Summary:

Section 5: Consideration of other strategies -The reference in the detailed section of the report to the cross boundary role and function of some settlements is welcomed. However, we suggest that the evidence base could usefully be strengthened by consideration of how the spatial strategies and settlement hierarchies of neighbouring plan areas will affect the role and function of settlements.

Para 6.57 of the Topic paper relating to the role of Hendy/Forest (Cluster 2) makes a welcome reference to the Swansea LDP Strategic Site allocation at SD A: Land at Pontarddulais and the need to consider the cross border implications on housing numbers as part of the revised LDP. The Topic Paper could be usefully strengthened by way of reference to the cross boundary role of settlements, particularly within the wider region. For example, consideration of commuting and shopping trip patterns.

Response / Recommendation

Comments noted / welcomed. The Council looks forward to continuing its constructive dialogue with the respondent as the Plan making process proceeds towards the Deposit LDP and the input provided by the respondent to date is duly welcomed in this regard. Reference is made to the Role and Function Topic Paper which will evolve as the plan making process proceeds towards deposit.

Paragraph 11.140

Representation(s)

Nature

2025 Swallow Investments Limited [3995]

Support

Summary:

The respondent supports paragraphs 11.140 and 11.141 of the LDP, in that they confirm that the Principal Centres will be the main focus of growth over the LDP period, accommodating between 50-55% of the County's new housing growth

Response / Recommendation

Support Welcomed

Paragraph 11.141

Representation(s)

Nature

1634 Welsh Government (Mr Mark Newey) [13]

Comment

Summary:

The WG does not have significant concerns with the ethos and objectives of what the Preferred Strategy is seeking to achieve, nor the approach to Clusters within the settlement hierarchy. However, the Welsh Government is concerned that the proposed distribution of housing growth, particularly within settlement Tiers 3 and 4, raises sustainability issues based on the role and function of places. Acknowledging the rural characteristics of Carmarthenshire, the scale and distribution of growth at Tier 3 & 4 settlements does not align with the principles of sustainable development, PPW or the Council's own evidence (Sustainability Appraisal and the Role and Function of Settlements Paper) and has the potential to have an adverse impact on the Welsh language.

Response / Recommendation

Noted. The scale and distribution of growth will be subject to further evidencing as part of the preparation of the Deposit LDP - including the proportions allocated to the respective tiers within the hierarchy.

Representation(s)

Nature

1083 Cai Parry [822]

Object

Summary:

The indicative apportionment directs too much growth to the less sustainable settlements. PPW states that development should reduce reliance upon the private car.

Change To Plan Sought:

The indicative apportionment should be amended such that it directs a greater proportion of development to the top tiers of the Settlement Framework. A suggested apportionment is set out below:

- * Principal Centre - 60%;
- * Service Centre - 20%;
- * Sustainable Villages - 15%;
- * Rural Villages - 5%;
- * Non-Defined Rural Settlements - <1%.

Response / Recommendation

Comments Noted. The Council considers that the indicative apportionment of residential growth by tier is based on a sound and reasonable assessment, by identifying a number of factors which influence it. However, the indicative apportionment affords an allowance in to be made; the level of flexibility allowance will continue to be informed by the emerging evidence base leading up to the publication of the Deposit LDP.

Representation(s)

Nature

547 RSAI [3167]

Object

Agent: Lichfields (Mr Arwel Evans) [3166]

Summary:

A robust evidence base is required before the apportionment of growth in each tier is confirmed.

Change To Plan Sought:

The apportionment of dwellings in the hierarchy should not be prejudged before carrying out a thorough assessment of the sustainability, suitability and deliverability of the candidate sites

Response / Recommendation

Comments Noted. The Council as part of the LDP process are reviewing all existing housing allocations sites to identify those that are not contributing to the LDP strategy, and a wide ranging assessment is being undertaken to make sure that the most appropriate sites are allocated in the revised Plan. This will be reflected within the apportionment of sites within each cluster and tier.

Strategic Policy - SP17**Representation(s)****Nature**

1751 City & County of Swansea (Mr Tom Evans) [3761] **Comment**

Summary:

We welcome the opportunity to work in partnership during the Deposit preparation and particularly in relation to the need to consider the impact of Carmarthenshire's growth and spatial strategy upon the cross-boundary and wider regional highways network, which we recommend should be undertaken in consultation with Swansea traffic engineers utilising the Swansea Strategic Transport Model1. (See EB024a Strategic Transport Assessment 2015 (PDF, 7MB) and associated appendices)

Response / Recommendation

Comments noted. The Council looks forward to continuing its constructive dialogue with the respondent as the Plan making process proceeds towards the Deposit LDP and the input provided by the respondent to date is duly welcomed in this regard. . The Council fully recognises that this is a key trans-boundary issue and as such it will be given due consideration.

Representation(s)**Nature**

1596 mr william Phillips [3566] **Comment**

Summary:

It is difficult to disagree with the Strategic Policy (SP17). It is the implementation of the Policy that is lamentable. In the Bryn & Bynea areas of Llanelli the transport infrastructure is very deficient, with over 200 homes, from the previous LDP, yet to be completed. Traffic congestion is bad and getting worse, on the M4, through Llangennech to Bryn, with traffic to and from Loughor bridge - Llanelli providing additional congestion to Station Road, Bynea and to Bryn and Llangennech. Forward Planning should not be duped by the fanciful reports from the Agents of prospective Developers.

Response / Recommendation

Support welcomed for SP17. In relation to the comments with regards to highway capacity, the deposit LDP will need to be supported by robust evidence - including on the area's infrastructural capacity.

Representation(s)**Nature**

27 Carmarthenshire County Council (Mr Stuart Walters) [2345] **Support**

Summary:

SP17 - Transport & Accessibility - We support the principles contained with this policy, and welcome the recognition that the county is different in terms of transport requirements in particular that the rural areas are likely to be dependent on the car and this needs to be recognised during the plan period. We also support the promotion of the county as a centre for cycling for Wales and its importance as a future economic driver.

Response / Recommendation

Support welcomed.

Representation(s)**Nature****1084** Cai Parry [822]**Support****Summary:**

Planning Policy Wales (Edition 10, p. 18) seeks to ensure that the planning system contributes to the long-term economic well-being of Wales, by making use of existing infrastructure and facilities. Moreover, paragraph 3.38 states that "an important consideration will be minimising the need to travel, reducing the reliance on the private car and increasing walking, cycling and use of public transport". Accordingly, we consider that Strategic Policy SP 17 complies with Planning Policy Wales and therefore the wording is strongly supported by BDW Homes.

Response / Recommendation**Support Welcomed.****Strategic Policy - SP18****Representation(s)****Nature****1650** Welsh Government (Mr Mark Newey) [13]**Comment****Summary:**

The Deposit Plan should reference the landbank requirements set out in the Regional Technical Statement (RTS) and state how the LDP will satisfy these. We do not agree with the statement in paragraph 11.155 that "the County's landbank figures, for both hard rock and sand and gravel, are notably in excess of the minimum requirements set out in MTAN 1, and consequently there is no requirement to allocated new sites for mineral development". The RTS (endorsed 2014) states there is an under provision of 2.94mt of sand and gravel reserves within the region of Carmarthenshire, Ceredigion and Pembrokeshire (including the National Park). These authorities should work collaboratively to address the shortfall and identify specific sites.

Response / Recommendation

Noted. The Deposit LDP will set out the landbank requirements as set out in the Regional Technical Statement (RTS). The comments by the respondent in respect of para 11.155 are duly noted and will be amended as part of the Deposit LDP to reflect the requirements of the RTS. It should be noted that the Council has undertaken a 'Call for Sand and Gravel Sites' in response to this matter.

Representation(s)**Nature****1656** Simon Chaffe [855]**Comment****Summary:**

Strategic Policy SP18: Mineral Resources

a) We propose that a reference be added to duration of the requirement for minimum landbanks for crushed rock and sand and gravel to be retained throughout the whole of the plan period, that is, 10 and 7 years respectively. To be explicit, at the end of the Plan Period there needs to be a minimum landbank of crushed rock of 10 years and for sand and gravel of 7 years.

Response / Recommendation

Noted. The Deposit LDP will set out the landbank requirements as set out in PPW and MTAN 1. The comments by the respondent in respect of Strategic policy SP 18 criterion a) are duly noted. Any necessary amendments to policy wording will be carried out as part of the Deposit LDP to reflect the requirements of national planning policy.

Representation(s)**Nature****1659** Simon Chaffe [855]**Comment****Summary:**

d) Buffer Zones should not be applied prescriptively by arbitrary distances but judged on a 'case by case' basis.

Response / Recommendation

Noted. The comments by the respondent in respect of Strategic Policy SP 18 criterion d) are duly noted. The Deposit LDP will set out appropriate buffer zones around extant mineral sites in accordance with the requirements set out within Planning Policy Wales (PPW) Ed.10 and the MTANs.

Representation(s)**Nature****1658** Simon Chaffe [855]**Comment****Summary:**

c) Please clarify how, and at what stage in the plan making process, Safeguarding Areas would be defined. These Areas need to apply not only to the mineral resource but also the wider areas that may be affected.

Response / Recommendation

In response to the respondent's query regarding safeguarding areas, such areas will be defined as part of the preparation of the Deposit LDP, and will utilise the British Geological Survey's (BGS) Aggregates Safeguarding Map for South West Wales (which identify more specific areas than those contained within the BGS Mineral Resource Maps). The safeguarding areas will be defined on the LDP Proposals Map and the Written Statement will contain the written policy.

Representation(s)**Nature****2314** The Coal Authority (Melanie Lindsley) [4000]**Comment****Summary:**

As you will be aware the Carmarthenshire area has significant coal mining legacy. The Coal Authority provides the LPA with downloadable data in respect of Development Risk and Surface Coal Resource plans. We would expect any sites being considered for allocation within the plan to be assessed against this information. This is to ensure that any issue or potential constraints, identified in respect of the quantum of development which can be accommodated on a site is identified at as early a stage as possible.

Response / Recommendation

Comment noted.

<i>Representation(s)</i>	<i>Nature</i>
1781 Mineral Products Association Wales (Mr Nick Horsley) [3778]	Object

Summary:

In order to provide consistency with PPW and MTAN1 and for greater clarity we suggest modifying the wording of a) by changing "hard rock" to "crushed rock". Further it would be prudent to clarify the landbank requirements by adding the following wording to point a) A minimum ten-year landbank of crushed rock and minimum seven-year landbank for sand and gravel should therefore be maintained during the entire plan period.

Change To Plan Sought:

The amended text would read:- "Ensuring supply by maintaining an adequate landbank of permitted aggregate reserves (hard crushed rock and sand and gravel) throughout the Plan period. A minimum ten-year landbank of crushed rock and minimum seven-year landbank for sand and gravel should therefore be maintained during the entire plan period".

Response / Recommendation

Noted. The Deposit LDP will set out the landbank requirements as set out in PPW, MTAN 1. The comments by the respondent in respect of Strategic policy SP 18 criterion a) are duly noted. Any necessary amendments to policy wording will be carried out as part of the Deposit LDP to reflect the requirements of national planning policy.

<i>Representation(s)</i>	<i>Nature</i>
1780 Mineral Products Association Wales (Mr Nick Horsley) [3778]	Object

Summary:

Reference is made to mineral resources; however, the policy appears only to address aggregates. The SWRAWP annual monitoring report refers to non-aggregate mineral resources in Carmarthenshire. These should be reflected in the policy.

Change To Plan Sought:

Amend accordingly.

Response / Recommendation

Noted. The comments by the respondent in respect of Strategic Policy SP 18 are duly noted. Any necessary amendments to wording will be considered as part of the preparation of the Deposit LDP, to ensure that it accords with PPW and the MTANs.

<i>Representation(s)</i>	<i>Nature</i>
1782 Mineral Products Association Wales (Mr Nick Horsley) [3778]	Object

Summary:

It should be made clear that sterilisation of a mineral resource may be as a result of the proximity of development not just by development directly upon a resource. The policy is not clear as to how the safeguarding areas will be identified within the LDP, it is assumed by the use of mineral safeguarding maps. We would be happy to discuss the resources to be safeguarded with the Council.

Change To Plan Sought:

Amend the text to read "Safeguarding areas underlain by minerals of economic importance where they could be worked in future to ensure that such resources are not unnecessarily sterilized by other forms of development either directly or within close proximity to the safeguarded resource. Minerals safeguarding maps will be included within the LDP".

Response / Recommendation

Noted. The comments by the respondent in respect of mineral safeguarding (within Strategic Policy SP 18) are duly noted. Detailed policy matters concerning mineral safeguarding (including the respondent's suggested wording) will be addressed during preparation of the Deposit LDP, to ensure that it accords with the requirements set out within PPW and the MTANs.

<i>Representation(s)</i>	<i>Nature</i>
1784 Mineral Products Association Wales (Mr Nick Horsley) [3778]	Object
<i>Summary:</i>	
It would be helpful to clarify how the buffer zones will be applied. Buffer zones provide areas of protection around permitted and proposed mineral workings where new development which would be sensitive to adverse impact, including residential areas, hospitals and schools, should be resisted.	
<i>Change To Plan Sought:</i>	
Amend the text to read "The use of Buffer Zones to reduce the conflict between mineral development and sensitive development. These Buffer Zones will provide areas of protection around permitted and proposed mineral workings where new development which would be sensitive to adverse impact, including residential areas, hospitals and schools, should be resisted."	

Response / Recommendation

Noted. The comments by the respondent in respect of mineral buffer zones (within Strategic Policy SP 18) are duly noted. Detailed policy matters concerning the use of buffer zones (including the respondent's suggested wording) will be addressed during preparation of the Deposit LDP, to ensure that it accords with the requirements set out within PPW and the MTANs.

The Coal Authority supports the inclusion of this policy.

Response / Recommendation**Support welcome.****Paragraph 11.153****Representation(s)****Nature****1660** Simon Chaffe [855]**Comment****Summary:**

Amendment to the paragraph to read

..the County protects mineral resources and provides mineral reserves...'

There should be opportunities for extensions to existing operational quarries with limited permitted mineral reserves where landbanks are in excess of the minimum periods. There can be a reluctance on the part of MPA to grant PP that would have the effect of extending them significantly. However, granting such PP may safeguard mineral resources from sterilisation, secure their prudent use and facilitate the management and protection of existing amenity and the environment. We believe that these circumstances should be explicitly recognised in the Preferred Strategy.

Response / Recommendation

Noted. The comments by the respondent in respect of Paragraph 11.153 are duly noted. The wording of policies and supporting text will be addressed during production of the Deposit LDP, to ensure that they are in accordance with national planning policy.

Representation(s)**Nature****1786** Mineral Products Association Wales (Mr Nick Horsley) [3778]**Object****Summary:**

We would suggest use of the word "reserves" rather than "resources" as reserves are resources with planning permission which can readily be worked.

Change To Plan Sought:

Amend the text to read "The LDP should ensure that the County provides mineral resources reserves to meet society's needs...."

Response / Recommendation

Noted. The comments by the respondent in respect of Strategic Policy SP 18 are duly noted. Any necessary amendments to wording will be considered as part of the preparation of the Deposit LDP, to ensure that it accords with PPW and the MTANs.

Paragraph 11.155

Representation(s)

Nature

1787 Mineral Products Association Wales (Mr Nick Horsley) [3778]

Object

Summary:

As mentioned above, reference to "hard rock" should be amended to "crushed rock" for consistency. As also referred to above the RTS is a document of influence to the plan. The RTS is currently under formal review by Welsh Government with the 2nd review anticipated for completion by Q1, 2020. This review will run in parallel to the revised Preferred Strategy for the LDP and is therefore a material consideration. It is also notable that Carmarthenshire has the third highest housing projection in adopted LDPs. Whilst housing numbers may well be amended under the revised LDP, there is a recognition that historic sales of aggregates may not be the appropriate methodology to predict future aggregate requirements, in light of growth aspirations. Low production tonnages coupled with healthy reserves create long landbanks. The SWRAWP AMR states that "care must be exercised in relying on the landbank figures for Carmarthenshire as these are based on very small annual sales from relatively small sites." Sales alone may not represent a true reflection of aggregate usage within an area. Further, the current consultation is coupled with a call for candidate Sand and Gravel Sites. The final sentence should therefore be amended.

Change To Plan Sought:

The text should be amended to read "The South Wales RTS 2014 sets out the contribution that each constituent local authority should make towards meeting the regional demand for aggregates (both hard crushed rock and sand and gravel). The LDP's second Annual Monitoring Report (AMR 2016/17) establishes that the County's landbank figures, for both hard crushed rock and sand and gravel, is notably in excess of the minimum requirements set out in MTAN1: Aggregates, and consequently there is no requirement the need to allocate new sites for minerals development will be considered in line with the requirements of the developing RTS and the current call for sites."

Response / Recommendation

Noted. The comments by the respondent in respect of Strategic Policy SP 18 are duly noted. Any necessary amendments to wording will be considered as part of the preparation of the Deposit LDP. Such amendments will ensure that it accords with PPW, the MTANs and acknowledges the authority contributions towards meeting the regional demand for aggregates set out within the RTS.

Representation(s)

Nature

1661 Simon Chaffe [855]

Object

Summary:

RTS 2014 Appx B pp27 (Carmarthenshire) states,
'To address the resulting sand & gravel shortfall, new allocations totalling at least 2.94 million tonnes will need to be identified within the LDPs of one or more of the four authorities over which the apportionment is shared.'

This RTS is currently being reviewed by Welsh Government with completion expected early next year.

The reference in the final sentence to there being no requirement to allocate new sites for mineral development is at odds with the above and the Sand & Gravel Call for Sites. This whole paragraph should therefore be redrafted.

Response / Recommendation

Noted. The comments by the respondent in respect of paragraph 11.155 are duly noted. The Deposit LDP will set out the landbank requirements in accordance with the Regional Technical Statement (RTS), and any necessary amendments to wording will be made as part of the Deposit LDP.

Appendix 3: SA/SEA Initial Report – Representations Received

Organisation/Comment	Response/Action
Natural Resources Wales – Sharon Luke	
General Comments	
We consider that Carmarthenshire’s landscape objective SA 9 links to a greater number of the strategic objectives that defined in Figure 3: Testing of Revised LDP Strategic Objectives against the Sustainability Objectives framework.	Noted. The landscape objective has been reassessed against the strategic objectives and has been linked to all relevant objectives.
Figure 4: Testing of Strategic Growth Options against the sustainability Objectives framework (Page 21). We consider there could be a direct link between growth options and SA9 Landscape. We anticipate that there could be effects e.g. an increased need for greenfield land and pressure on landscapes in a similar way to effects on SA2. There may be potential to mitigate these effects.	Agreed. The figure and supporting text has been amended to reflect impacts of Growth Options on SA2 – Biodiversity.
Section 4.2.1. We note the final bullet point acknowledges the potential to impact negatively on landscapes and cultural heritage.	The paragraph states that all growth has the potential to impact on landscape depending on the selection of sites and implementation of development (e.g. in terms of place making and design, materials used etc.). At the strategic level of detail provided by the preferred strategy is it difficult to say whether there will be negative impacts or not. However, at the deposit stage, there will be more detail on the allocated sites and their landscape context on which to make an assessment.
Figure 7 Testing of Revised LDP Strategic Policies against the Sustainability Objectives framework. We consider some additional strategic policies could have a negative effect on landscape e.g. SP3 and SP6, in a similar way as for biodiversity.	Agreed and amended to more closely reflect the potential impacts on SA2 – Biodiversity.
Figure 8 (page 102) Summary of Sustainability Appraisal of Preferred Strategy. We are not comfortable with the position that the preferred strategy has no negative effect on landscape.	Figure 8 is a summary of all previous sustainability appraisals carried out in the document. It does not conclude that there are no negative effects on Landscape, and highlights some potential issues for conflict including SP8, SP12, SP18 and SP19, as well as areas of uncertainty or areas where further information or detail may be required. This figure has now been amended to reflect changes made in other sections of the document as a result of
SA/SEA Initial Report - Responses	

	NRW's comments.
Table 8 (page 106) Draft Sustainability Monitoring Framework refers only to Special Landscape Areas in relation to landscape, whereas Appendix 2 Data sources (page 117) refers to the number of developments refused in design grounds and the number approved on previously developed land. We ask for clarification as to the monitoring method used for landscape.	Noted, the additional monitoring data sources have been added to Table 8 to provide a more robust method of monitoring landscape.
Pembrokeshire Coast National Park - Martina Dunne	
Comments on Appraisal of the LDP Strategic Options and Alternatives:	
Spatial Options, appraisal against SA Objective 5. Mitigation for this is effectively now a legislative requirement. SuDS are required for new development under the Flood and Water Management Act (2010). As well as providing mitigation for flash flooding SuDS collect, filter and slowly release water back into the environment.	Agreed, with SuDS now in place, this mitigation is now a legislative requirement and this will be considered as such in the deposit plan.
Comments on Appraisal of LDP Strategic Policies:	
SP6 Employment and the Economy, assessments against SA4. Caveat with "but an increase in industry related traffic as per the commentary on air quality under SA3?"	Agreed. Will add in reference to industry related traffic.
General Comments	
On the whole a very balanced assessment, PCNPA support all of the changes to policy suggested by the SA.	Noted.
Missing update/re-issued review of plans and programmes and baseline information. The PPP currently available on the website is missing the adopted Local Development Plans for Pembrokeshire Coast National Park and Pembrokeshire County Council.	Noted. Will amend deposit plan to include missing LDPs for Pembrokeshire Coast NP and Pembrokeshire CC.
Suzy Erskine	
General Comments	

2.2.4 The 15 SA Objectives that make up the framework include: ☐ SA2 Biodiversity SA3 Air Quality SA4 Climactic Factors SA5 Water SA7 Soil ☐ SA9 Landscape ☐ SA12 Health and Well-being SA13 Education and Skills SA14 Economy SA15 Social Fabric Regarding the above: Biodiversity is not just about green tourism. If we are to be truly sustainable we could start growing a wider diversity of crops in Wales. Currently only a tiny percentage of farm-land is used for market gardens or fruit trees. We could be growing our own food here and increasing the biodiversity as a result as well as improving the resilience of our local economy and improving people's health. Please let's plant more trees for wildlife, holding water in the soil and enjoying cleaner air. Sheep have been allowed to keep the hillsides bare for so long most people believe that's how they should look. Not so! With trees on the hillsides, our villages won't be flooding, because the trees take up the water and hold on to the soil.

Noted. These are all valid comments which will be considered in the SA of the deposit plan.

General Comments	
Reference is made to 2010 Regulations throughout the report this requires updating to The Conservation of Habitats and Species Regulations 2017.	Noted and amended throughout document.
Table 1 Habitats Regulation Assessment: Key Stages	
<ul style="list-style-type: none"> Under Purpose for Appropriate Assessment we would include the precautionary principal and that the plan will not adversely affect the integrity of the sites. 	<p>Agreed. Wording amended to read:</p> <p><u>To ensure that the plan will not adversely affect the integrity of sites.</u> Consideration of impacts on integrity of the site, either individually or in combination with other plans and projects, having regard to the site’s structure, function and conservation objectives, <u>whilst applying the precautionary principle.</u> Where adverse impacts are identified <u>or remain unknown,</u> assess mitigation options to identify impacts on the integrity of the site. This stage should involve consultation. If mitigation options do not result in avoidance of adverse effects permission can only be granted if the remaining 2 stages are followed.</p>
1.3.1. We acknowledge that the HRA for the site-specific allocations will be carried out as part of the drawing up of the Deposit LDP.	Comments noted.
1.4.1. We advise the reference to Regulation 85B (3) is incorrect. Regulation 77 covers consultation with the relevant nature conservation body.	Amended.
2.2.1. This should refer to regulation 63 (1).	Amended.
2.3. This should refer to The Conservation of Habitats and Species Regulations 2017.	Amended throughout document.
3.1.1. Potential offsite impacts are listed here but not mentioned earlier in the report.	Wording added to Table 1. Under Screening – Purpose, to describe how the screening stage must consider the potential for offsite impacts. Table now reads:

HRA Screening Report - Responses

	Process for identifying impacts of a plan or project on a European site, either individually or in combination, and consideration of whether likely effects will be significant. <u>This will include consideration of the potential for direct, indirect and cross-boundary effects.</u>
3.1.3 The West Wales Marine Candidate Special Area of Conservation (cSAC) should be included.	Amended. Figure 1 has also been amended to include the West Wales Marine cSAC. Appendix 1 has also been updated to include information and the conservation objectives of the West Wales Marine cSAC.
3.2.3. We would amend this to read 'features of the N2K sites'. We would also advise the inclusion of 'The Plan must not undermine the conservation objectives of the sites'.	Amended. Paragraph now reads: 3.2.3 The scanning stage identifies <u>features of the N2K sites</u> that may be affected by the plan as far beyond as necessary for sites and identifying causal connections and links between the plan proposals and the qualifying features of the sites. <u>The Plan must not undermine the conservation objectives of the sites.</u>
3.2.8 Disturbance should be included.	This paragraph simply gives examples of the types of impacts that could be caused by development and is therefore not exhaustive. Table 2. Covers disturbance in more detail.
Table 2 Scanning and site selection lists for sites that could potentially be affected by the plan	
<ul style="list-style-type: none"> The Afon Tywi is not included under SAC's under Section 2. 	Amended to include Afon Tywi.
<ul style="list-style-type: none"> Carmarthen Bay Dunes is entitled incorrectly under Section 3. 	Amended.
<ul style="list-style-type: none"> West Wales Marine Candidate Site needs to be added to Section 4. 	Amended to include West Wales Marine cSAC.
<ul style="list-style-type: none"> We would suggest the Afon Tywi and Carmel should be included in Section 6. 	Disagree. Neither the Management Plan nor Standard Data form for Afon Tywi or Cernydd Carmel reference recreation to be considered as a pressure or threat on the features of the SAC and therefore it is not included for consideration under this section.
<ul style="list-style-type: none"> We seek clarification as to how all sites have been screened out of Section 7 that could be affected by provision of new or extended 	Agreed. This will be amended and considered further in the deposit HRA

transport or other infrastructure. These could be barriers to migratory fish, bats and otters.	report.
<ul style="list-style-type: none"> We would add Elenydd-Mallaen to Section 7 sites that could be affected by increased deposition of air pollutants. This is as the diet and nesting habits of Merlin could be impacted by air pollution. 	Disagree. The management plan of Elenydd-Mallaen does not reference any sensitivity of Merlin or their prey to air quality issues in the conservation objectives or management requirements and therefore they are not included for consideration under this section.
<ul style="list-style-type: none"> Section 14 included Cwm Doethie which is not the sites full name, we would remove it from here as it does not include any mobile species. Elenydd Special Protection Area (SPA) should be added. 	Noted and amended. Cwm Doethie has been removed and Elenydd-Mallaen SPA has been added.
<ul style="list-style-type: none"> We would expect the same sites (again taking Cwm Doethie out) to be noted under Section 15 as in 14. 	Noted and amended accordingly as above.
<ul style="list-style-type: none"> Section 16 – We do not agree with the conclusion that no sites require further consideration. If there is potential to disturb species as noted in Section 14 of the table then potential exists to cause mortality. We would expect the same sites to be included in both sections. 	<p>Whilst we agree that if there is potential to disturb species noted in Section 14 then there is a risk of mortality, for the purposes of this HRA, it is considered that the effects of this category will be captured effectively via Section 14 of the table. Therefore, in order to avoid duplication, sites are screened out of this section.</p> <p>The following worded has been added to Section 16 as clarification:</p> <p><u>Potential for mortality as a result of disturbance, however to avoid duplication this is addressed under Section 14.</u></p>
<ul style="list-style-type: none"> Mobile features need to be considered outside the designated site boundaries. 	Mobile features outside of designated site boundaries are considered in Section 5 – Plans that could affect mobile species.
3.2.9. Effects associated with development should include effects of contaminated land run off.	<p>The effects of contaminated land run off will be considered under Section 2 – Plans that could affect the aquatic environment.</p> <p>The following wording has been added to Section 2 to provide clarification:</p> <p>Sites upstream or downstream of the plan area in the case of river or estuary sites. <u>Effects considered include localised effects on surface/groundwater resources and quality, resulting from changes in run-off, sedimentation, erosion etc.</u></p>

Table 4, 5 and 6	
West Wales Marine Candidate SAC needs to be included.	Agreed. West Wales Candidate SAC has now been included.
Table 6 Preliminary screening of European Sites identified as vulnerable to effects on the coast.	
<ul style="list-style-type: none"> Consideration should be given to whether the title to this table should be mobile species as it includes Caeau Mynydd Mawr SAC. 	Agreed and amended.
<ul style="list-style-type: none"> All fish species have been screened out due to water quality although this is not clear; disturbance and barriers have not been included. 	Noted, however any impacts as a result of disturbance is considered separately under Section 14.
<ul style="list-style-type: none"> We question if Elenydd-Mallaen should be included for bird assemblage? 	Agreed, amended to include Elenydd - Mallaen
<ul style="list-style-type: none"> Clarification is required as to why Lesser Horseshoe Bats have been screened out when we have records and known roosts in Carmarthenshire. 	Agreed, Lesser Horseshoe Bat will be screened in on a precautionary basis.
3.2.19 This paragraph may be better placed before the screening table (6) to understand why fish species have been screened out.	Agreed, screening table now placed at the end of this section.
3.2.20 Requires updating with the new conservation objectives for the SAC.	<p>We acknowledge receipt of the updated objectives as part of NRW's representation to the HRA Screening report and have updated the conservation objectives in Appendix 1 and have been amended in the text</p> <p>Paragraph now reads: The conservation objectives for Caeau Mynydd Mawr SAC were updated by NRW in 2016, to reflect more current information and understanding of the site and its features. These updated conservation objectives state that to be viable in the long term, the Marsh Fritillary metapopulation requires <i>'at least 100ha of available habitat, with adequate connectivity linked to the core SAC units'</i>. The core SAC units have a requirement to provide a minimum of 17.5ha of Available habitat towards this target, and to provide at least 6ha of good habitat within Caeau Mynydd Mawr SAC.</p>

3.2.25 We agree detailed screening will be required as the species are known to be on the county border with Pembrokeshire in areas such as Cenarth.	Noted. This will be addressed in more detail at the detailed screening stage.
3.2.29 The distance from Carmarthenshire's border is given as 16km in this point whereas it states 6.9km in section 3.1.4. The addition of Lesser Horseshoe bats is required as there are records for Carmarthenshire, a roost (possibly maternity) was also found in the Llansteffan area during the last few years.	This has now been corrected in section 3.1.4 as the site is actually 23km outside of Carmarthenshire. Lesser Horseshoe Bats have now been screened in on a precautionary basis.
3.2.32 There is text missing from the end of this paragraph.	The 'Therefore,' to which this refers has now been deleted.
3.2.31- 3.2.36 European otters. Consideration should be given to breeding sites within this section.	<p>Reference is made to breeding sites in this paragraph:</p> <p>3.2.31 European otters are designated features of a number of European sites considered for screening within this document, including River Tywi, River Teifi, Cleddau Rivers, Carmarthenshire Bay and Estuaries, Pembrokeshire Bat Sites and Bosherton Lakes, Pembrokeshire Marine, River Wye and River Usk SACs. Management plans for all of the aforementioned sites highlight that otters 'may be affected by developments that affect resting and breeding sites outside of SAC boundaries'.</p> <p>The text has been amended to provide further clarity:</p> <p><u>3.2.36 In light of this, detailed screening will need to be undertaken to identify any site allocations which may impact on the use of suitable areas of land used for both breeding and resting outside the SAC boundary by otters.</u></p>
3.2.37 We do not agree that neither species utilise any of the waterways. Carmarthen Bay and Estuaries and the West Wales Marine Candidate SAC lie within the plan area.	This section has been renamed: <i>Bottlenose Dolphin, Grey Seal and Harbour Porpoise</i> so as to include the primary features of the Bristol Channel Approaches cSAC and the resulting paragraphs have been redrafted in light of NRW's comment.
3.2.38 Consideration for the Elenydd -Mallaen SPA is required under SPA	Consideration is now given to Elenydd-Mallaen Bird Assemblages under

Bird Assemblages and its mobile features notably Red kite, Merlin and Peregrine. The SPA is noted in Table 7.	this section.
Table 7 Preliminary screening of European Sites identified as vulnerable to recreational effects.	
<ul style="list-style-type: none"> The River Tywi SAC is missing from this table. We suggest there are potential pressures from increased boating/kayaking etc. 	Agreed. River Tywi is screened in based on the potential for increased disturbance to Otters
<ul style="list-style-type: none"> We consider that Cernydd Camel SAC should also be included as potential for increased pressure from increased visitor numbers in the reserves. 	Agreed. Although recreation is not listed as a threat on the Natura 2000 standard data form or the site's management plan, due to the proximity of Cernydd Carmel SAC to existing settlement limits and to the Crosshands growth area, it is screened in on a precautionary basis.
3.2.56 Refers to the Environment Agency, this should read NRW.	Amended.
3.2.59 Acronym for NRW is used in this section although NRW used before hand in the document.	Amended.
Table 9 Preliminary screening of European Sites identified as vulnerable to effects on water quality.	
<ul style="list-style-type: none"> Carmarthen Bay Dunes SAC to be added due to slack habitat and petalwort features. 	Amended to include Carmarthen Bay Dunes SAC. Table 2 has also been amended to reflect this.
3.2.68 Consideration needs to be given to mobile species such as bats and otters for sites outside Carmarthenshire's boundary.	Agreed. Pembrokeshire Bat Sites and Bosherton Lakes SAC screened in.
Table 11 Preliminary screening of European Sites identified as vulnerable to effects of disturbance, noise and light pollution effects.	
Cwm Doethie- Mynydd Mallaen SAC has no mobile species features listed so may be able to be screened out.	Amended. Cwm Doethie – Mynydd Mallaen SAC now screened out of this section.
Elenydd Mallaen SPA to be added and screened in.	Amended to include Elenydd Mallaen. Table 2 has also been amended to reflect this.
North Pembrokeshire Woodlands may require screening back in due to Barbastelle records on the County border and possible lighting and disturbance issues.	Agreed. Screened in on a precautionary basis.
Table 12 Summary of the preliminary screening based on overall growth projection of Preferred Strategy.	

<ul style="list-style-type: none"> • Aquatic environment – Hydrological links also need to be considered. 	<p>Agreed. Generic level screening text now amended to read:</p> <p>Effects only likely where development is in close proximity to a water course that flows into/out of a site. <u>Hydrological links must also be considered.</u></p>
<ul style="list-style-type: none"> • Mobile species – Requires addition of Lesser Horseshoe bats. 	Amended.
<ul style="list-style-type: none"> • Mobile species – Requires addition of terrestrial SPA (Elenydd-Mallaen) 	Amended
<ul style="list-style-type: none"> • Development: Air pollution – We do not agree with the generic screening level; intensive agriculture and other industrial sources have a potential to impact. 	<p>Agreed. Wording of generic screening level amended to address this. Text now reads:</p> <p>Development which leads to increased traffic on roads within 200m of identified sensitive sites. <u>Consideration will also be given to any potential impacts from intensive agriculture and other industrial sources.</u></p>
Table 14 Summary of preliminary screening of draft Strategic Policies.	
<ul style="list-style-type: none"> • SP8 Infrastructure – Clarification is required as to why this has been screened out, we consider it could have potential impacts to sites and features. 	Agreed. Policy will be screened back in and will be considered further in light of specific policies and site allocations in order to determine likely significant effects. Screened in under Category I.
<ul style="list-style-type: none"> • SP12 Rural development – Should we consider agricultural development under this? If so, it cannot be screened out. 	The Strategic Policy on Rural Development does not consider agricultural development. These matters are considered under existing national planning policy and legislation, and further detailed policies will be developed in the Deposit Plan.
<ul style="list-style-type: none"> • SP17 Transport and Accessibility - Clarification is required as to why this has been screened out, we consider it could have potential impacts to sites and features. 	Agreed. Policy will be screened back in and will be considered further in light of specific policies and site allocations in order to determine likely significant effects. Screened in under Category I.
<ul style="list-style-type: none"> • SP18 Mineral resources -This should not be screened out due to Cernydd Carmel SAC. 	Disagree. This policy is a safeguarding policy for mineral resources and does not facilitate the removal of mineral deposits. This policy essentially

	provides a second layer of safeguarding of the site from development and is therefore screened out as having likely significant impacts.
<ul style="list-style-type: none"> 3.4.2 Further Strategic Policies from Table 14, such as mineral resources, should added. 	This section will be updated accordingly.
<p>Appendix 1: Conservation objectives of sites identified as within 15km buffer zone of Carmarthenshire.</p> <ul style="list-style-type: none"> The updated conservation objectives for the sites can are in the appendices to this letter. 	Conservation objectives have been amended to reflect most up to date information provided by NRW in their representation.
<p>Appendix 2 Nitrogen Deposition Data for SAC's/SPA's within Carmarthenshire and 15km buffer</p> <ul style="list-style-type: none"> The Afon Tywi should be included. 	Noted. Appendix will be amended to include Afon Tywi.
<p>Appendix 3 Plans and Programmes with potential in-combination effects.</p> <ul style="list-style-type: none"> West Wales Tourism Strategy 2008 – West Wales Marine candidate SAC to be included. Welsh Government Strategy for Tourism 2013-2020 - West Wales Marine candidate SAC and the SPA's to be included due to disturbance. A walking and Cycling Action Plan for Wales (2009-2013) – Disturbance and erosion should be included as potential issues. The Swansea Bay City Region Economic Regeneration Strategy 2013-2030 - Disturbance and erosion should be included as potential issues. Carmarthenshire Designation Management Plan 2015 – 2020 – We would advise that there is potential for increased soil erosion from increased tourism and recreation activities. Flood Risk Management Plan for Western Wales River Basin District – The River Tywi and River Teifi are not included. Swansea Local Development Plan (2010-2025) – Burry Inlet RAMSAR site. 	Noted. This Appendix will be updated for the Deposit Plan HRA to include the documents suggested.
<p>Appendix 5 Preliminary screening of draft Strategic Policies.</p> <ul style="list-style-type: none"> SP18 - Mineral Resources – We consider Cernydd Carmel should be screened back in. 	Disagree. As explained in response to comments made on SP18.
Pembrokeshire Coast National Park - Martina Dunne	
General Comments	

<p>The Conservation of Habitats and Species Regulations 2017</p> <p>Para 2.3 page 7. The Conservation of Habitats and Species Regulations 2017 consolidate the Conservation of Habitats and Species Regulations 2010 with subsequent amendments.</p>	<p>Noted and amended throughout document.</p>
<p>People Over Wind</p> <p>In April 2018 the Court of Justice of the European Union handed down their judgment in the case of People Over Wind. The court ruled that it is not appropriate, at the screening stage, to take account of measures intended to avoid or reduce harmful effects on a European site. It is suggested that the HRA Screening Report should make explicit mention of the judgment and describe how the HRA is incorporating the ruling. The Habitats Regulations Assessment Handbook (DTA Publications Limited) listed on page 7 has been updated to reflect the judgment.</p>	<p>Noted. Reference to this judgement will be included in the deposit plan HRA.</p>
<p>Sites and species of European importance</p> <p>It is suggested that the Preferred Strategy should include specific policy wording in regard to sites and species of European importance, as implied in the “specific policy restriction” identified as being required for several of the screened in elements. This policy wording might be included within policy SP13, or as an additional policy on sites and species of European importance. Screened-in elements of the Preferred Strategy may then be amended to cross-refer to this policy wording, e.g. ‘subject to there being no unacceptable adverse effects on Carmarthenshire’s environment (see SP13), including sites and species of European importance (see SP13 (and / or new policy reference))’. This would complement the approach taken in Pembrokeshire Coast National Park Local Development Plan 2 and enhance the compatibility of the plans.</p>	<p>Noted. Consideration will be given to the wording of a specific policy for inclusion in the Deposit plan.</p>
<p>Pembrokeshire Coast National Park Local Development Plan</p> <p>Page 36 and Appendix 3 – there is no mention of the Pembrokeshire Coast National Park Local Development Plan (adopted or LDP2).</p>	<p>Noted, this section will be updated to include reference to the Pembrokeshire Coast National Park LDP.</p>

<p>Typos "Bosherton" should be replaced by "Bosherston" wherever necessary. "Affects" should be replaced by "effects" where appropriate.</p>	<p>Noted and amended.</p>

Appendix 5: SA/SEA Scoping Report – Representations Received

Organisation/Comment	Response/Action
Calon Cymru Network – Patricia Dodd Racher	
General Comments	
A great deal to approve of in this scoping study, especially the determination to accord with the Well-Being of Future Generations (Wales) Act 2015.	Noted
In addition, explicit reference to the Environment (Wales) Act 2016 would be helpful, so that the LDP can be assessed against the minimum emissions reductions specified in the Act.	Accepted. Explicit reference to be added.
Natural Resources Wales – Sharon Luke	
General Comments	
Having reviewed your Draft Scoping Report dated July 2018 we are satisfied with your scope for the SA report. As indicated in the scoping report, you have noted that the SA is an iterative and on-going process. We agree and would add that the SA/SEA should be a live document. This is particularly important when you consider that environmental baseline data is evolving, and other plans and programmes are emerging as a result of new legislation. The SA/SEA should therefore be kept under review throughout the LDP preparation.	Noted – SA/SEA will be reviewed and updated in line with developing baseline data and emerging policy, plans and programmes.
The scope and methodologies proposed for the SA seem reasonable. The scope has identified the likely environmental characteristics effected by the LDP and recognises the existing environmental problems within the LDP area.	Noted
The SA objectives noted in Chapter 6 (SA/SEA framework) and Table 3 of Chapter 5 should provide a robust assessment of environmental impacts from the LDP strategic options.	Noted
We advise that the SA indicators and targets (table 4) seem usable although would recommend the following points are considered. SA Objective 2 Biodiversity SA/SEA Scoping Report - Responses	Accepted. Objective reworded to included reference to connectivity and

<ul style="list-style-type: none"> Objective to promote resilience of ecosystems to encompass avoiding the damage or fragmentation of designated sites, habitats and protected species and to encourage connectivity. 	resilience: <i>2-1 To promote resilience of ecosystems by avoiding the damage or fragmentation of designated sites, habitats and protected species and to encourage connectivity.</i>
SA Objective 3 Air Quality <ul style="list-style-type: none"> Consider the use of improve alongside reduce in objectives 3-1 and 3-2. Include cumulative impacts. 	Accepted. Objectives reworded to read: <i>3-1 To maintain and improve the levels of the UK National Air Quality pollutants</i> <i>3-2 To improve levels of ground level ozone</i>
SA Objective 5 Water <ul style="list-style-type: none"> We advise that Objective 5-5 should also include reducing the impact of flood risk. The decision-making influences could include – Will the LDP reduce/increase the risk of bathing waters reaching Blue Flag status? 	Accepted. Objective reworded to read: <i>5-5 To make space for water, and minimise and reduce flood risk</i>
SA Objective 7 Soil <ul style="list-style-type: none"> The LDP should not increase contamination we would advise this is removed. 	Accepted. Objective reworded to read: <i>7-1 To promote the regeneration of contaminated land.</i>
SA Objective 9 Landscape <ul style="list-style-type: none"> Cumulative impacts should be included. Geological heritage should be included. Areas within Carmarthenshire are in view of the Gower Area of Outstanding Natural Beauty. 	Accepted. Wording of Objective issues and opportunities changed to include reference to cumulative effects, geological heritage and potential trans-boundary impacts with Gower Area of Outstanding Natural Beauty.
Appendix A: Review of relevant plans, policies and programmes	
We would advise that the following are also included.	Accepted. Will add to Appendix A.

<ul style="list-style-type: none"> • Urban Waste Water Treatment Directive 91/271/EEC. • The Groundwater Directive 2006/118/EC. • The Bathing Waters Directive 2006/7/EC. • The Water Resources (Control of Pollution) (Silage, Slurry and Agriculture Fuel Oil) (Wales) ['SSAFO'] Regulations 2010. • Memorandum of understanding for protection of Carmarthen Bay and Estuaries European Marine Site. • Under PPW Technical Advice Note (TAN) 15 we advise you include Chief Planning Officers (CPOs) letter 23/8/16 CL-03-16 Climate change allowances for planning purposes. • Under PPW Technical Advice Note 5 we advise you include CPOs letter 1 March 2018 European Protected Species Licensing – notice of revised procedure. 	
Appendix B: Baseline Information	
<p>The baseline information to be collected appears to be thorough. Please note that NRW have duties under the Environment Act (Wales) 2016 and the Well-being of Future Generations (Wales) Act 2015 which will result in the preparation of further evidence. This evidence should be used in the SA/SEA, if timeframes allow.</p>	<p>Noted. Further baseline information as a result of NRW's duties will be included as and when available.</p>
<p>Chapter 2</p> <p>The River Cleddau Special Area of Conservation should be included under European sites.</p>	<p>The River Cleddau was included in the table of European Sites under paragraph 2.4.</p>
<p>Chapter 3</p> <p>Air Quality consideration should be given to cumulative impacts/effects.</p>	<p>Accepted. Baseline information will be updated to consider cumulative impacts.</p>
<p>Chapter 5</p> <p>In section 5.5 consideration to the proliferation of intensive poultry and pig should be included alongside dairy.</p>	<p>Accepted. Baseline information will be updated to consider poultry and pig farming.</p>

Section 5.6 refers to a map identifying the bathing waters which is not included.	Accepted. Map to be included.
Flood risk – Welsh Government are currently reviewing TAN 15 which should be completed with your timescales. For Section 5.13 Welsh Government have also stated that climate change is to be considered which is not currently mapped	Noted. Baseline will be updated with any new publication of TAN 15.
Other matters to consider	
Drainage infrastructure	Accepted. Section on drainage infrastructure will be included as part of the baseline information.
Memorandum of Understanding requirements for protection of the Carmarthen Bay and Estuaries European Marine Site.	
Prevention of the proliferation of private foul drainage systems by ensuring appropriate infrastructure in areas identified for growth for the protection of water (and soil) quality.	
Opportunities sustainable drainage systems can bring to ecosystems.	
Renewable Energy	Accepted. Section on renewable energy will be included as part of the baseline information.
The Brechfa Forest Strategic Search Area (SSA) G and Pontardawe SSA E.	Noted. Will consider ways to incorporate this into the Deposit SA.
Incorporating a Sustainable management of natural resources (SMNR) approach. SMNR is defined in the Environment Act as “using natural resources in a way and at a rate that maintains and enhances the resilience of ecosystems and the benefits they provide. In doing so, meeting the needs of present generations of people without compromising the ability of future generations to meet their needs, and contributing to the achievement of the well-being goals in the Well-being of Future Generations Act.

EXECUTIVE SUMMARY

COUNCIL

15TH MAY 2019

TO CONFIRM APPOINTMENT OF MEMBERS TO COMMITTEES OF THE COUNCIL FOR THE 2019/20 MUNICIPAL YEAR

In accordance with the constitution, the Council is required to appoint members to serve on its committees and to allocate those seats so that they reflect the overall political composition of the Council.

Appendix 1 to the report details the nominations received from the Political Groups to serve on Committees of the Council for the 2019/20 Municipal Year.

DETAILED REPORT ATTACHED ?

YES – REPORT

IMPLICATIONS

I confirm that other than those implications which have been agreed with the appropriate Directors / Heads of Service and are referred to in detail below, there are no other implications associated with this report :

Signed: Linda Rees Jones, Head of Administration & Law

Policy, Crime & Disorder and Equalities	Legal	Finance	ICT	Risk Management Issues	Staffing Implications	Physical Assets
NONE	YES	NONE	NONE	NONE	NONE	NONE

Legal

Committees to be appointed in accordance with the requirements of the Council's Constitution, the Local Government Act 2000 and The Local Government (Wales) Measure 2011

CONSULTATIONS

I confirm that the appropriate consultations have taken in place and the outcomes are as detailed below

Signed: Linda Rees Jones, Head of Administration & Law

Mae'r dudalen hon yn wag yn fwriadol

ADRODDIAD I CYFARFOD BLYNYDDOL Y CYNGOR

15FED MAI 2019

CYFANSODDIAD Y CYNGOR

Diweddarau'r Cyfansoddiad i adlewyrchu newidiadau gan Weithgor Adolygu'r Cyfansoddiad a'r gofyniad i adolygu'r Cynllun Cyflogau a Lwfansau Cynghorwyr ac Aelodau Cyfetholedig

YR ARGYMHELLION/PENDERFYNIADAU ALLWEDDOL SYDD EU HANGEN:

1. **Mabwysiadu Cynllun Cyflogau a Lwfansau Cynghorwyr ac Aelodau Cyfetholedig 2019/20 fel y nodir yn yr adroddiad.**
2. **Cymeradwyo unrhyw newidiadau aelodaeth i'r Cyfansoddiad sy'n deillio o benderfyniadau a wnaed yn gynharach yn y cyfarfod.**
3. **Newid Rhan 3.1 Tabl 2 Swyddogaethau Dewis Lleol – Swyddogaeth 23 – Swyddogaethau Trwyddedu, yn unol â'r Polisi Trwyddedu diwygiedig a gymeradwywyd gan y Cyngor ar 12 Rhagfyr 2018**
4. **Bod y Swyddog Monitro yn cael ei awdurdodi i wneud unrhyw fân newidiadau, cywiro gwallau teipio neu wallau drafftio a sicrhau bod yr holl groesgyfeiriadau yn y Cyfansoddiad yn gywir ac y rhoddir gwybod am y rhain i Weithgor Adolygu'r Cyfansoddiad pan fydd angen.**
5. **Yn amodol ar yr argymhellion 1 – 4 uchod, bod y Cyfansoddiad yn cael ei fabwysiadu ar gyfer 2019/20/**

Y RHESYMAU:

O dan Erthygl 14 o'r Cyfansoddiad mae'n ddyletswydd ar y Swyddog Monitro i fonitro ac adolygu gweithrediad y Cyfansoddiad i sicrhau bod y nodau a'r egwyddorion sydd ynddo yn cael effaith lawn ac er mwyn llunio argymhellion ar gyfer newidiadau. Bydd newidiadau i'r Cyfansoddiad yn cael eu cymeradwyo gan y Cyngor llawn yn unig.

COUNTY COUNCIL ANNUAL MEETING 15th MAY 2019

COUNCIL CONSTITUTION

Council is required to review its Constitution on an annual basis, and has established the Constitutional Review Working Group to present recommendations for constitutional change.

There have been no legislative changes during 2018/19 which require changes to be made to the Council's Constitution however, the Council will need to amend Part 6.1 of the Constitution to reflect the IRPW prescribed amounts to be paid to Councillors for 2019/20 and to consider any recommendations made by the Constitutional Review Working Group.

Councillors' and Co-opted Members' Salaries and Allowances Scheme (Part 6.1)

Constitutionally, responsibility for adopting a Scheme of Members' Allowances rests with the Council but the Independent Remuneration Panel for Wales (IRPW) now prescribes the amounts to be paid with a view to providing a consistent national framework for councillor remuneration. Council considered the IRPW determinations for 2019/20 at its meeting on the 10th April 2019.

The IRPW has issued a mandatory pro-forma for all local authorities for 2019 therefore the format of the allowances scheme differs from previous years. The Authority has also removed the requirement for Democratic Services to annually check members' car insurance certificates and driving licences. Members will, as at present, be required to confirm both documents are valid and appropriate as part of their monthly claim forms.

Constitutional Review Working Group Recommendation – Licensing Functions.

The Constitutional Review Working Group at its meeting held on the 8th May 2019, considered a report on an amendment to Licensing functions in accordance with the revised Licensing Policy approved by Council on the 12th December 2018, and proposed amendments to Part 3.1 Table 2 Local Choice functions are included within this report.

Other than the issues raised, no other amendments are being put forward.

CARMARTHENSHIRE COUNTY COUNCIL

MEMBERS' SCHEDULE OF REMUNERATION

This Scheme is made under the Local Government (Wales) Measure 2011 with regard to Independent Remuneration Panel for Wales (IRPW) Regulations which apply to payments made to members and co-opted members of local authorities.

1. Basic Salary

- 1.1 A Basic Salary shall be paid to each elected Member of the Authority.
- 1.2 In accordance with the Regulations, the rate of the Basic Salary shall be reviewed annually as determined by the Independent Remuneration Panel for Wales.
- 1.3 Where the term of office of a Member begins or ends other than at the beginning or end of a year, their entitlement to the Basic Salary will be pro-rata.
- 1.4 No more than one Basic Salary is payable to a Member of the Authority.

2. Senior Salaries & Civic Salaries

- 2.1 Members occupying specific posts shall be paid a Senior Salary as set out in **Schedule 1**.
- 2.2 In accordance with the Regulations, the rates of Senior Salaries and Civic Salaries shall be reviewed annually as determined by the Annual or Supplementary Report of the Independent Remuneration Panel for Wales.
- 2.3 Only one Senior Salary or Civic Salary is payable to a Member of the Authority.
- 2.4 A Member of the Authority cannot be paid a Senior Salary and a Civic Salary.
- 2.5 All Senior and Civic Salaries are paid inclusive of Basic Salary.
- 2.6 A Senior Salary may not be paid to more than the number of members specified by the Independent Remuneration Panel for Wales in its Annual Report and cannot exceed fifty percent of the total membership of the authority, except to include a temporary Senior Salary office holder providing temporary cover for the family absence of the appointed office holder.
- 2.7 A Member of the Authority in receipt of a Senior Salary **cannot** receive a salary from any National Park Authority (NPA) or Fire and Rescue Authority (FRA) for which they have been nominated.
- 2.8 Where the term of Senior Salary or Civic Salary of a Member begins or ends other than at the beginning or end of a year, their entitlement to the Salary will be pro-rata.

3. Election to Forgo Entitlement to Allowance

- 3.1 A Member may, by notice in writing delivered to the Proper Officer of the authority, personally elect to forgo any part of their entitlement to any salary, allowance or fee payable under this Scheme from the date set out in the notice.

4. Suspension of a Member

- 4.1 Where a Member of the Authority is suspended or partially suspended from their responsibilities or duties as a Member of the Authority in accordance with Part III of the

Local Government Act 2000 (Conduct of Members), or regulations made under the Act, the part of the Basic Salary payable to them in respect of that period for which they are suspended will be withheld by the Authority (Section 155 (1) of the Measure).

- 4.2 Where a Member in receipt of a Senior Salary is suspended or partially suspended from being a Member of the Authority in accordance with Part III of the Local Government Act 2000 (Conduct of Members), or regulations made under the Act, the Authority must not make payments of the Member's Senior Salary for the duration of the suspension (Section 155 (1) of the Measure). If the partial suspension relates only to the specific responsibility element of the payment, the Member may retain the Basic Salary.

5. Repayment of salaries, allowances or fees

- 5.1 Where payment of any salary, allowance or fee has been made to a Member of the Authority or Co-opted Member in respect of any period during which the Member concerned:

- (a) is suspended or partially suspended from that Member's/Co-opted Member's duties or responsibilities in accordance with Part 3 of the 2000 Act or regulations made under that Act;
- (b) ceases to be a Member of the Authority or Co-opted Member; or
- (c) is in any other way not entitled to receive a salary, allowance or fee in respect of that period,

the Authority will require that such part of the allowance as relates to any such period be repaid.

6. Payments

- 6.1 Payments of all allowances will be made by the *Director of Corporate Services* by *direct bank credit* in instalments of one-twelfth of the Member's annual entitlement on the 15th of each month.
- 6.2 Where payment has resulted in a Member receiving more than their entitlement to salaries, allowances or fees the Authority will require that such part that is overpayment be repaid.
- 6.3 All payments are subject to the appropriate tax and National Insurance deductions. –

7. Reimbursement of Costs of Care

- 7.1 Reimbursement of costs of care shall be paid to a Member or Co-opted Member, who has caring responsibility for dependent children or adults, or a personal care requirement, provided the Member incurs expenses in the provision of such care whilst undertaking 'approved' council duties.
- 7.2 Reimbursement of costs of care applies in respect of children who are aged 15 or under and other persons for whom the Member or Co-opted Member can show that care is required. If a Member or Co-opted Member has more than one dependent the Member may claim more than one allowance, provided the Member can demonstrate a need to make separate arrangements for care.
- 7.3 Eligible Members may claim reimbursement of costs of care for actual and receipted costs up to a maximum amount not exceeding that determined by the Independent Remuneration Panel for Wales as set out in **Schedule 1**. All claims for reimbursement of costs of care should be made in writing to Democratic Services detailing times, dates and reasons for claim. Receipts are required for both informal and formal care arrangements.

8. Family Absence

- 8.1 Members are entitled under the provisions of the Family Absence for Members of Local Authorities (Wales) Regulations 2013 to a period of family absence, during which if they satisfy the prescribed conditions they are entitled to be absent from authority meetings.
- 8.2 When taking family absence Members are entitled to retain a basic salary irrespective of their attendance record immediately preceding the commencement of the family absence.
- 8.3 Should a senior salary holder be eligible for family absence they will be able to continue to receive their senior salary for the duration of the absence.
- 8.4 If the authority agrees that it is necessary to make a substitute appointment to cover the family absence of a senior salary holder the Member substituting will be eligible if the authority so decides to be paid a senior salary.
- 8.5 If the paid substitution results in the authority exceeding its maximum number of senior salaries, an addition to the maximum will be allowed for the duration of the substitution.

9. Co-optees' payments

- 9.1 A Co-optees' daily fee (with a provision for half day payments) shall be paid to Co-optees, provided they are statutory Co-optees with voting rights.
- 9.2 Co-optees' payments will be capped at a maximum of the equivalent of **10** full days a year for each committee to which an individual may be co-opted.
- 9.3 Payments will take into consideration travelling time to and from the place of the meeting, reasonable time for pre meeting preparation and length of meeting (up to the maximum of the daily rate).
- 9.4 The Monitoring Officer or his/her deputy is designated as the "appropriate officer" and will determine preparation time, travelling time and length of meeting, the fee will be paid on the basis of this determination.
- 9.5 The Monitoring Officer or his/her deputy can determine in advance whether a meeting is programmed for a full day and the fee will be paid on the basis of this determination even if the meeting finishes before four hours has elapsed.
- 9.6 A half day meeting is defined as up to 4 hours.
- 9.7 A full day meeting is defined as over 4 hours.
- 9.8 The daily and half day fee for the Chairpersons of the Standards Committee and Audit Committee, as determined by the Independent Remuneration Panel for Wales, is set out in **Schedule 1**.
- 9.9 The daily and half day fee for other statutory Co-optees with voting rights, as determined by the Independent Remuneration Panel for Wales, is set out in **Schedule 1**.

10. Travel and Subsistence Allowances

10.1 General Principles

- 10.2 Members and Co-opted Members are entitled to claim travelling expenses when travelling on the Authority's business for 'approved duties' as set out in **Schedule 2**. Where Members travel on the Authority's business they are expected to travel by the most cost effective means. In assessing cost effectiveness regard will be given to journey time. A Member who does not travel by the most cost effective means may have their claim abated by an appropriate amount.
- 10.3 Where possible Members should share transport.
- 10.4 The distance claimed for mileage should be the shortest reasonable journey by road from the point of departure to the point at which the duty is performed, and similarly from the duty point to the place of return.
- 10.5 The rates of Members' Travel and Subsistence Allowances are set out in **Schedule 3** and are subject to annual review by the Independent Remuneration Panel for Wales.
- 10.6 Where a Member is suspended or partially suspended from their responsibilities or duties as a Member of the Authority in accordance with Part III of the Local Government Act 2000 (Conduct of Members), or regulations made under the Act, any travel and subsistence allowances payable to them in respect of that period for which they are suspended or partially suspended must be withheld by the Authority.

11. Travel by Private Vehicle

- 11.1 The Independent Remuneration Panel for Wales has determined that the maximum travel rates payable should be the rates set out by Her Majesty's Revenue & Customs for the use of private cars, motor cycles and pedal cycles plus any passenger supplement.
- 11.2 The mileage rates for private vehicles as determined by the Independent Remuneration Panel for Wales are set out in **Schedule 3**.
- 11.3 Where a Member makes use of their private vehicle for approved duty purposes, the vehicle must be insured for business use. Proof of appropriate insurance must be provided to the Authority on request.

12. Travel by Public Transport

12.1 Rail/Coach Travel

Unless otherwise authorised rail tickets will be second-class. However members are permitted to travel by first class rail when work requirements justify such expenditure (i.e. working on the train prior to attending a meeting the same day) First class tickets will be provided when they are available and it can be shown that these tickets would produce a saving to the council over the standard second class fare)."

Democratic Services will purchase requisite rail and coach tickets for Members in advance of journeys. In the unlikely event that a Member needs to purchase a ticket directly, payment will be reimbursed upon production of the used ticket and/or a receipt.

12.2 Taxi Fares

Taxi fares will only be reimbursed where their use has been authorised for cases of urgency, where no public transport is reasonably available, or a Member has a particular personal need. Re-imburement will be upon receipt only.

12.3 Air Fare

Travel by air is permissible if it is the most cost effective means of transport. Authorisation of the Chief Executive or his representative is required and tickets will be purchased by Democratic Services.

12.4 Travel Abroad

Travel abroad on the Authority's business will only be permitted where authorised by Chief Executive or his representative. Democratic Services will arrange travel and accommodation.

12.5 Other Travel Expenses

Members are entitled to reimbursement of toll fees, parking fees, overnight garaging and other necessary travel associated expenses. Re-imburement will be upon receipt only.

13. Overnight Accommodation

13.1 Overnight stays will only be permitted where the Authority's business extends to two days or more, or the venue is at such a distance that early morning or late night travel would be unreasonable. All overnight stays must receive prior authorisation from the [Chief Executive or his representative)

13.2 Overnight accommodation will be booked by Democratic Services. Wherever possible the overnight accommodation will be pre-paid or invoiced.

13.3 Direct booking of overnight accommodation by a Member will only be permitted in the event of an emergency. Reimbursement will only be made upon the production of a receipt and will be at a level deemed reasonable and not in excess of the rates set out in **Schedule 3**.

14 Subsistence Allowance

14.1 The day subsistence rate to meet the costs of meals and refreshments in connection with approved duties (including breakfast when not provided as part of overnight accommodation) is set out in **Schedule 3**. The maximum daily rate covers a 24 hour period and can be claimed for any meal that is relevant, providing such a claim is supported by receipt(s)

14.2 No provision is made for subsistence claims within the County.

15. Claims and Payments

15.1 A claim for travel and subsistence allowances must be made in writing by the 1st of the , Month (or the previous working day if falling on a Saturday, Sunday or Bank Holiday) and must be accompanied by the relevant receipts.

15.2 Allowances will be paid by the Director of Corporate Services by direct bank credit.

16. Pensions

- 16.1 The Authority shall enable its Members who are eligible to join the Local Government Pension Scheme.

17 Supporting the work of Authority Members

- 17.1 The Independent Remuneration Panel for Wales expects Members to be provided with adequate support to carry out their duties and that the support provided should take account of the specific needs of individual Members. The Authority's Democratic Services Committee is required to review the level of support provided to Members and should take proposals for reasonable support to the full council.
- 17.2 All elected Members & Co-opted Members should be provided with adequate telephone, email and internet facilities to give electronic access to appropriate information.
- 17.3 Such support should be without cost to any Member. Deductions must not be made from Members' salaries as a contribution towards the cost of support which the Authority has decided is necessary for the effectiveness and or efficiency of Members.

18 Compliance

- 18.1 In accordance with the Regulations, the Authority must comply with the requirements of Independent Remuneration Panel for Wales in respect of the monitoring and publication of payments made to Members and Co-opted Members as set out in **Schedule 4**.

Members & Co-opted Members are reminded that expense claims are subject to both internal and external audit.

Co-optees Support

All co-opted members are offered a tablet device and corporate @carmarthenshire.gov.uk email address.

SCHEDULE 2

Approved duties: -

- attendance at a meeting of the Authority or of any committee of the Authority or of any body to which the Authority makes appointments or nominations or of any committee of such a body;
- attendance at a meeting of any association of authorities of which the Authority is a member;
- attendance at any other meeting the holding of which is authorised by the Authority or by a committee of the Authority or by a joint committee of the Authority and one or more other Authorities;
- a duty undertaken for the purpose of or in connection with the discharge of the functions of Executive
- a duty undertaken in pursuance of a standing order which requires a Member or Members to be present when tender documents are opened;
- a duty undertaken in connection with the discharge of any function of the Authority which empowers or requires the Authority to inspect or authorise the inspection of premises;
- attendance at any training or developmental event approved by the Authority or its Executive Board
- the following duties which have been approved by Council:
 - a) *Attendance at a meeting of the authority or of any committee of the authority or of any body to which the authority makes appointments or nominations or of any committee of such a body;*
 - b) *Attendance at a meeting of any association of authorities of which the authority is a member.*
 - c) *Attendance at any other meeting the holding of which is authorised by the authority or by a committee of the authority or by a joint committee of the authority and one or more other authorities*
 - d) *A duty undertaken for the purpose of or in connection with the discharge of the functions of an executive where the authority is operating executive arrangements within the meaning of Part II of the 2000 Act.*
 - e) *A duty undertaken in connection with the discharge of any function of the authority to inspect or authorise the inspection of premises*
 - f) *Attendance at any training or developmental event approved by the Executive Board*
(All applications for attendance at Conferences / Seminars / Training Courses will be considered by the Executive Board following presentation of a report prepared by the Chief Executive which will include:
 - a) *conference / seminar / training course details*
 - b) *the comments of the relevant Director as to the necessity to attend.*
 - c) *the total costs associated with attendance i.e. conference / seminar / training fees, transport, subsistence and accommodation.*

Should the majority of Executive Board Members be in favour of the application then the Leader has delegated authority to approve the application for attendance.)

- g) Any other duty approved by the authority, or any other duty of a class so approved, undertaken for the purpose of, or in connection with, the discharge of the functions of the authority or of any of its committees*
- h) Attendance by a Councillor at a meeting involving the Chief Officer or his/her representative at a local government office or site within the Authority's area, called at the prior request of the Chief Officer or his/her representative, in connection with the functions of the Council.*
- i) Site Meetings convened by the Chief Executive as a consequence of a decision by the Council, the Executive Board or a Committee of the Council.*
- j) Meetings of Joint Liaison Committees*
- k) Where a Councillor is formally authorised in accordance with the authority's decision making procedures for the purpose of and in connection with the discharge of the functions of the Council, to attend a conference, take part in a visit, join a deputation or attend a course not on the approved list as the official representative of the Council, then that decision in sending the Councillor shall automatically designate the duty undertaken as an "approved duty"*
- l) Attendance at meetings of the Shadow Executive Board* convened by the Chief Executive*
- m) Attendance by a Councillor at Meetings of outside bodies to which the Councillor has been formally appointed or nominated by the Council.*
- n) Attendance by the Chair of Council, Leader and Deputy Leader of the Opposition and the relevant Scrutiny Committee Chair at meetings of the Executive Board.*
- o) Attendance by a Councillor at meetings or events to which the Councillor has been formally appointed or nominated by the Council in a Champion or Ambassador role.*
- p) Inclusion on the list of approved duties does not necessarily preclude payment for attendance by other bodies (other than for the Leader, Deputy Leader or an Executive Board Member who is in receipt of a Senior Salary) , and nominated Councillors eligible under schemes operated by such bodies may claim in accordance with any such schemes. (claims for travelling and subsistence allowances should not be made to outside bodies and the Council for the same duties.)*

Executive Board Members Approved Duties

The following duties are also “approved duties” for the Leader and Executive Board Members:

Attendance at Meetings of the Council, the Executive Board, Committees and Advisory Panels

Attendance at Meetings of Executive Board Members convened for the purpose of taking executive decisions and formally convened by the Chief Executive

Activities in connection with the exercise of duties as an Executive Board Member

Attendance by members of the Executive Board at any local, regional or national event where the Leader has, prior to the event, informed the Chief Executive that he/she has nominated them to attend in his/her place as a representative of the Council

Official openings, public launch events of the Council’s new buildings/services/ facilities within the County

Attendance at public launch events/official openings of new Council buildings/services/ facilities will not be an approved duty unless a formal invitation is received from the Chief Executive to attend.

The attendance of the Leader and relevant Executive Board Members at such events would form part of their duties as a member of the council’s executive.

The attendance of the Chair and Vice Chair of Council at such events would form part of their civic duties.

SCHEDULE 3

The day subsistence rate is up to a maximum of £28 and covers a 24 hour period and can be claimed for any meal if relevant provided such a claim is supported by receipts.

Re-imbusement of alcoholic drinks is not permitted.

Overnight Stay

The maximum allowances for an overnight stay are £200 for London and £95 for elsewhere. A maximum of £30* is available for an overnight stay with friends or relatives whilst on approved duty.

The Council has determined that the an allowance of £25.00 per night will apply if staying with friends or relatives

SCHEDULE 4

Compliance

- The Authority will arrange for the publication on the council's website the total sum paid by it to each Member and Co-opted Member in respect of salary, allowances, fees and reimbursements not later than 30 September following the close of the year to which it relates. In the interests of transparency this will include remuneration from all public service appointments held by elected Members.*
- The Authority will publish on the council's website a statement of the basic responsibility of a councillor and role descriptors for senior salary office holders, which clearly identify the duties expected.
- The Authority will publish on the council's website the annual schedule of Member Remuneration not later than 31 July of the year to which the schedule refers.
- The authority will send a copy of the schedule to the Independent Remuneration Panel for Wales not later than 31 July of the year to which the schedule refers.
- The Authority will maintain records of Member/Co-opted Members attendance at meetings of council, cabinet and committees and other approved duties for which a Member/Co-opted Member submits a claim for reimbursement.
- The Authority will arrange for the publication on the council's website of annual reports prepared by Members.
- When the Authority agrees a paid substitution for family absence it will notify the Independent Remuneration Panel for Wales within 14 days of the date of the decision of the details including the particular post and the duration of the substitution.

Note – Appendix A to this documents includes the Job Profiles & Person Specifications for Councillors, Co-Opted Members and office holders of Carmarthenshire County Council

** The Council at its meeting held on the 10th April 2019 determined that it would publish Reimbursement of costs of Care in accordance with Option 1 – the details of the amounts reimbursed to named members.*

JOB PROFILES & PERSON SPECIFICATIONS COUNCILLORS, CO-OPTED MEMBERS AND OFFICE HOLDERS OF CARMARTHENSHIRE COUNTY COUNCIL

1. COUNTY COUNCILLOR

1.1 Accountability

To the full Council

To the electorate of their ward

1.2 Role Purpose and Activity

Representing and supporting communities

To effectively represent the interests of the electoral division and their individual constituents.

Where appropriate to refer a local crime and disorder matter (as defined by Section 19 of the Police and Justice Act 2006) to the Social Justice, Crime and Disorder Scrutiny Committee as an agenda item for discussion at a meeting of the Committee.

To be an advocate for the Council in the ward and the communities they serve. To contribute to the good governance of the area and actively encourage community participation and citizen involvement in decision making by the council and its partnerships
To be a channel of communication to the community on council strategies, policies, services and procedures

To represent individual constituents and local organisations at the Council and undertake casework on their behalf, serving all fairly.

To liaise with Executive Board Members, other council members, council officers and partner organisations to ensure that the needs of the local communities are identified, understood and supported.

To promote tolerance and cohesion in their local communities

To forward service performance or policy issues raised at meetings of Community Networks to the appropriate Executive Board Member.

To maintain the highest standards of conduct and ethics.

Making decisions and overseeing council performance

Participating in the governance and management of the council by contributing to the decision-making process at meetings of the council and its committees and securing informed and balanced decisions.

Collectively, to be the ultimate policy-makers and carry out a number of strategic and corporate management functions including overseeing performance

To adhere to the principles of democracy and collective responsibility in decision making

To promote and ensure efficiency and effectiveness in the provision of council and other public services.

Representing the Council

To represent and be an advocate for the Council on local outside bodies.

To represent and be an advocate for the Council on local partnership bodies, promoting common interest and co-operation for mutual gain

To represent and be an advocate for the Council on national bodies and at national events

Internal governance, ethical standards and relationships

Members must observe the Council's code of conduct whenever they:

- conduct the business of the authority
- undertake the role of member to which they were elected or appointed; or
- act as representatives of the authority

Thereby:

Promoting and supporting good governance of the Council and its affairs

Providing community leadership and promoting active citizenship

Promoting and supporting open and transparent government

Supporting and adhering to respectful, appropriate and effective relationships with employees of the Council

Adhering to the Member's Code of Conduct, the Protocol on Member/Officer relations and maintaining the highest standards of conduct and ethics in public office

Personal and role development

To participate in opportunities for development provided for members by the Council

Values

To be committed to the values of the Council and the following values in public office:

- Openness and transparency
- Honesty and integrity
- Tolerance and respect
- Equality and fairness
- Appreciation of cultural difference
- Sustainability

By applying human rights principles as a framework for resolving differences between social groups and reforming service delivery

By promoting policies that encourage contact on equal terms between disabled and non-disabled people: at work, in school and through training, and by setting a personal example by identifying opportunities to do the same

By ensuring that social care policy increases choice and control and is not diluted by being risk-averse

By ensuring participation of all members of the community in shaping decisions

By being open about personal experiences of impairment of long-term health conditions and providing positive role models to encourage others and help tackle low expectations

By supporting mentoring schemes to help disabled people attain leadership positions

By understanding and promoting the value of good quality early years education for disabled children and the need for continuing learning opportunities throughout life

1.3. Person specification for a Councillor

1 Accountabilities

- To Full Council
- To the Chair of the Audit Committee

2 Role purpose and activity

- **Understanding the role of the Audit Committee and undertaking its functions:**
 - Reviewing and scrutinising the Authority's financial affairs
 - Making reports and recommendations in relation to the authority's financial affairs
 - Reviewing and assessing the Risk Management, Internal Control and Corporate Governance arrangements of the Authority,
 - Making reports and recommendations to the Authority on the adequacy and effectiveness of those arrangements,
 - Overseeing the Authority's Internal and External Audit arrangements
 - Reviewing the Financial Statements prepared by the Authority.
- To have sufficient technical, legal and procedural knowledge to contribute fairly and correctly to the function of the Committee.
- To be thorough and objective in receiving and responding to professional advice in the conduct of meetings and issues before the Committee
- **Participating in meetings and making decisions**
 - To participate effectively in meetings of the Audit Committee; questioning and seeking clarification on matters falling within the Committee's remit
 - To make informed and balanced decisions, within the terms of reference of the committee, which accord with legal, constitutional and policy requirements
- **Internal governance, ethical standards and relationships**
 - Understanding the financial risks associated with Corporate Governance; being satisfied that the Authority's Assurance Statements including the Annual Governance Statement reflects the risk environment and any activities required to improve it

APPENDIX D

- To ensure the integrity of the Committee's decision making and of his/ her own role by adhering to the Code of Conduct(s) and other Constitutional and Legal Requirements
- To promote and support good governance by the Council
- To understand the respective roles of Members, Officers and External Parties operating within the Audit Committee's area of responsibility

3 Values

- To be committed to the values of the Council and the following values in public office:
 - Openness and transparency
 - Honesty and integrity
 - Tolerance and respect
 - Equality and fairness
 - Appreciation of cultural difference
 - Sustainability

4 Skills and Qualities Required of the External Voting Member of the Audit Committee

The External Voting Member of Audit Committee will:-

- be able to demonstrate some knowledge of financial control and management in a Local Authority or a large public organisation
- have an interest in local affairs and the development of the local community
- be an effective communicator
- have an ability to analyse facts and evidence
- be able to form sound judgements, based purely on the merits of the facts and evidence and in the public interest
- have a strong belief in upholding ethical standards in public life
- be someone who acts with discretion and personal integrity and has good standing in the local community
- have disclosed to the Council all matters relevant to their background, such that the Council would not have cause to reconsider the appointment if the matter were to become public

APPENDIX D

The Council will **not** consider applications from persons included in the list below:-

	Category of Individuals Prevented from Applying for the Role	Reason
1.	Employees of Carmarthenshire County Council	The role requires someone who is independent from the Council.
2.	Elected Members of Carmarthenshire County Council or persons who were elected members of the Council within the previous 12 months	The role requires someone who is independent from the Council.
3.	Persons who hold membership of a Political Party / Group	The role requires someone who is not aligned to any Political Party or Group.
4.	Persons having any substantial business relationships with the authority	The role requires an independent person and should not allow the promotion of an individual's business interests.
5.	Persons who have been adjudged bankrupt	To ensure that high standards of business dealings can be demonstrated and maintained.
6.	Persons who have been sentenced to a term of imprisonment for a period of 3 months or more within the past 5 years	To ensure that high standards of integrity can be maintained. <i>The External Voting Member is subject to a Criminal Records Bureau Check .</i>

22. Member Champion/Ambassador – Role Description

Accountabilities

- The Council
- The Executive Board
- All Member Champions/Ambassadors must act reasonably in their role and recognise and work effectively within the political management and working arrangements of the Council.
- A Member Champion/Ambassador cannot make decisions and must not commit the Council in any way or manner that could be interpreted as being contrary to established policy and practice.

Purpose

To act as advocate or spokesperson for a specific area of the Council's business and to encourage communication and positive action over the issue they represent.

Role:-

- To champion the adopted policy of the Council for the relevant theme through knowledge and understanding of the area of interest in terms of council strategies and policy, good practice, improvement and national agendas and the needs of the client group
- To promote the role of Member Champion/Ambassador, both internally and externally of the Council by contributing to the review and development of policies pertaining to their interest.
- To engage and understand the needs of members, officers, relevant organisations, citizens and the community by listening to their views.
- To challenge and question the Council on issues affecting their area and to advocate on behalf of the area of interest.
- To lead and support local initiatives related to the interest and act as a catalyst for change and improvements in service delivery.
- To advise Council on activities relevant to the area of interest.
- To represent the position of the Council to the community in relation to the interest.
- To network with Member Champions from other Local Authorities to keep up to date with current developments.

Schedule of Member Remuneration

1. *In accordance with the requirements of the Independent Remuneration Panel for Wales and The Local Government (Wales) Measure 2011 a schedule of member remuneration will be published by the Council by 31st July each year and will contain:*
 - a. *Named members who are to receive only the basic salary and the amount to be paid.*
 - b. *Named members who are to receive a Band 1 and Band 2 senior salary, the office and portfolio held and the amount to be paid.*
 - c. *Named members who are to receive a Band 3, Band 4 and Band 5 senior salary, the office and portfolio held and the amount to be paid.*
 - d. *Named members who are to receive a civic salary and the amount to be paid.*
 - e. *Named members who are to receive the co-opted member fee and whether chair or ordinary member and the amount to be paid.*
 - f. *Named members who are to receive a senior salary as a chair of a Joint Overview and Scrutiny Committee or Sub Committee and the amount to be paid.*
 - g. *Named members in receipt of a specific or additional senior salary approved by the Panel and the amount to be paid.*
2. *Amendments made to the Schedule during the municipal year must be communicated to the Panel as soon as it is practicable.*
3. *Principal councils must confirm in their annual Schedule that the maximum limit of senior salaries set for the council has not been exceeded.*
4. *Principal councils, NPAs and FRAs must include a statement of allowable expenses and the duties for which they may be claimed for care, travel and subsistence in their annual Schedule which is in accord with the Panel's determinations.*
5. *The Schedule must set out the arrangements for the payment of salaries, allowances and fees to all members and co-opted members of the relevant authority (IRPW Regulation 35); arrangements for making claims for care, travel and subsistence expenses (IRPW Regulations 24 and 36-37); arrangements for the avoidance of duplication (IRPW Regulation 38) and arrangements for re-payment of salaries, allowances and fees (IRPW Regulation 33). This schedule must also include the duties for which members and co-opted members are able to claim travel, subsistence and reimbursement of care costs.*
6. *Principal councils must declare in the Schedule whether:*

- A statement of the basic responsibility of a councillor is in place.*
 - Role descriptors of senior salary office holders are in place.*
 - Records are kept of councillor attendance.*
7. *Principal councils, NPAs and FRAs must make arrangements for the publication of the Schedule of Member Remuneration as soon as practicable after its determination and no later than 31 July of the year to which it applies. The Schedule should be published in a manner that provides ready access for members of the public.*
8. *The Schedule must also be sent to the Panel Secretariat to be received by 31 July.*

Publication of Remuneration – IRPW Requirements

In accordance with Section 151 of the Measure the Panel requires that:

- 1 Relevant authorities must publish a Statement of Payments made to its members (including chairs of JOSCs or sub-committees of JOSCs). This information must be published in a form and location that is easily accessible to members of the public no later than 30 September following the end of the year to which the payments relate and in the same timescale also provided to the Panel. The following information must be provided:
 - a The amount of basic salary, senior salary, civic salary and co-opted member fee paid to each named member/co-opted member of the relevant authority, including where the member had chosen to forego all or part of the salary, or fee for the municipal year in question. Where a senior salary has been paid, the title of the senior office held is to be provided.
 - b The payments made by community and town councils to named members as:
 - Payments in respect of telephone usage, information technology, consumables etc.
 - Responsibility payments
 - Allowances made to a mayor/chair and deputy mayor/deputy chair
 - Compensation for Financial Loss
 - Costs incurred in respect of travel and subsistence
 - Reimbursement of the costs of care (see paragraph f below)
 - c All travel and subsistence expenses, reimbursement of the costs of care (see paragraph f below) and other payments received by each named member and co-opted member of the relevant authority, with each category identified separately.
 - d The amount of any further payments received by any named member nominated to, or appointed by, another relevant authority or other public body as defined by Section 67 of the Local Government (Democracy) (Wales) Act 2013, namely:
 - a local health board
 - a police and crime panel
 - a relevant authority
 - a body designated as a public body in an order made by the Welsh Ministers.
 - e Names of members who did not receive basic or senior salary because they were suspended for all or part of the annual period to which the Schedule applies.
 - f In respect of the publication of the reimbursement of the costs of care, the Panel has decided to provide relevant authorities with two options.
 - 1) The details of the amounts reimbursed to named members; or
 - 2) The total amount reimbursed by the authority during the year but not attributed to any named member.

publication it considers appropriate.

It is also the responsibility of each authority to establish its own position on how to respond to any Freedom of Information requests it receives with regards to reimbursement of costs of care.

- 2 Nil returns are required to be published and provided to the Panel by 30 September.
