EXECUTIVE SUMMARY EXECUTIVE BOARD MEETING

27TH MARCH 2017

INCOME AND CHARGING POLICY

1. SUMMARY OF PURPOSE OF REPORT.

Background:

- It has been previously raised to undertake a review of the authority's approach to income and charging and that this should be carried out as part of the TIC Programme.
- An Income and Charging Steering Group was established to oversee the review with the 'aim of examining the potential for increasing income from fees and charges and reviewing the robustness of current income collection and debt recovery processes'.
- One of the initial findings from the group was that there was a need to adopt a more strategic approach to its income and charging activities and that this should be supported through the development of a Corporate Income and Charging Policy.
- One of the aims of the policy is to provide a set of key principles which will be used to underpin the authority's approach to income and charging and to further develop a more commercial approach to these activities.
- The policy will act as source of reference for services when looking to introduce new, or review their existing charges, and also set out expectations in respect of the robustness of its income collection and debt recovery processes.
- The policy/principles has been subject to extensive consultation including DMT's, Heads of Service forum and TIC Programme Board.
- The WAO Local Government Study: Charging for services and generating income by Local Authorities has been presented to [Audit Committee 6th January 2017](#) and the principles of this policy links into the WAO study.
