EXECUTIVE SUMMARY
SOCIAL CARE & HEALTH SCRUTINY COMMITTEE
23RD NOVEMBER, 2017

WEST WALES CARE PARTNERSHIP: AN OVERVIEW

1. BRIEF SUMMARY OF PURPOSE OF REPORT.

This report advises the Committee of requirements within Part 9 of the Social Services and Wellbeing (Wales) Act 2014 (SSWBWA) regarding partnership working in the provision of care and support and of arrangements in place in West Wales to meet those requirements.

The West Wales Care Partnership (WWCP) was established in early 2016. Its work is overseen by the statutory Regional Partnership Board (RPB). Five strategic priorities have been identified by the RPB, which are (1) integrated commissioning, (2) service integration and pooled funds, (3) transforming mental health and learning disability services, (4) Information, Advice and Assistance/ prevention and (5) implementation of the Welsh Community Care Information System (WCCIS). These priorities are underpinned by a strategic approach to carers, workforce development and citizen engagement. Regional programmes to address the identified priorities and these are funded through the Welsh Government's Integrated Care Fund (ICF) and transformation funding previously provided through the regional Delivering Transformation Grant (DTG) and now paid directly to the three local authorities via the RSG.

Further details on the establishment of the WWCP and its early activity are provided in its first Annual Report which was published in April 2017.

Section 14 of the SSWBWA requires local authorities and Local Health Boards to produce Population Assessments setting out the needs for care and support across a range of population groups in their area, the range and level of services required to meet those needs and the extent to which these are currently not being met. The Population Assessments must also consider how these services will be provided through the medium of Welsh. The first West Wales Population Assessment was published in March 2017, following consideration and agreement by each of the statutory partner agencies.

Section 14A of the Act requires the production of regional Area Plans to address issues identified within the Population Assessments. The first West Wales Area Plan is currently under development and will be brought to statutory partner agencies for sign-off in early 2018, prior to publication in April.

1. Policy, Crime & Disorder and Equalities

The subject has significant implications in supporting policy intentions to more effectively integrate services across organisational remits. This is in keeping with policy commitments arising from the Social Services and Well-being (Wales) Act (2014).

2. Legal

There are a range of legal issues, including: responding to the statutory requirements in an appropriate and timely manner; and establishing proper governance arrangements and legal agreements.

3. Finance

Service integration and transformation, required under the Social Services and Wellbeing (Wales) Act and delivered through the West Wales Care Partnership will require changes in funding priorities and integrated funding arrangements, for example through the establishment of pooled funds and collective management of streams such as the Integrated Care Fund.

5. Risk Management Issues

There is a risk of non-compliance with statutory requirements if the partnership arrangements set out in the report are not delivered in full.

CONSULTATIONS

I confirm that the appropriate consultations have taken in place and the outcomes are as detailed below
