1. Policy, Crime & Disorder and Equalities

The implementation of an effective complaints procedure supports the Feeling Fine theme of the Community Strategy as well as the building blocks of equalities and social inclusion in giving a voice to vulnerable service users. The findings of complaints investigations inform policy development and changes. The annual report includes recommendations for the further improvement of the complaints procedure.

2. Legal

The production of an annual social services complaints report is a statutory requirement.

3.Finance

The report has no immediate financial implications, although the full implementation of the recommendations in the report may have implications for further investment. The outcomes of complaints investigations contribute to the effective use of resources.

4. ICT

The complaints procedure is currently managed via the department's Carefirst database. However with the planned introduction of the new WCCIS database, further information and testing will be required to ascertain whether WCCIS can accommodate complaints data.

5. Risk Management Issues

The effective management of complaints contributes to the management of risk in highlighting areas where improvements are needed. Dealing effectively with complaints can also prevent further action by complainants e.g. referral to the Ombudsman or legal action.

6. Physical Assets

The findings of some complaints have implications for the use of buildings e.g. the application of a no smoking policy.

7. Staffing Implications

The effective management of complaints requires the ongoing support and training of staff.
