**EXECUTIVE SUMMARY
EXECUTIVE BOARD

Acquisitions and Disposals Policy

The Council's existing property disposal policy was approved by the Council in June 2005. Parts of the Council's strategic property function moved over to the Regeneration and Policy Service in April 2017, dealing with the majority of property acquisitions and disposals work. This has provided an opportunity for the existing policy to be reviewed.

The attached revised (June 2018) policy incorporates a number of changes, including:

- Alignment with the Well-being of Future Generations Act (Wales) 2015 and 5 ways of working.
- Inclusion of a property acquisition approach, particularly in relation to strategic acquisitions for future development in line with Council priorities and objectives.
- Inclusion of joint venture /development agreements as a possible disposal method for larger redevelopment projects, allowing the Authority to draw on the expertise and resources of a joint venture partner (public or private), enabling the more effective use of limited financial resources and/or property assets while accessing essential expertise without upfront costs.
- Detailed checklist procedures for sale and lease of council property to ensure a consistent and transparent approach.

The revised policy, particularly the appendix checklist procedures, responds to issues raised by a recent audit review of the systems and procedures associated with the management of Council properties. The Audit review findings apply to the property functions in both the Environment and Regeneration departments.

IMPLICATIONS

I confirm that other than those implications which have been agreed with the appropriate Directors / Heads of Service and are referred to in detail below, there are no other implications associated with this report :

Signed: **Wendy Walters** Director of Regeneration & Policy

Policy, Crime & Disorder and Equalities YES	Legal YES	Finance YES	ICT NONE	Risk Management Issues YES	Staffing Implications NONE	Physical Assets YES
---	---------------------	-----------------------	--------------------	--------------------------------------	--------------------------------------	-------------------------------

1. Policy, Crime, Disorder & Equalities

The revised policy is aligned with the Well-being of Future Generations Act (Wales) 2015 ways of working and the Council's Asset Management Plan.

Vacant properties can have a negative effect on the locality and the longer they remain vacant the higher the risk of vandalism and safety issues arising. This policy will support the sale of surplus properties in a timely manner to reduce this risk.

2. Legal

Legal advice and input on the revised policy document has been received. Moving forward, Acquisitions and Disposal(s) will require the provision of legal advice and the preparation of appropriate legal documentation.

3. Finance

Property disposals will generate capital receipts to support the Council's capital programme.

5. Risk Management Issues

The revised policy, particularly the appendix checklist procedures, responds to issues raised by a recent audit review of the systems and procedures associated with the management of Council properties.

7. Physical Assets

Any Freehold disposal(s) would ensure that future maintenance of the asset would be undertaken by a third party. Leasehold disposals would transfer at least part of the Council's maintenance obligations.

CONSULTATIONS

I confirm that the appropriate consultations have taken in place and the outcomes are as detailed below
