EXECUTIVE SUMMARY STANDARDS COMMITTEE

7th December 2018

CODE OF CONDUCT COMPLIANCE BY TOWN AND COMMUNITY COUNCILLORS

As part of its role in monitoring Code compliance by Town and Community Councillors, the Committee receives reports detailing the levels of code training received, declarations of interest made, dispensation requests granted and Code complaints registered in respect of Town and Community Councils within the County.

A request for this information was submitted in April 2018 to all Town and Community Councils in the County.

The attached spreadsheet sets out the information provided and allows for comparison with previous years.

In addition to the usual questions councils were asked to confirm whether any of their councillors had not received any code training since April 2015. This information (where provided) is captured in the 'comments' column of the spreadsheet

As can be seen, there continue to be significant variations between councils as to the extent to which declarations of interest are made and/or dispensations sought, although there appears to be no correlation between these factors and the level of code of conduct training provided.

Similarly there appears to be no clear evidence of any correlation between the provision of code training and the number of code complaints nor is there is a consistent pattern of complaints against particular councils.

As in previous years a disappointingly high proportion of Councils have failed to respond to the request for information and there are a number of councils who have now failed to respond for several years.

Overall however the statistical evidence appears to suggest a generally good level of Code compliance by Town and Community Councillors across the County.
