EXECUTIVE SUMMARY

EDUCATION & CHILDREN SCRUTINY COMMITTEE 20th DECEMBER 2018

‘TIC Programme for Schools Update’

The TIC Programme for Schools was established in 2017 and has been operating on a full-time basis since September 2018. The programme aims to apply the TIC principles of collaborative working and driving out unnecessary waste and comprises a number of different work streams all aiming to support the schools’ sector to make financial efficiencies and meet the severe challenges being faced in their budgets. The programme reports directly to the TIC Programme Board as one element of the wider TIC agenda across a wide range of service areas in the council.

A number of work streams have continued to be developed since the ECS Panel previously met with TIC officers. They continue to relate to the service delivery to schools by a range of council services (via SLAs) and to a range of procurement issues where collaborative or corporate arrangements may yield savings to schools who take them up.

The presentation to Panel will provide a summary of the progress to date with ongoing indications of the potential and actual savings that could be/have been made. We hope that Panel members will benefit from the presentation in support of their scrutiny activities and ongoing interaction with schools during forthcoming School Visits.
