SERVICES AND SUPPORT FOR CHILDREN AND YOUNG PEOPLE WITH MENTAL HEALTH ISSUES

This report provides an insight into many of the existing services across the Council and from partner organisations, this list is not exhaustive and there are many other third sector services that offer support and advice to young people experiencing distress.

What has been evident whilst gathering information for this report is the critical role of early intervention for children and young people who are experiencing emotional difficulties. Furthermore, organisations and services need to work together to ensure that there is a collaborative approach to prevention and early intervention.

Addressing these issues is directly linked to the goals in the Wellbeing of Future Generations Act 2015 and the Social Services and Wellbeing (Wales) Act 2014, namely early intervention and prevention, integration, collaboration, involving people and long term planning.

Early intervention can prevent more serious mental ill health in later life and addressing problems early can have a positive effect on the social and educational attainment of young people. It can also give us the opportunity to intervene and prevent further issues developing or continuing into adulthood.

We have set up a multi -agency forum to develop a strategy and delivery plan to address mental health and wellbeing issues in children and young people. Initially we are focussing on what is already in existence to support young people and to identify the gaps. This task will commence with a stakeholder workshop in the summer term which will inform the priorities in our delivery plan.

It is suggested that a further report is presented to Scrutiny at the end of the year to provide an update on this very important area of work.
