Local Toilets Strategy

EXECUTIVE SUMMARY OF REPORT.

The Public Health (Wales) Act 2017 received Royal Assent on the 3 July 2017. The Act brings together a range of practical actions for improving and protecting health. Part 8 of the Act introduces provision of toilets and specifically local toilets strategies.

The aim of Part 8 is to ensure each local authority in Wales assesses the needs of its community in relation to toilets, and then takes a strategic and transparent approach to best meet that need. The process will enable a broader consideration of options available for providing toilets for use by the public, ranging from traditional stand-alone public toilets through to toilets in private ownership.

CURRENT POSITION

A draft strategy has been prepared (Appendix 1) which incorporates feedback following a Needs Assessment survey which was undertaken during October / November 2018. A total of 507 responses were received. The analysis of those responses is detailed from page 11 in the draft Local Toilets Strategy document.

The draft strategy therefore sets out proposals that may be considered to enhance and maximise the use of existing facilities and to promote additional, appropriate and accessible toilet provision for public use.

CONSULTATION

The draft Local Toilets Strategy consultation exercise was undertaken between the 25th March and the 12th May 2019 via the consultation facility on the Council's website. The key findings of the consultation are outlined in the attached detailed report.

An Equalities Impact Assessment has also been undertaken with no negative impacts identified. Attached (Appendix 2).

RECOMMENDATION

To recommend that the Local Toilets Strategy be endorsed by the Executive Board. It is also recommended that an Officer Group be formed from relevant divisions within the Authority in order to progress with the proposals outlined within the Local Toilets Strategy.
