EXECUTIVE SUMMARY

9TH SEPTEMBER, 2019

Social Care & Health Scrutiny Committee Task & Finish Group Final Report 2018/19:

A review of the impact of loneliness in Carmarthenshire

Recommendations (See Section 3 of the full report)

Recommendation One - Take a strategic approach to loneliness

Identify a senior officer at a Head of Service level, within the Authority to lead and drive an integrated approach to prevention where community connection and addressing loneliness is a priority. This role would work across all disability and age groups and be integrated in the communities' directorate and will also work closely with children and education.

Recommendation Two - Address loneliness as an important shared priority

When the leadership is in place to drive this agenda, an integrated work stream should be developed to implement a practical and joined up plan to improve community connection, thereby delivering the directive from Welsh government.

Recommendation Three - Focus on building and supporting community assets

Work with all stakeholders including PSBs to ensure that we maximise all resources. This will include further attention to the community asset transfer approach with the aim of encouraging community activity.

Recommendation Four - Directly address barriers to connection

A co-designed action plan should be developed to address barriers to connection.
