### **DETAILS:**

#### **Appraisal**

Please note there is an omission on the Appraisal in respect of parking spaces. Under “Traffic Calming Needed” the report should state that there are a minimum of 4 spaces for customers, one for a commercial vehicle for the applicant to do home deliveries and two spaces for domestic vehicles. As stated, the collection from the premises is proposed to be by appointment only with specified time slots, so the applicant can manage traffic generation to ensure that there are no parking issues.

As a point of clarification, the applicant refers to the expansion of the car park if necessary. This does not form part of this submission and would be subject to a separate planning application.
