<p>Burry Port harbour car park (Long stay) The objectors state that the proposals will affect tourism in the area, as people will not be able to afford to park, and that the coastal path should remain free. They also state that residents pay enough council tax and that the charges will discourage people from taking exercise, which is against government advice. They also comment that there will be a displacement of vehicles if parking charges are introduced as well as affecting senior citizens with disabilities. A discounted annual pass should be available if the charges are introduced.</p> <p>Woodlands, Burry Port (Long stay) Objectors say that this is the last car park you can use for free in the area and that the charges will have an impact on the community. Installation costs for car parks will outweigh income brought in from the new machines. The proposals will reduce the wellbeing of the local community and is a step backwards in terms of the Council's Wellbeing of Future Generations agenda.</p>	<p>Traffic Order description: Schedule 2 – Off street car parking order Location – Burry Port harbour West + East (Long stay) car park Charging hours: 24 hours each day Charging days: All days Maximum period of waiting: 8 hours during charging period Mitigation: Implement the proposals as described in Appendix 1 (West car park to change from 4 to 8 hours max waiting period; East car park – extend parking order zone to create additional parking). There are already orders in place (2014) to charge for both existing West and East car park. An annual pass is available at £37.50 per annum (less than 11p per day) as part of the proposal. Limited free parking is available along the nearby highway network, and will also remain at Shoreline car park (3.4.1).
