**EXECUTIVE SUMMARY**

**Carmarthenshire's School Categorisation  
Outcomes 2016**

This report outlines-

- The National Categorisation of Carmarthenshire's Schools in 2016.
- Comparison with the 2015 categorisation

As part of the agreed National Model for Regional Working, Welsh Government, local government, regional education consortia and the Welsh Local Government Association (WLGA) have worked together to ensure a national and consistent approach to the categorisation of schools.

***The National School Categorisation system's main purpose is to identify which schools are in most need of support.***

The system ensures that Welsh Government, local authorities and consortia, direct support and resources to improve the school system and as a result, raise standards and performance.

The system is about providing support and encouraging collaborative improvement by putting schools into a position that enables them to identify the factors that contribute to their progress and achievement, or what areas to focus on to achieve further development. It is not about labelling or creating league tables.

The system is a three step model that is not purely data-driven but also takes into account the quality of leadership and teaching and learning in schools.

**Step one** is a data-driven judgement using an agreed set of performance measures provided by the Welsh Government.

**Step two** begins with the school's own self-evaluation of their capacity to improve in relation to leadership, teaching and learning.

**Step three** is the combination of the two judgements that will lead to a colour-coded support category for the school which will trigger a tailored programme of support, challenge and intervention. This is agreed between the local authority and regional consortium.

The coloured support category for each primary, middle and secondary school are available on the [My Local School](#) website.
