Measure Description	Best Quartile	Welsh Median	Our Actual	Quarter 1	Quarter 2	Quarter 3	End of Year
The percentage of people referred to the National Exercise Referral scheme that attend the initial consultation of the programme 3.4.2.6	Not applicable		Q2: 0.0 End Of Year: 0.0	Target: 50.0 Result: 20.0	Target: 50.0 Result: 52.1 Calculation: (87÷167) × 100	Target: 50.0	Target: 50.0
Comment	Concerns over COVID measures within facilities/sessions have resulted in a lower number of initial consultations that expected. We have contacted all referrals on numerous occasions and many have specifically stated they don't want to engage in the service at this time due to the threat of the 3rd wave of the pandemic.						
Remedial Action	Continue to engage with Health Profesionals and referrals to reassure them that leisure facilities/sess have the necessary COVID measures in place to ensure its a safe environment.				ies/sessior

ACTIONS - Theme: WB07.Help people live healthy lives (Tackling risky behaviour and obesity) Sub-theme: C - Mental Health						
Action	14698	Target date	31/03/2022			
Action promised	We will continue to work with partners to transform mental health and learning disability services. We will promote independence , early intervention and prevention and ensure that support and services are acessable					
The Health Board have decided to pause meetings on the single point of referral due to a recent announcement from Welsh Government about additional funding to extend 111 for mental health. Potentially this could mean our single point of contact intentions are unnecessary and could be stood down as an action at that point. A transportation scheme delivered by St John's to alleviate pressure on mainstream ambulance services and improve conveyance arrangements for people in mental distress is now fully operational and we are making use of the facility.

Comment	Senior Occupational Therapist is making good progress for the service reaching up to 50% pro-active outcome resolving low level Occupational Therapy referrals at Information and Advice. This is having a significant impact on reducing referrals for assessment to the team and consequently reducing overall demand for statutory services. Physiotherapy have commenced a pilot basing themselves in the Multi-disciplinary team 3 days a week for a 4 to 6 month period to understand possible impact of resolving queries at Information and Advice, rather than sending referrals for assessment through to the teams.

The dementia action group has now restarted and is chaired by Rhian Dawson. Now that the group has restarted, we are looking at the rest of the projects developing with dementia monies and progressing these, for example dementia navigators. Some local authority day services have restarted 'virtually' and the opportunity to join was offered to those in existing services. In addition, there is now 1 to 1 work going on with people who formerly attended day services in their own homes. The dementia strategy for the Health Board and local authority has been drafted in a piece of work commissioned with Attain. A virtual 'Dementia community coalition' Group has been established which encourages Dementia communities to work together and support other communities to develop. The first meeting was extremely successful and there are plans to expand the number of dementia communities in Carmarthenshire.

Action	15090	Target date	31/03/2022				
Action promised	We will reshape our approach to supporting patients home from hospital in a safe and timely way by making sure that a) the processes are in place to support this and b) we have the mechanisms in place to monitor delays and issues that prevent this from happening.						
Comment	We have made significant progress with this action. We are in the process of creating a Carmarthenshire system flow team who are responsible for ensuring safe discharge to hospital and admission avoidance. We will shortly be appointing to the Senior Manager responsible for this team and have already appointed a Senior Nurse and Social Work Team Manager. We are tracking all patients in hospital who are ready to leave, and work as a multi-disciplinary team to plan for discharge. Any issues preventing discharge are escalated to a twice weekly hospital panel where they are worked through. We will shortly be putting in place a daily panel to support admission avoidance and expedite discharge. Whilst the mechanisms are progressing well to support this action, we are compromised currently by the lack of available care.
