ADDENDUM – Area West

Application Number	PL/01932
Proposal & Location	CONSTRUCTION OF A DETACHED DWELLING AND NEW WORKSHOP AT LAND ADJACENT TO RHYDYGWIN, CYNWYL ELFED, CARMARTHEN SA33 6SU

CONSULTATIONS

The following consultation responses have been received since the report was prepared:-

Head of Transportation and Highways - No objections subject to imposition of appropriate conditions.

Cynwyl Elfed Community Council - The Council wishes to confirm its firm support for the application, outlining that the applicants are both fluent Welsh speakers and have greatly contributed to the local community via various organisations. The Council wishes to support a young couple to move back into the parish and to be able to co-locate with their extended family. The proposal would result in the well-established business being able to remain in the locality, with the applicants living on site thus reducing the need to travel and increasing security to the business. The proposal represents an opportunity for job security and growth in a very rural area which has recently seen a downturn in job openings.

Members are also advised that Cllr I Jones' request for the matter to be considered by committee as summarised in the report, has been reviewed by the Council's Legal Department. It has been advised, in the interests of clarity, that Cllr I Jones' request is provided to the Committee verbatim as follows:-

"These are the two reasons that these plans should go to committee.

This local young man has been in business for a number of years very successful, when I met him first , it was only him and one other working there ,now there are four of them and working flat out it would be out of the question for him to move anywhere else because he has installed a turbine near the farm to lower the cost of production also he can call for help from home if he needs to and vice versa when they need help at home he is at hand to help ,I think the committee will see the practicality in allowing this application."

CLARIFICATIONS

Officers wish to clarify that the application was submitted by Mr & Mrs B Rees rather than just B Rees as set out in the report.

A total of 7 letters in support were submitted with the application rather than 6 as referred to in the officer's report.

Application Number	PL/00775
Proposal & Location	CREATION OF FOUR FAMILY TRAVELLER PITCHES WITH ONE RESIDENTIAL STATIC UNIT, TOURING CARAVAN, UTILITY/DAY ROOM AND PARKING FOR EACH PITCH, IMPROVEMENTS TO THE EXISTING ACCESS, INTERNAL ACCESS ROAD AND LANDSCAPING ENHANCEMENT - PHASE II LAND AT MAES Y DDERWEN, LLANGENNECH, LLANELLI

Consultation Responses

Head of Transportation & Highways – The formal response has now been received confirming no objection subject to conditions.

Details

Following further visit to the site and review of the imagery it is considered that an additional condition is required to provide adequate screening from the site to the primary school to the south. A condition is proposed to address this, particularly during autumn/winter months when existing vegetation is less dense. Condition 19 is proposed to address this.

Conditions and Reasons

The following conditions are requested from the Highway Authority:-

Condition 10

Prior to its use by vehicular traffic, the new shared use private drive shall be laid out and constructed with a carriageway width of a least 4.1 metres.

Reason: In the interest of highway safety.

Condition 11

Any access gates shall be set back a minimum distance of 5.0 metres from the highway boundary and shall open inwards into the site only.

Reason: In the interest of highway safety.

Condition 12

There shall at no time be any growth or obstruction to visibility over 0.6 metres above the adjacent carriageway crown, over the site's whole Maes-Y-Dderwen U2317 road frontage within 2.4 metres of the near edge of carriageway.

Reason: In the interest of highway safety.

Condition 13

Prior to any use of the access by vehicular traffic, a visibility splay of 2.4 metres x 25 metres shall be formed and thereafter retained in perpetuity, either side of the centre line of the access in relation to the nearer edge of carriageway. In particular there shall at no time be any obstruction above 0.6 metres within this splay area.

Reason: In the interest of highway safety.

Condition 14

The access, visibility splays and turning areas required, shall be wholly provided prior to any part of the development being brought into use, and thereafter shall be retained unobstructed in perpetuity. In particular, no part of the access, visibility splays, or turning area, is to be obstructed by non-motorised vehicles.

Reason: In the interest of highway safety.

Condition 15

The parking spaces and layout shown on the plans herewith approved shall be provided prior to any use of the development herewith approved. Thereafter, they shall be retained, unobstructed, for the purpose of parking only. In particular, no part of the parking or turning facilities is to be obstructed by non-motorised vehicles.

Reason: In the interest of highway safety.

Condition 16

All surface water from the development herewith approved shall be trapped and disposed of so as to ensure that it does not flow on to any part of the public highway or be disposed of, or connected into, existing highway surface water drains.

Reason: In the interest of highway safety.

Condition 17

The shared use private drive access shall be hard surfaced in a bonded material for a minimum distance of 5.0 metres behind the nearside edge of carriageway, prior to any part of the development approved herewith being brought into use and thereafter maintained in perpetuity.

Reason: In the interest of highway safety.

Condition 18

Prior to the commencement of any part of the development herewith approved, a 2.0-metre-wide footway shall be provided from the proposed site access to link with the existing footway to the south, with the Maes-Y-Dderwen U2317 Road. This work shall be completed to the written approval of the Local Planning Authority and to the specification of the Local Highway Authority.

Reason: In the interest of highway safety.

Condition 19 is proposed to ensure adequate screening on the southern boundary.

Condition 19

Prior to the commencement of development hereby approved details of boundary treatment for the southern boundary, in addition to retention of the existing trees/landscape, shall be submitted to and approved in writing by the local planning authority. Development shall be carried out in accordance with the approved details.

Reason: In the interest of privacy and visual amenity.

Summary of Consultation Responses

Head of Transportation & Highways – No objection, but requests the imposition of conditions.

Conditions and Reasons

In response to the consultation response received from the Head of Transportation & Highways, the following conditions will also now need to be included in recommendation:-

Condition 6

The vehicular accesses into the site shall at all times be left open, unimpeded by gates or any other barrier.

Reason: In the interests of highway safety.

Condition 7

There shall at no time be any growth or obstruction to visibility over 0.9 metres above the adjacent carriageway crown, over the site's whole C2134 Road frontage within 2.0 metres of the near edge of the carriageway.

Reason: In the interests of highway safety.

Condition 8

The access and visibility splays shall be wholly provided prior to any part of the development being brought into use, and thereafter shall be retained unobstructed in perpetuity. In particular, no part of the access or visibility splays, is to be obstructed by non-motorised vehicles.

Reason: In the interests of highway safety.

Condition 9

Prior to the commencement of development, the written approval of the Local Planning Authority shall be obtained for a scheme of parking and turning facilities within the

curtilage of the site, and this shall be dedicated to serve the proposal. The approved scheme is to be fully implemented prior to any part of the development being brought into use, and thereafter shall be retained, unobstructed, in perpetuity. In particular, no part of the parking or turning facilities is to be obstructed by non-motorised vehicles.

Reason: In the interests of highway safety.

Condition 10

The accesses shall be hard surfaced in a bonded material for a minimum distance of 5.0 metres behind the highway boundary, prior to any part of the development approved herewith being brought into use and thereafter maintained in perpetuity.

Reason: In the interests of highway safety.
