Various departments contribute to the 28 Actions in the Net Zero Carbon (NZC) Plan, including the Chief Executive's Department (Regeneration Division), for example:

The County Council approved a NZC Plan on 12th February 2020.

Action NZC-28 of this Plan requires performance reports on progress towards becoming a net zero carbon local authority by 2030 to be published annually.

The first Annual Progress Report was received by EPP Scrutiny Committee at its meeting on 5th March 2021, and was subsequently approved by Executive Board on 22nd March 2021.

Extract from Report to EPP Scrutiny Committee on 5th March 2021:

...As referenced in our NZC Plan, Welsh Government have an ambition for a carbon neutral public sector by 2030 and were to establish Wales-wide methodologies for carbon emissions reporting by the end of 2019/20. Unfortunately, this Guidance is not yet available, and the delay has impacted on the following Actions in the NZC Plan which were dependent on it being published in April 2020:

Ref	Action
NZC-06	Develop appropriate carbon reduction target for the Council's non-domestic buildings as part of annual review of action plan
NZC-07	Develop appropriate carbon reduction target for the Council's street lighting as part of annual review of action plan
NZC-09	Develop appropriate carbon reduction target for the Council's fleet mileage as part of annual review of action plan
NZC-12	Develop appropriate carbon reduction target for the Council's business mileage as part of annual review of action plan
NZC-16	Develop appropriate target for renewable energy generation as part of annual review of action plan
NZC-27	Review action plan following publication of Welsh Government guidance regarding new national carbon reporting framework

We know that Welsh Government's reporting methodologies will differ from our current approach, and until we have the specific detail there appears to be little merit in setting targets etc. as these will inevitably have to be reviewed / amended when the Guidance is published. Following the publication of the reporting Guidance, we will review our carbon reporting methodologies and will set targets incorporating the new Guidance. This will not prevent us from progressing work outlined in our NZC Plan to reduce our carbon footprint...

Welsh Government published the 'Public sector net zero reporting guide' on 24th May 2021, and we are currently reviewing our carbon reporting methodologies and will be proposing targets that incorporate the new Guidance.
