EXECUTIVE SUMMARY
SOCIAL CARE & HEALTH SCRUTINY COMMITTEE
5th OCTOBER 2021

**Impact of COVID-19 on Carmarthenshire's Adult
Social Care Services**

BRIEF SUMMARY OF PURPOSE OF REPORT

This document is a position statement regarding the Covid-19 pandemic's impact on Adult Social Care services in Carmarthenshire.

The report describes how our Covid response is now very much business as usual, and how we are responding to the emerging demand and pressures particularly in relation to assessment and domiciliary care demand.

As Covid Recovery is now very much business as usual these bespoke Covid updates will no longer continue to be provided. However, items that would ordinarily go through Cabinet can be added to the forward workplan as and when needed.

1. Policy, Crime & Disorder and Equalities

We must make sure that we learn from this unprecedented experience as we reintroduce our services and re-set our strategic and operational priorities. We must identify our key learning points at a service and organisational level.

We will need to align our vision and business plans with the revised corporate '*Moving Forward in Carmarthenshire 5 Year Plan*', *Corporate Strategy* and *Well-being Objectives*.

The COVID-19 pandemic has led to inevitable widespread changes to the way in which services are delivered by local authorities. We will need to reprioritise services and our resources in budget setting.

It is critical that Local Authorities involve those who use services and their carers and adhere to equality policies when resetting social care service priorities.

3. Finance

We have continued to draw down financial support from the Welsh Government Hardship Fund, to help offset some of the additional costs associated with Covid. Under this scheme, Welsh Government has confirmed that the additional hardship payment to the domiciliary care sector to pay for an uplift of £1 per hour will continue until the end of March by way of recognition of the particular challenges faces, whilst other elements of the Hardship payments will taper. We have recently been awarded £2.4million from Welsh Government as part of the Covid Recovery Fund. We are using this funding to help us address issues relating to demand and pressures.

It is difficult to predict at this stage how this crisis will impact on long-term demand and consequently spend, but we continue to monitor.

We have continued to see some challenges in achieving our predicted PBBs this year. This is offset to an extent by reduced costs following changes in service provision such as Day Services.

4. ICT:

Digital solutions will play an ever-increasing role in shaping what we do. Technology and forms of virtual communication have been invaluable through this time

6. Staffing implications:

Staffing both within in-house and external domiciliary care is significantly compromised currently, which is impacting on our ability to deliver the required number of hours. In addition,

we are experiencing significant pressures in social work recruitment which is having an effect on our ability to pick up social work referrals as quickly as we would like. We are actively addressing the recruitment and retention challenges through a number of actions detailed in the report.

7. Physical Assets:

Significant implications on current and future use of physical assets, with greater challenges for building based services including reduced capacity, enhanced infection control and safe working practices.
