INTRODUCTION

Purpose of this Plan

This Divisional Delivery Plan sets the strategic actions and measures that the services within this Division will take forward in order for the Council to make progress against its Well-being Objectives, thematic priorities, and service priorities. Action and measures for the delivery of the Cabinet Vision Statement Commitments are also included.

The plan also notes the support required by the divisional services from the Core Business Enablers in order to make progress against their own actions or actions and measures to be delivered by those Business Enabler services in their own right.

The actions and measures should set the direction of travel and translate into individual staff objectives targets. It provides an open and transparent way of showing staff, customers, elected members, and stakeholders what is to be achieved and how we plan to do this.

Director's Foreword

As we start a new business year, I would like to thank all staff for their continued commitment to ensuring that our children, young people and learners of all ages are happy, safe, and thriving, and fulfilling their personal, social and learning potential.

We continue to strive to make sure that every child and young person is valued and valued equally and to deliver our ambitious priorities.

As Director, I'm proud of what we've achieved as a service over the last year; we have worked as a team, focused on and listened to our children and young people, strived for excellence and acted with integrity- we put Carmarthenshire's core values into practice.

As one Education and Children's Services team we worked effectively to ensure that our children and young people were successfully supported to access their education and all the services they required. I've been impressed by the innovation, perseverance and enthusiasm shown by staff across all divisions and schools to work through challenges and problem-solve together to make sure key services were available to our children, young people and their families.

However, it is important to acknowledge that as a Department and County Council we are facing significant issues. The demands on our services are at the highest they've been for many years and the financial position is extremely challenging. However, we will continue to do our best, to provide high quality services to support our children and young people.

As an Education and Children's Services Department and learning organisation we are continually looking at how we can further develop, address issues and improve. Therefore, the main priorities of the Department for the immediate future are encapsulated in the following 8 high-level statements-

Each Division has their own detailed Business Plan and document the actions relevant to their respective sections.

Gareth Morgans

Gareth Morgans; Director of Education and Children's Services

Head of Service: Children's and Families

Key Responsibilities:

- Assessment of eligible care and support needs
- Children in need of care and support and protection
- Safeguarding
- Children who are looked after and care leavers
- Fostering
- Adoption
- Children and young people with disabilities
- Schools safeguarding and attendance
- Residential children's homes including short breaks
- Early years family support
- Family support and preventative services
- Educational, Child Psychology and Emotional Health Team

Children's Services Division provides a range of services and support, whose overall aim is to enable children and young people to continue to reside within their own families and within their own communities wherever it is safe to do so, working together to prevent the number of children who suffer adverse childhood experiences (ACE's), and preventing the need for statutory involvement. Protecting children who are experiencing, or are at risk of abuse, neglect, or other kinds of harm is our priority. Our focus on early intervention / prevention to avoid ACE's for future generations remains critical in ensuring all children can reach their full potential and be healthy, happy, and safe. Enabling our children and young people to have the best possible start in life is our key objective. The Central Referral Team provides a single point of contact for anyone who has concerns over a child's welfare. Statutory child and family teams work in partnership with families and other agencies to co-produce and implement Care and Support Plans, as well as undertaking investigations into allegations of abuse and neglect. Support is provided to children in need of care and support, children who become looked after and care leavers, children on the child protection register, children with more complex needs. The Edge of Care Team and Integrated Family Support Team focus on working intensively with families and children at risk of becoming looked after, to enable them to remain within their families whenever possible. Early intervention and preventative teams such as Flying Start, Families First programmes, Team Around the Family (TAF), Tim Camau Bach, School Safeguarding and Attendance, Young Carers, all play a crucial role in providing the right help at the right time to prevent the need for children to become looked after.
