EXECUTIVE SUMMARY
DYFED PENSION FUND COMMITTEE
28/03/2023

Dyfed Pension Fund Budget 2023-2024

The expenditure budget for 2023-2024 is £122.8m and the income budget for 2023-2024 is £122.8m. This results in a net budget of zero. This provides the Fund with flexibility to utilise investment income based on cash flow requirements.

Expenditure:

Benefits payable is estimated at £108.9m which includes 10.1% pensions increase based on September 2022 CPI and 2.5% net effect for new pensioner members and deferred members. An increase in budget has also been allocated to lump sum retirement benefits and death benefits.

An increase in budget has been allocated to payments to and account of leavers. These payments relate to transfers out of the scheme and refunds.

Management expenses is estimated at £10.2m. Of this total, £7.95m is budgeted for investment manager fees.

Income:

Contributions is estimated at £95.1m. Employer contributions £69.5m and Employee contributions £25.6m. Contribution rates for the larger employers have been amended to reflect the results of the 2022 triennial valuation. An additional 5% was factored in for pay awards for the year.

Investment income is estimated at £24.2m to maintain a cash neutral budget so that the fund is not holding onto surplus cash that can be invested.

The non-cash related budget is £50m. This is an estimate for the realised gains and losses for individual manager portfolio rebalances and sales and purchases.

Finance

The report provides an initial view of the Budget for 2023-2024. Overall, the Fund needs to maintain a neutral budget so that there is sufficient income to meet its obligations. An estimated £122.8m income budget is a significant figure to achieve this.

CONSULTATIONS

I confirm that the appropriate consultations have taken in place and the outcomes are as detailed below
