

Planning Performance Monitoring - Core Indicators Reporting to Planning Committee

Quarter 1 - April to June 2023

1. PURPOSE OF REPORT.

To provide planning committee members with a Quarterly updates and end of year reports on the performance recorded within the Planning Service and notably Development Management and Enforcement.

It should be noted that this report is presented as part of the commitment to Performance Monitoring and as part of an ongoing commitment to report to Planning Committee.

The core indicators set out in the report will form part of our quarterly performance reporting for the Division.

This report details the performance for Quarter 1 for the period between April and June 2023. It also includes the comparative quarterly and cumulative data for 2022/23.

2. Summary of Performance

The report presents the latest update of the suite of performance indicators for the 1st quarter period between April and June 2023 for the planning division. It includes headline performance indicators reported nationally to Welsh Government - Indicators 2 and 10 as well as series of local indicators.

At the end of the financial year 2021/2022 the improvements against the annual Planning performance standards set by the Welsh Government were maintained throughout the 22/23 with PAM/018 Percentage of all planning applications for Quarter 4 determined in time indicating 87% with a cumulative return of 89% (WG target 80%). This improvement has been reflected within Q1 of 23/24 which shows an 89% return demonstrating that performance has continued to outperform the targets set by the Welsh Government.

Of the local performance indicators, they show a consistent level of performance compared to previous recent quarters maintaining and developing on the progress in performance from 2022/23. However, it is still noted that there are variations in performance against certain indicators for instance, Indicator 3 (major applications) which saw a fall to 50% determined within the target date. It should be noted this reflects the potential for such figures to be influenced by longer standing applications moving to determination.

Performance Indicator 14 for enforcement shows a consolidation of the improvements over previous performance returns with 82% of cases investigated within the 84-day target date. This reflects the second successive quarter that the 80% target has been met or exceeded.

3. Performance Indicators

The report identifies an extensive set of core performance monitoring indicators which will form part of the future monitoring of the planning services performance. These include both “National Indicators” prescribed by the Welsh Government and those identified by this Council.

The indicators seek to clearly convey performance to the committee and will along with other performance measures see a continued focus on performance improvement. The indicators reflect and include a range of areas of the planning service including determination of planning applications, enforcement, pre-applications, and appeals.
