

PENSIONS ADMINISTRATION REPORT – 22nd September 2023

This report provides a progress update on a number of projects being simultaneously undertaken, along with providing information on relevant issues in the administration of scheme benefits.

1. Regulatory update –

- a. McCloud/Sargeant update – You will recall from the previous report that the remedy would require the recalculation all pensions (including dependants pensions), death grants, and deferred benefits calculated since 1st April 2014 for those that were active on 31st March 2012. This will require all employers to provide the hours each part time scheme member, including any changes, they have worked between 1st April 2014 to 31st March 2022. All Employers have also been provided with data extracts to undertake data comparisons and identify any issues. Data reconciliation and validation is progressing well and query resolution is underway. Once amending regulations are issued our software supplier will be able to reflect the changes in the pensions system. At the time of writing the report regulations had not been issued but they must be in place by 1st October 2023. It is anticipated that manual intervention will be required for retirements from active status until software systems have been amended but it appears that recalculations for those who have already had benefits paid or are deferred would all need to be done manually.
- b. Pru – It was identified at the UK Technical Group that there had been a deterioration in service levels experienced by funds nationally. This was raised at the both the Local Government Pensions Committee and the National Scheme Advisory Board who met with representatives from Pru. UK Technical Group representatives have met directly with PRU. Nationally, there has been an overall improvement in disinvestment timescales. Further updates will be provided at the next meeting on service improvements by the Pru.

2. Terminated admitted bodies – Under the Pension Regulations, once the last active member terminates with an employer, a cessation valuation must be undertaken. Regulation 64 requires the Fund Actuary to issue a certificate confirming if there is an exit credit to be paid to the employer or debt to be recovered. Certificates have been requested from the Fund Actuary. The employers which have ceased are Pobl and Coombe Cheshire.

3. Breaches Register

Regulation 18(5) of the LGPS Regulations 2013 prescribes that there is a time limit for payment of a refund of pension contributions:

“An administering authority shall refund contributions to a person entitled under paragraph (1) when the person requests payment, or on the expiry of a period of five years beginning with the date the person’s active membership ceased if no request is made before then or, if the person attains age 75 before then, on the day before attaining age 75.”

The National Technical Group recommend to SAB, to change the regulations concerning the payment of a refund to reflect the position prior to 1 April 2014 i.e. to remove the prescription that requires an administering authority to pay a refund on the expiry of a period of five years beginning with the date the person’s active membership ceased if no request is made before then.

In making this recommendation the group acknowledged that interest would be added up to the date of payment, as opposed to on the expiry of 5 years and if a fully completed mandate is not returned by the member, no further action would take place i.e. the group agreed not to waste time or money on using Tracing services in respect of members who have been contacted repeatedly and do not reply. The SAB have made recommendations to MHCLG.

The refunds scheduled to be automatically paid in June 2023 to August 2023 have been included on the breaches register as the scheme members have not replied in order for the refund to be paid.

4. I-connect

In order to improve the timeliness of data flow from scheme employers to the administration section, a monthly update system called ‘i-connect’ has been implemented.

Further development work has continued with employers to ‘on board’ them in order that data can be transferred electronically. The table below shows the employers who are active on i-connect. In order to expedite the transition to electronic transmission of data, Pembrokeshire College, Coleg Ceredigion and Coleg Sir Gar have all be provided with a spreadsheet template to provide updates similar to i-connect. This process is known colloquially as ‘Monthly Updates’. Many of the other smaller employers already utilise ‘Monthly Updates’.

Coleg Ceredigion and Coleg Sir Gar are continuing to work with their payroll provider to ensure the data required is extracted and inputted into the correct fields. They have been given additional access to ‘test’ load the files in order that

discrepancies can be immediately identified. Pembrokeshire College are still working on resolving the outstanding queries before submitting further files.

Dyfed Powys Police have confirmed their intention is to implement i-connect with assistance from their payroll provider by April 2024.

5. GMP Reconciliation

When a scheme member attains State Pension Age, they will be advised of the amount of Guaranteed Minimum Pension (GMP) which is included in their pension. The GMP relates to the part of the pension for the period between April 1978 and April 1997 for which they were 'contracted-out'. For this period, the Scheme has to guarantee that their pension will be at least the same as it would have been, had they not been 'contracted-out'. Contracting out ceased in April 2016. HMRC have now stated that they will not be sending a statement to all individuals affected specifying who is responsible for paying their Guaranteed Minimum Pension (GMP). The pensions section will continue to reconcile the GMP values it holds for members with those calculated by HMRC. It ensures that all individuals recorded by HMRC against the fund are correct. The pensions section has reconciled 99.76% of the records held. Further information has also been issued to HMRC in order that they can amend their records, unfortunately, a response remains outstanding. Reconciliation work has also been undertaken in respect of active scheme members and 99.40% have been reconciled. Unfortunately HMRC have not responded to all the outstanding queries and therefore the reconciled data remains the same as the previous report.

6. Workflow

The tables overleaf detail the workflow statistics for the key tasks undertaken in the section for the period 1st April 2023 to 30th June 2023 in respect of the LGPS only. Please note that in circumstances where multiple iterations for the same calculation date have been undertaken, this is recorded as a single estimate. The workflow statistics are recorded on a quarterly basis.

Kevin Gerard

Pensions Manager
