

Y Pwyllgor Craffu Lle, Cynaliadwyedd a Newid Hinsawdd 30ain Ionawr 2024

Pwnc:

Strategaeth leol Rheoli Perygl Llifogydd ac Erydu Arfordirol

Y Pwrpas:

Mae adran 10.7 o Ddeddf Rheoli Llifogydd a Dŵr 2010 yn ei gwneud yn ofynnol i holl Awdurdodau Lleol gyhoeddi eu strategaeth a'u cynllun rheoli perygl llifogydd lleol. Bydd y strategaeth, a gefnogir gan gynllun mwy tactegol, yn egluro ein sefyllfa bresennol o ran rheoli perygl llifogydd ac erydu arfordirol, ein nodau ar gyfer 2030 a sut y byddwn yn eu cyflawni. Bydd cynllun yn cael ei gynhyrchu yn Ch4.

GOFYNNIR I'R PWYLLGOR CRAFFU:-

Adolygu ac asesu'r wybodaeth sydd wedi ei chynnwys yn yr Adroddiad a darparu unrhyw argymhellion, sylwadau, neu gyngor i'r Aelod Cabinet a/neu Gyfarwyddwr cyn i'r adroddiad gael ei ystyried gan y Cabinet.

Y Rheswm/Y Rhesymau

Llunio sylwadau i'w rhoi gerbron y Cabinet / Cyngor i'w hystyried.

YR AELOD CABINET SY'N GYFRIFOL AM Y PORTFFOLIO:-

Y Cynghorydd Aled Vaughan-Owen - yr Aelod Cabinet dros Newid Hinsawdd, Datgarboneiddio a Chynaliadwyedd

Y Gyfarwyddiaeth Enw Pennaeth y Gwasanaeth: Rhodri D Griffiths	Swyddi: Pennaeth Lle a Chynaliadwyedd	Cyfeiriadau e-bost: rdgriffiths@sirgar.gov.uk
Awdur yr Adroddiad: Ben Kathrens	Rheolwr Amddiffyn rhag Llifogydd ac Addasu'r Arfordir	bkathrens@sirgar.gov.uk

EXECUTIVE SUMMARY
Place, Sustainability & Climate Change Scrutiny Committee
30th January 2024

The Flood and Coastal Erosion Risk Management Local Strategy

1. BRIEF SUMMARY OF PURPOSE OF REPORT

We published our first Local Strategy in May 2013, setting out our overarching approach to managing flood risk in Carmarthenshire.

Alongside our strategy, we developed and published a flood risk management plan (the FRMP). The FRMP was a more detailed evaluation on an electoral ward level and from this analysis, fifty-five high risk areas were further evaluated.

This document is our second strategy. It will explain how flooding will be managed across Carmarthenshire, consistent with local objectives, measures policies and our cooperate and national strategies. This strategy also provides some background information on FCERM at both a local and national level.

There are chapters that cover how our FCERM duties and plans respond to climate change and how we align with other strategies. It provides insight into the roles and responsibilities pertaining to FCERM in Carmarthenshire and provides an update on our process since our first FRMP in 2018.

The primary purpose of the report is to set out our strategic assessment of flood risk in Carmarthenshire where we have 12,600 addresses at risk of flooding.

Secondly, it aims to formalise and agree our strategic aim which is
“to reduce the number of dwellings and businesses at risk of flooding”

Thirdly, it aims formalise five strategic objectives, and how they align with the national objectives.

- ***Modernise and develop a risk based, thematic approach to flood and coastal risk management.***
- ***Become data and information rich.***
- ***Champion NFM, sustainable drainage and nature based solutions;***
- ***Educate, advise and empower our communities to become more resilient.***
- ***Promote and support community adaption and partnership working.***

Finally, agree the 10 measures which will in turn deliver the 5 strategic objectives above.

DETAILED REPORT ATTACHED?

YES

IMPLICATIONS

ALL IMPLICATIONS REQUIRE SIGN OFF BY THE DIRECTOR OR HEAD OF SERVICE

I confirm that other than those implications which have been agreed with the appropriate Directors / Heads of Service and are referred to in detail below, there are no other implications associated with this report:

Signed: **Rhodri Griffiths**

Head of Head of Place & Sustainability

Policy, Crime & Disorder and Equalities	Legal	Finance	ICT	Risk Management Issues	Staffing Implications	Physical Assets	Bio-diversity & Climate Change
NONE	YES	NONE	YES	NONE	NONE	NONE	YES

2. Legal

S10.7 of the Flood and Water Management Act 2010 requires all Local Authorities to publish their local flood risk management strategy and plan.

'The local flood risk management strategy and plan is a Council function.

Linda Rees-Jones (26 Sept 2023)

3. Finance

The finance element and costings will be delivered as a part of the tactical Flood Risk Management Plan. It is proposed that this is brought to CMT in early summer (April / May)

The £225k annual WG revenue grant will be lost in 2025-26 to the RSG.

4. ICT

ICT will play a key role in managing flood risk and adapting our communities to better manage the affects of climate change.

One of our 5 objectives is to become data rich. That will need both the systems to capture that information, but also systems to store and interrogate that data.

Measure 1 of 10 is to adopt and implement a risk based, thematic incident management system. We would view this as a priority both in terms of ensuring that services are delivered efficiently and prioritised accordingly but also in maximising the customer experience and affording operational departments the necessary data to develop robust business cases for future funding.

6. Staffing Implications

The staffing implications will be tabled as a part of the tactical Flood Risk Management Plan. It is proposed that this is brought to CMT in early summer (April / May)

8. Biodiversity and Climate Change

Chapter-3 in the attached details how this report will seek to address climate change.

CONSULTATIONS

I confirm that the appropriate consultations have taken in place and the outcomes are as detailed below:
