Cynnig Gofal Plant Cymru Childcare Offer for Wales

The purpose of this report is to provide Scrutiny Committee Members with an update on the **Childcare Offer for Wales**.

Background and links with corporate strategic objectives

The Welsh Government recognises that the increasing cost of childcare continues to be one of the biggest challenges facing working families in Wales. Supporting families with high quality, flexible and affordable childcare supports economic regeneration, can reduce pressures on family income and help parents to participate in work, thus reducing a family's risk of poverty. It also supports the wellbeing of children by providing positive and rich childcare experiences.

Given the current cost of living crisis this funded offer is a much welcomed offer for working parents. As a Local Authority we remain committed to supporting, promoting and publicising this Offer in order to ensure as many eligible working parents and children as possible can benefit from this.

In Carmarthenshire we as a Local Authority have committed to delivering the Childcare Offer for Wales under :

- ***Wellbeing Objective 1 - Enabling our Children and Young People to have the best possible start in life - Start Well***

What is the Childcare Offer?

The Childcare Offer enables eligible **working parents of 3 and 4 year olds** to **access 30 hours a week of funded early education and childcare for 48 weeks of the year**. Currently Welsh Government already provide 10 hours funded Foundation Learning provision (term time). In effect this means an additional 20 hours of funded childcare for eligible children (term time). During holiday time this will increase to 30 hours of funded childcare which parents can select to use from up to 3 registered childcare providers (for 9 weeks). Hours cannot be banked/carried over. If they are not utilised each week they are lost. The number of hours each child is entitled to per week must not exceed 30.

A selection of recent quotes received from local Childcare providers

"The childcare offer is absolutely brilliant for myself as the nursery manager and parents. It is very beneficial as several families have increased their days since being eligible, as it allows them to be able to work extra hours and not have as much to pay-out on nursery fees. Also I have noticed that parents who have had childcare offer and do extra days are now paying invoices on time, and have pointed out that it has helped them out financially. It has also improved the nursery financially as money comes in on time." Day Nursery, September 2023

"On behalf of our Holiday Club, from staff parents and children alike, I would like to thank yourselves and the Welsh Government for their constant support always. The 30 hours free childcare offer has helped us immensely as a club to continue to remain positive and open. Not only is it amazing support financially for the parents but it also introduces new children to the club for many years to follow. In this climate we live in , it's a positive incentive created by the government to help further support the younger generation, to enable parents to continue to work, knowing their children are well cared for and easing the burden financially. It also helps some children interact socially during school holidays whilst parents are out working. Also helps staff to continue working as it enables us financially to remain open during difficult times. From all of us we thank you for this beneficial childcare offer. So appreciated by all who use and need it. " **Holiday Club, Summer 2023**
